World War II It was widely used by U S and foreign military police forces and has also been a popular civilian firearm The first M1 carbines were delivered in mid 1942 with priority given to troops in Europe The M1 was highly praised for its small size light weight and firepower especially by troops who were unable to use a full size rifle as their primary weapon The 30 Carbine cartridge was adequate in both muzzle energy and muzzle velocity The 30 Carbine had a round nose 110 gr bullet in contrast to the spitzer bullet designs found in most full power rifle cartridges of the WWII era A total of over 6 5 million M1 carbines and variants were manufactured making it the most popular small arm for the American military during World War II Created in 1942 this field manual reveals a great deal about the M1 s design and capabilities Intended as a manual for those charged with operation it details many strategies for attaining outstanding marksmanship Originally labeled restricted this manual was declassified long ago and is here reprinted in book form Care has been taken to preserve the integrity of the text

The M1 Garand Leroy Thompson,2012-05-20 The M1 Garand gave the US infantryman a marked edge during World War II It shot faster and further than enemy infantry rifles and hit harder No less an authority on killing the enemy than General George S Patton called the Garand The greatest battle implement ever devised At a time when opposing forces were armed with bolt action rifles US troops had a highly reliable self loader The eight round clips which were used to load the M1 Garand were however viewed with mixed emotions by the troops on the ground Some Army and Marine Corps troops allegedly felt that the distinctive twang as the Garand s clip was ejected when empty alerted the enemy that the soldiers were reloading and resulted in an attack But the Garand became the defining mankiller of the war despite its weight and magazine problems and many US combat veterans consider it one of the key reasons they survived the war [Gun Digest, 1992](#) Ken Warner,1991-07 With sales of nearly a quarter million copies each year Gun Digest is the most authoritative book on the subject of firearms available today The front half of the book consists of the best writing available on firearms subjects The back half of the book consists of a complete catalog of all firearms manufactured in or imported to the U S with full specifications and prices
