The Psychology of Love Thiago de Almeida, David L. Rodrigues, 2025-01-16 The topic of loving relationships is one of the most important and often problematic areas of people's lives Unfortunately such importance is best perceived when relationships are unsatisfactory and or threatened by the possibility of an imminent breakup When that happens our mood our ability to concentrate our energy our work and our health among other dimensions of our lives can be profoundly affected Although contemporary love life appears to be markedly different from that of predecessor generations given the wide range of current relationships as the hook up living together separate cohabitation virtual love or even betrayal among many other forms of loving interaction we live in a time when relationships between two or more people it seems need more understanding and more accurate research However studying love scientifically is a hard task because of methodological difficulties and conceptual improprieties intrinsically related to this type of investigation Because it can be considered such a familiar concept many researchers should agree on what love is and how it can be measured But this is not what occurs After all what is love Is it as a psychological phenomenon capable of being scientifically studied by psychology The goal of this Research Topic is to Promote and disseminate publications related to what is conceived scientifically as the Psychology of Love differing from conceptions related to self help and common sense Conceptualize love through psychological science Systematize knowledge about the nature of love and related phenomena such as jealousy shyness inhibition infidelity and other related topics Understand conceptualizations of love and relationship dynamics of people in monogamous and consensually non monogamous relationships Research the establishment and maintenance of romantic relationships and try to understand scientifically the role of love in marital satisfaction

Close Relationships Clyde Hendrick, Susan S. Hendrick, 2000-02-17 The authors in the volume extend the reach of their comprehensive reviews into theoretically driven and innovating explorations The scope of coverage across and within chapters is striking The developmentalist the methodologist the feminist the contextualist and the cross culturalist alike will find satisfaction in reading the chapters Catherine A Surra The University of Texas at Austin The science of close relationships is relatively new and complex *Close Relationships A Sourcebook* represents the growing maturity of this multidisciplinary enterprise The volume offers 26 chapters organized into four thematic areas relationship methods forms

processes and threats as well as a foreword and an epilogue The volume provides a panoramic view of close relationship research as it enters the 21st century offering highlights from current literature original research practical applications and projections for future research Relationship Methods includes both qualitative and quantitative chapters Relationship Forms includes many of the stages types and roles that characterize intimate relationships In a developmental fashion chapters address social networks children s friendships adolescent relationships adult friendships and friendships in later life Chapters on multicultural and multiracial relationships and gay lesbian and bisexual relationships illustrate the variety of relationship forms that the science of close relationships must consider The alignments and realignments of traditional family structure are considered in terms of contemporary marriage divorce and single parenting and remarried families Relationship Processes includes chapters on emotion attachment romantic love sexuality intimacy communication conflict social support and relational maintenance The important topic of gender concludes the section The shadow side of human nature is explored in the Relationship Threats section with chapters on infidelity and jealousy physical and sexual aggression depression and loss and bereavement A foreword by Ellen Berscheid sets the stage for this broad ranging collection of chapters Steve Duck and Linda Acitelli conclude with an epilogue that provides a new beginning for the science of close relationships
