The Erotic Margin Irvin Cemil Schick,1999 Gender and sexuality have long held an important place in western attitudes towards the people and regions of the world from the titillating accounts of harem life in the Middle East to the terrifying captivity narratives of North America The Erotic Margin is a first attempt to pull together this large disparate and often contradictory literature and view it as a corpus Schick argues that such images served to construct spatial difference and thereby helped Europe represent its own place in the world during an age of rapid geographical expansion Informed by the recent literature on human geography as well as feminist and postcolonial theory The Erotic Margin turns to sexual anthropology as well as travel literature in which from the eighteenth century on both traveler and destination were portrayed in unmistakably gendered and sexualized terms Reviewing examples ranging from the New World to India the Near East to black Africa and the South Sea islands to the Barbary Coast the book reflects on why foreign women were variously portrayed as alluring or threatening foreign men as effeminate weaklings or dangerous rapists and foreign lands as sexual idylls or hearts of darkness

Environmental Stewardship Dorothy J. Howell,1997-07-23 This work addresses the cultural background of stewardship as a progression from individual personal aesthetics to a deeply informed environmental ethic that could become a national environmental policy Howell begins by assessing our personal cultural background and

our philosophical notions of our role in the natural world She looks at the evolution of Western civilization and changing worldviews in relation to nature examining especially early conceptions of a more appealing simpler life closer to nature in contrast to the perceived civilized world that is portrayed as decadent Howell examines archetypes from literature and the popular arts finding examples in Jungian psychology and in contemporary film and television that support the Wild Man image and promote the Simple Life yearning She then looks at the early 20th century conservation and preservation writers as the most direct ancestors of today's environmental movement and an immediate source of inspiration
