

The End Of The World

Quite unexpectedly, as Vasserot
The armless ambidextrian was lighting
A match between his great and second toe,
And Ralph the lion was engaged in biting
The neck of Madame Sossman while the drum
Pointed, and Teeny was about to cough
In waltz-time swinging Jocko by the thumb
Quite unexpectedly to top blew off:

And there, there overhead, there, there hung over
Those thousands of white faces, those dazed eyes,
There in the starless dark, the poise, the hover,
There with vast wings across the cancelled skies,
There in the sudden blackness the black pall
Of nothing, nothing, nothing -- nothing at all.

Love From The Ends Of The Earth Poems:

Love, from the Ends of the Earth Enoch Dillon, 1990-01-01 Love Poems To A Poet: 111 Poems Of Eternal Love, Passion and Desire Leila Ziari ,2020-02-14 Leila Ziari s first collection of poetry invites readers into a world of transformative love Dedicated to and inspired by Bob Dylan these one hundred and eleven poems reveal the bliss pain expansion longing and ecstasy of eternal love Earthly and ethereal timely and timeless Just as Ziari chronicles her own metamorphosis she invites the reader to be inspired uplifted healed and renewed Through her bold confession of passionate devotion Ziari dissects the very essence of love and the whirlwind of emotions therein It is her vulnerability that allow for such immersion reminding readers that those we love are part of our spirits and have been embedded in our souls since the beginning of time While she hints at deep scars this poet never wallows Her transcendent poetry reaches beyond Ziari shows us what we know but so often forget the evolutionary and revolutionary power of love **From the Ends of the Earth** Abraham J. Karp, Library of Congress, 1991 This bibliography includes collections of books films maps prints photographs and sheet music related to the cultural and spiritual history of the People of the Book *The Edge of the Earth* Christina Schwarz, 2014-04-22 Trudy escapes her banal life to live and work at an isolated lighthouse in Point Lucia California with mysterious and energetic Oskar What they discover hiding among the rocks changes everything **Poems of Love and Home** William Wendell Riley, 1906

Ross** John Dawson Ross, 1892 *An Earth Poem, and Other Poems* Gerda Dalliba, 1908 *Lyric Poetry and Space Exploration from Einstein to the Present* Margaret Greaves, 2023-05-23 Poetry and astronomy often travel together in the political sphere from Milton s meeting with Galileo under house arrest to NASA s practice of launching poems into space Anchored in the post war period but drawing on a long history of poetry and science *Lyric Poetry and Space Exploration from Einstein to the Present* charts the surprising connection between poetry and extra terrestrial space In an era defined by the vast scales of globalization environmental disaster and space travel poets bring the small scales of lyric intimacy to bear on cosmic immensity While outer space might seem the domain of more popular genres lyric poetry has ancient and enduring associations with cosmic inquiry that have made it central to post war space culture As the Cold War played out in space American institutions and media from NASA to Star Trek enlisted poetry to present space exploration as a peaceful mission on behalf of humankind Meanwhile poets from across the globe have turned to the cosmos to contest American imperialism challenging conventional ideas about lyric poetry in the process Poets including Elizabeth Bishop Adrienne Rich Seamus Heaney Derek Walcott Agha Shahid Ali and Tracy K Smith invoke the extra terrestrial to interrogate national histories alongside their craft Dazzled by the aesthetics of astronomy but wary of its imperial uses poets employ astronomical figures and methods to imagine how we might care for both ourselves and others on a shared planet Incredible Poem Daji

Raut,2022-12-26 These twenty eight poems by Daji Damodar Raut are very elegant and flawless The emotionality of his poems is admirable The language of these entire poems is very simple easy fluent and far from complicated As you read the poem gets Stuck in your mind and reaches deep From the very first poem to the twenty eight poem the ornamentation in the poem increases in its rhythm and content and finally reaches a height this success of the poet is admirable The poet has touched many main topics in this collection of poems Touching on various topics like nature God lover rain trees happiness beauty love emotions etc the poet has captured the mind of the reader and left the reader Spellbound Naresh Deshmukh

The Form of Love James Kuzner,2021-08-03 Can poetry articulate something about love that philosophy cannot The Form of Love argues that it can In close readings of seven metaphysical poems the book shows how poets of the early modern period and beyond use poetic form to turn philosophy to other ends in order not to represent the truth about love but to create a virtual experience of love in all its guises The Form of Love shows how verse creates love that can t exist without poetry s specific affordances and how poems can in their impossibility prompt love s radical re imagining Like the philosophies on which they draw metaphysical poems imagine love as an intense form of non sovereignty of giving up control They even imagine love as a liberating bondage to a friend a beloved a saint a God or a garden Yet these poems create strange striking versions of such love made in rather than through the devices structures and forces where love appears Tracing how poems think Kuzner argues requires an intimate form of reading close even too close attention to and thinking with the text Showing how poetry thinks of love otherwise than other fields the book reveals how poetry and philosophy can nevertheless enter into a relation that is itself like love **Wayside echoes, essays and poems** George S. Astins,1897

Symonds* Roden Noel,1902 **This Earth, That Sky** Manuel Bandeira,2024-06-28 This is a generous long overdue presentation of the major Brazilian poet Manuel Bandeira 1886 1968 to the English speaking reader Well over a hundred poems appear here in both Portuguese and English together with a critical overview that introduces the poet and Brazilian poetry to the nonspecialist and contributes significantly to the existing body of Bandeira scholarship Bandeira s poetry not only stands among the most important in twentieth century Brazil but also embodies the experience of transition from one literary movement to another The poems span a half century of writing from the publication of Bandeira s first book in 1917 to the definitive edition of his collected work in 1966 Because critics agree that the poet s most influential creative efforts began in 1930 with the publication of *Libertinagem* *Libertinism* the collection concentrates on the later period A smaller number of poems drawn from the three books published before this date provide a useful basis for comparison Candace Slater s fine versions of the poems are augmented by a translator s note that considers Bandeira s poetic language in terms

of the particular challenges it offers the translator into English Her introduction offers a fresh and comprehensive look at the poet whose artistic transformation from nineteenth century modes of expression to experimental twentieth century Modernism paralleled the transformation of his country It focuses on the poet s continuing alternation between an acceptance of if not allegiance to the material world and a desire for something more This fundamental though often subtle opposition is reflected in the title *This Earth That Sky* This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989 **Critical Companion to Robert Frost** Deirdre J. Fagan, 2007 Known for his favorite themes of New England and nature Robert Frost may well be the most famous American poet of the 20th century This is an encyclopedic guide to the life and works of this great American poet It combines critical analysis with information on Frost s life providing a one stop resource for students Last poems; Translations; Greek Christian poets; Book of the poets, Miscellanies Elizabeth Barrett Browning, 1901
