Love Beyond Death The Anatomy Of A Myth In The Arts:

Love Beyond Death Rudolph Binion, 1993-02 Identifies a trend in 19th century art and literature that reconciled love and death demonstrates how it constituted a break from ideas in the premodern era and surveys some of its modern manifestations Annotation copyright by Book News Inc Portland OR *Greek Myth and Western Art* Karl Kilinski, 2013 This richly illustrated book examines the legacy of Greek mythology in Western art from the classical era to the present Tracing the emergence survival and transformation of key mythological figures and motifs from ancient Greece through the modern era it explores the enduring importance of such myths for artists and viewers in their own time and over the millennia that followed Encyclopedia of Comparative Iconography Helene E. Roberts, 2013-09-05 First published in 1998 Routledge is an imprint of Taylor Francis an informa company Women and Death 3 Clare Bielby, Anna Richards, 2010 Studies representations of women and death by women to see whether and how they differ from patriarchal versions **Ophelia and Victorian Visual Culture** Kimberly Rhodes, 2017-07-05 Kimberly Rhodes s interdisciplinary book is the first to explore fully the complicated representational history of Shakespeare s Ophelia during the Victorian period In nineteenth century Britain the shape function and representation of women s bodies were typically regulated and interpreted by public and private institutions while emblematic fictional female figures like Ophelia functioned as idealized templates of Victorian womanhood Rhodes examines the widely disseminated representations of Ophelia from works by visual artists and writers to interpretations of her character in contemporary productions of Hamlet revealing her as a nexus of the struggle for the female body s subjugation By considering a broad range of materials including works by Anna Lea Merritt Elizabeth Siddal Dante Gabriel Rossetti and John Everett Millais and paying special attention to images women produced Rhodes illuminates Ophelia as a figure whose importance crossed class and national boundaries Her analysis yields fascinating insights into high and mass culture and enables transnational comparisons that reveal the compelling associations among Ophelia gender roles body image and national identity **Wounds of Love** Frank Graziano, 2004-01-15 The Peruvian mystic St Rose of Lima Isabel Flores y Oliva 1586 1617 was canonized in 1671 as the first saint of the New World and remains the object of widespread devotion today In this engrossing new study Frank Graziano uses the example of St Rose to explore the meaning of female mysticism and the way in which saints are products of their cultures Virginity austerity eucharistic devotion incessant mortification and mystical marriage to Christ characterized the devotional regimen that structured St Rose s entire life Many of her mystical practices echo the symptoms of such modern psychological disorders as masochism depression hysteria and anorexia nervosa Graziano offers a sophisticated argument not only for the origins and meaning of these behaviors in Rose s case but also for the reason her culture venerated them as signs of sanctity In the process he explores a wide range of themes from the idea of suffering as an expression of love to the assimilation of childhood trauma through religious repetition Graziano also offers a penetrating analysis of the politics of Rose s canonization He finds that her

mystical union with God bypassing the institutional channels of sacrament and priestly mediation was inherently subversive to the bureaucratized Church Canonization was a cooptation by which Rose's competing claim to Christ was integrated into the Catholic canon The book concludes with a fascinating exploration of mystical eroticism with its intense experiences of vision and ecstasy The eroticized suffering of many mystics is shown to be very human in origin the mystic's wounded love is projected onto a God conceived to accommodate it Wounds of Love is based on a decade of research in archives rare books and an extraordinary range of secondary sources Introducing an innovative method that integrates history cultural studies psychoanalysis and clinical psychology this compelling work offers a bold new interpretation of female mysticism

Death and Delusion Jerry S. Piven, 2006-09-01 This book argues that conventional

interpretation of Freudian psychology has not accounted for the death anxiety and its relation to illusions and delusions It contends that there is evidence to support the view that death anxiety is a very normal and central emotional threat human beings deal with by impeding awareness of the threat **The Conformists** Evgenija Garbolevsky,2011-05-25 The complexities and paradoxes of the Bulgarian film industry during the era of Communist rule 1945 1989 are explored This influential industry was mobilized for the needs of the state During its creation and development cultural institutions and those involved in film production operated within a relatively closed system based on rewards and punishments imposed by the Communist bureaucratic apparatus Sub textual content in films produced in Bulgaria during this period highlights the attitude of the elite towards the regime Understanding this multifaceted relationship helps explain why so many intellectuals found the film industry to be an attractive field in which to work and decided to remain loyal to the regime instead of leaving or openly rebelling against it This work challenges the historiographical perception that the arts in the Eastern Bloc during the Cold War were largely unsuccessful vehicles of propaganda and dissent By using a comparative methodological approach the cinema arts in the East and West are shown following similar paths despite the Iron Curtain Provided by publisher

The Annual of Psychoanalysis, V. 31 Jerome A. Winer, James W. Anderson, 2013-09-05 In 1958 William L. Langer in a well known presidential address to the American Historical Association declared the informed use of psychoanalytic depth psychology as the next assignment for professional historians. *Psychoanalysis and History* volume 31 of *The Annual of Psychoanalysis* examines the degree to which Langer's directive has been realized in the intervening 45 years. Section I makes the case for psychobiography in the lives of historical figures and exemplifies this perspective with analytically informed studies of the art of Wassily Kandinsky, the films of Stanley Kubrick and the anti-Semitism of Adolf Hitler. Section II reviews Freud's own psychohistorical contributions and then considers the relevance to historical inquiry of the more recent perspectives of Winnicott, Kernberg and Kohut. Section III explores an intriguing tributary of psychobiographical inquiry: the impact of the biographer's own subjectivity on his or her work. Section IV turns to a topic of perennial interest: the psychobiographical study of American presidents. Section V turns to the special challenges of applying psychoanalysis to topics of religious history and includes topical studies of religious figures as disparate as the 15th century Asian Drukpa Kunley and Osama bin Laden. Section VI focuses on the recent extension of psychohistorical inquiry to groups of people and to cultural phenomena: more generally, an investigation of the youth movement in pre-Nazi Germany, consideration of how societies no less than individuals reenact and work through traumas over time, and an outline of the role of analysis in constructing a depth psychological social psychology of use to historians. These papers no less than those that precede them are compelling testimony to the claim with which editors James William Anderson and Jerome A. Winer begin the volume: to wit, that Psychoanalysis would seem to be a resource indispensable to the study of history.

Profiling Political Leaders Ofer Feldman, Linda O. Valenty, 2001-08-30 Feldman, Valenty and their contributors present state-of-the-art evaluations of linkages between personality, motivation, decision making, leadership style and behavior among political leaders across divergent cultures. Leading scholars in the field examine the application of theoretical approaches and research methods used to evaluate these important relationships. They effectively illustrate the concomitant role of cultural and political context, historical circumstance, environmental factors and socialization agents affecting political leadership and performance. Contributors evaluate methods currently in use by scholars in political science, psychology, political psychology, social psychology and history, including psychodiagnostic and psychobiographical approaches and the application of these methods in profiling the personalities of political leaders. Each chapter presents a unique case study evaluating a political leader or leaders, including such major figures as Mao Zedong, Tony Blair, Seyyed Mohammed Khatami, Helmut Kohl and Stalin, Yeltsin and Putin.
