Love Sexuality And Matriarchy About Gender:

Love, Sexuality, and Matriarchy Erich Fromm, 2024-02-27 A fascinating collection of essays on the complicated relations between men and women from the New York Times bestselling author of *The Art of Loving* The New York Times Book Review The renowned social psychologist delves deep into the fraught relationship between genders drawing upon the influential insights of Bachofen Freud Marx and Briffault Not primarily interested in the existence of anatomical and biological differences between the sexes Fromm instead analyzes how these differences have been made use of throughout human history Drawing from Bachofen's *Mother Right* Fromm expounds on how matriarchal and patriarchal social structures determine relations between the sexes in essential ways and how they are shaped by the dominant orientation of the social character at any given time He posits that the most important question concerning gender relations is which characterological orientation determines human relationships love or hate love of life or fascination with force Thus it will not be gender conflict that will determine humanity's future but whether we opt for love of life or love of death As these essays show Fromm was a wide ranging thinker whose writings sometimes manifested brilliant insights or practical wisdom Kirkus Reviews

Utopia and Education. Studies in Philosophy, Theory of Education and Pedagogy of Asylum Rafał Włodarczyk, 2022-01-01

Utopia and Education is an original contribution of the philosophy and theory of education which also enters the fields of disciplines other than pedagogy and uses their approaches and achievements. The work is part of utopian studies and complements its discourse with a less marked path of philosophy and theory of education. Moreover, in the context of pedagogy and education, it takes up a number of issues whose significance goes beyond the conventional framework of a single discipline: utopia, ideology, social criticism, fundamentalism, democracy, populism, translation, transdisciplinarity, and knowledge transfer, socialisation, school as one of the social institutions, etc. The work not only reconstructs knowledge about specific phenomena relevant to education and pedagogy but also proposes an original solution to educational problems in the form of the concept of asylum pedagogy. The approach to these phenomena is well reflected in the division of the book into two parts. The book, apart from references to researchers associated with utopian studies, addresses ideas of such figures of the humanities and social sciences as Emmanuel Levinas and Erich Fromm; their concepts were earlier used by the Author in two monographs. Besides, there are references to Bronisław Baczko, George Steiner, Jacques Derrida, Michael Walzer, Hannah Arendt, Janusz Korczak, and Ilan Gurevich. Throughout the work, the Author attempts to combine the perspectives of critical pedagogy and dialogue, finds inspiration in the achievements of the Warsaw School of the History of Ideas, and draws on Jewish thought and tradition.

The Dunayevskaya-Marcuse-Fromm Correspondence, 1954-1978 Kevin Anderson, Russell Rockwell, 2012-01-01. This volume contains the correspondence during the years 1954 to 1978 between Marxist Humanist and feminist philosopher Raya Dunayevskaya (1910-87) and the Hegelian Marxist philosopher and social theorist Herbert Marcuse (1898-1979) and the psychologist and social critic Erich Fromm (1900-80). The exchanges show the deeply Marxist and humanist concerns of these theorists while also highlighting their significant differences on key issues in philosophy, politics, and psychology during the turbulent decades of the 1950s, 1960s, and 1970s.

Amazons in America Keira V. Williams, 2019-03-06. With this remarkable study, historian Keira V. Williams shows how fictional matriarchies produced for specific audiences in successive eras and across multiple media constitute prescriptive, solution-oriented thought experiments directed at contemporary social issues. In the process, *Amazons in America* uncovers a rich tradition of matriarchal popular culture in the United States. Beginning with late nineteenth-century anthropological studies which theorized a universal prehistoric matriarchy, Williams explores how representations of women-centered societies reveal changing ideas of gender and power over the course of the twentieth century and into the present day. She examines a deep archive of cultural artifacts, both familiar and obscure, including L. Frank Baum's *The Wizard of Oz* series, Progressive-era fiction like Charlotte Perkins Gilman's utopian novel *Herland*, the original 1940s *Wonder Woman* comics, midcentury films featuring nuclear families, and feminist science-fiction novels from the 1970s that invented prehistoric and futuristic matriarchal societies. While such texts have at times served as sites of feminist theory, Williams unpacks their cyclical nature and, in doing so, pinpoints some of the

premises that have historically hindered gender equality in the United States Williams also delves into popular works from the twenty first century such as Tyler Perry's Madea franchise and DC Comics Warner Bros globally successful film Wonder Woman which attest to the ongoing presence of matriarchal ideas and their capacity for combating patriarchy and white nationalism with visions of rebellion and liberation Amazons in America provides an indispensable critique of how anxieties and fantasies about women in power are culturally expressed ultimately informing a broader discussion about how to nurture a stable equitable society

From Eve to Dawn: A History of Women in the World Volume I Marilyn French, 2008-04-01 The first volume of the New York Times bestselling author's monumental and unprecedented history Consistently thought provoking The New York Review of Books The internationally celebrated author of *The Women's Room* Marilyn French spent over fifteen years with a team of researchers and prominent historians examining women's lives and activities in civilizations and societies spanning the ages Beginning in prehistory Origins moves on to examine women's lives in ancient Egypt China India Peru Mexico Greece and Rome In her reconstruction of wars laws and other activities affecting both women and men French also traces the worldviews underpinning them She also depicts how women's relationship to Judaism Christianity and Islam changed for good and bad over the centuries She backs up even her more controversial theories with an impressive accumulation of academically accepted historical anthropological and sociological sources Written in concise understated language this is a significant addition to literature on women's studies and history Publishers Weekly

The Radical Humanism of Erich Fromm K. Durkin, 2014-09-04 This book shortlisted for the British Sociological Association's Philip Abrams Memorial Prize 2015 argues that Fromm is a vital and largely overlooked contribution to twentieth century intellectual history and one who offers a refreshingly reconfigured form of humanism that is capable of reintegrating explicitly humanist analytical categories and schemas back into social theoretical and scientific considerations

Erich Fromm and the Quest for Solidarity Lawrence Wilde, 2016-04-30 Erich Fromm and the Quest for Solidarity argues that Fromm's humanistic ethics provides a framework for the analysis of alienation in affluent societies and his exploration of the social forces capable of challenging that alienation It examines his work on authoritarianism the experience of work the struggle against patriarchy the dangers of consumerism and the manipulation of needs the urgent need to revive democracy and the challenge of the emerging one world Never losing sight of the ancient dream of human solidarity Fromm's explicitly ethical approach exerts a compelling relevance to a range of issues in contemporary social and political theory

Erich Fromm and Critical Criminology Kevin Anderson, Richard Quinney, 2000 Linking the writings of the great humanist psychologist Erich Fromm to criminology this collection shows how viewing crime patterns and the criminal justice system from Fromm's humanist perspective opens a path to more effective and more humane ways of understanding and dealing with crime and criminals Contributors to *Erich Fromm and Critical Criminology* draw on Fromm's writings on alienation sadomasochism and patriarchal matriarchal values to assess the kinds of crimes being committed and the kinds of people

committing them They explore the spiritual and intellectual sources of Fromm's thought including Jewish theology Freudian psychoanalysis Marxism and Buddhism and demonstrate how his socialist humanism points toward a society free of crime and violence This volume also includes translations of two of Fromm's early articles on criminal justice never before available in English in which he develops a psychoanalytic Marxist critique of the role of criminal justice in a class society At a time when American society seems bent to an unprecedented degree on imprisonment executions and other violent responses to the problem of crime Fromm's humanist critique offers a unique vantage point from which to renew and develop a critical criminology
