Ethics and Christian Musicking Nathan Myrick, Mark Porter, 2021-03-22 The relationship between musical activity and ethical significance occupies long traditions of thought and reflection both within Christianity and beyond From concerns regarding music and the passions in early Christian writings through to moral panics regarding rock music in the 20th century Christians have often gravitated to the view that music can become morally weighted building a range of normative practices and prescriptions upon particular modes of ethical judgment But how should we think about ethics and Christian musical activity in the contemporary world As studies of Christian musicking have moved to incorporate the experiences agencies and relationships of congregations ethical questions have become implicit in new ways in a range of recent research how do communities negotiate questions of value in music How are processes of encounter with a variety of different others negotiated through musical activity What responsibilities arise within musical communities This volume seeks to expand this conversation Divided into four sections the book covers the relationship of Christian musicking to the body responsibilities and values identity and encounter and notions of the self The result is a wide ranging perspective on music as an ethical practice particularly as it relates to contemporary religious and spiritual communities This collection is

an important milestone at the intersection of ethnomusicology musicology religious studies and theology It will be a vital reference for scholars and practitioners reflecting on the values and practices of worshipping communities in the contemporary world *Christian Art in the Place and in the Form of Lutheran Worship* Paul Edward Kretzmann,1921 This unique volume offers a handbook for busy pastor student or interested layperson to better understand the use of Christian art and the history of its use in Lutheranism since the time of the Reformation The author states in the introduction to the book The Lutheran Church was never an enemy of the art neither the fine arts nor industrialized arts The Lutheran Church to confess its faith did not hesitate to enlist the aid of pure and beautiful art forms not only in the harmonies of poetry and music but also in architecture sculpture painting bronze work wood carving and embroidery This book concerns itself chiefly with church architecture but necessarily also discusses the place of the fine arts in the construction and use of spaces consecrated to the worship of the One True God Father Son and Holy Spirit where God s people are gathered to receive His gifts of grace and mercy through His Holy Word and the Blessed Sacrament of the Altar *A New Song We Now Begin*

Worship Wars in Early Lutheranism Joseph Herl, 2008 How important was music to Martin Luther Drawing on hundreds of liturgical documents contemporary accounts of services books on church music and other sources Joseph Herl rewrites the history of music and congregational song in German Lutheran churches Herl traces the path of music and congregational song in the Lutheran church from the Reformation to 1800 to show how it acquired its reputation as the singing church In the centuries after its founding in a debate that was to have a strong impact on Johann Sebastian Bach and his contemporaries the Lutheran church was torn over a new style of church music that many found more entertaining than devotional By the end of the eighteenth century Lutherans were trying to hold their own against a new secularism and many members of the clergy favored wholesale revision or even abandonment of the historic liturgy in order to make worship more relevant in contemporary society Herl paints a vivid picture of these developments using as a backdrop the gradual transition from a choral to a congregational liturgy The author eschews the usual analyses of musical repertoire and deals instead with events people and ideas drawing readers inside the story and helping them sense what it must have been like to attend a Lutheran church in the sixteenth through eighteenth centuries Parallel developments in Catholic churches are discussed as are the rise of organ accompaniment of hymns and questions of musical performance practice Although written with academic precision the writing is clear and comprehensible to the nonspecialist and entertaining anecdotes abound Appendixes include translations of several important historical documents and a set of tables outlining the Lutheran mass as presented in 172 different liturgical orders The bibliography includes 400 Lutheran church orders and reports of ecclesiastical visitations read by the author
