American Education ,1900 On the (Divine) Origin of Our Species Darrel R. Falk,2023-11-30 The Bible s opening chapter includes these words So God created humans in his image in the image of God he created them male and female he created them We are created beings with a unique status in creation Nothing is more fundamental to Christian faith Yet biologists present extensive data and provide a picture of how our species came to be but there is no Creator in the intricate details of the painting they provide If the scientific evidence for the evolution picture is reasonable and in general it is and if humans were indeed created from a common ancestor of the great apes then what can be said about the Artist who Christians believe was at work Vague answers are not satisfactory anymore not in this scientific age Recent mainstream data from paleoanthropology and genetics suggest that the basis of our species success was not that they were superior fighters Rather the reason our ancestors thrived was likely their ability to function cooperatively in groups to respect each other and to get along This reframes the question about the nature of the hovering Spirit s activity in bringing our species into being
