International Co-ordinating Council of the Man and the Biosphere (MAB) Programme

Thirty-first session

UNESCO Headquarters, Paris, Room II (Fontenay Building)
17 – 21 June 2019

ITEM 10 OF THE PROVISIONAL AGENDA: Update on the MAB Communication Strategy and Action Plan

1. At its last session in July 2018, the MAB Council unanimously adopted the global communication strategy and action plan of the Lima Action Plan available on line in English and French.
2. Many delegates highlighted the success of the one minute videos #ProudToShare and the importance of producing these. The videos are available on UNESCO You Tube channel and on the UNESCO MAB website and several new ones were produced since July 2018 and displayed at the 2019 EuroMAB Network Meeting held in Dublin (Ireland), last 2-5 April 2019 and at the occasion of the IPBES# 7 in UNESCO-Paris (29 April - 4 May 2019) and during the celebration of International Day for Biological Diversity at UNESCO last 22 May.
3. The meetings of the regional networks represent opportunities to implement the strategy which was evidenced by the latest EuroMAB 2019 meeting held in Dublin Bay Biosphere Reserve where a specific communication session was held at the opening for all the participants.
4. As adopted in the communication plan, the Secretariat is planning several storytelling training "Train-the-trainer sessions" at the regional level and through regional network meetings in 2019, including in Europe, Africa, and Asia regions.
5. The Secretariat is looking for support to translate the strategy in Spanish as well as into other languages (as was done for the tool kit on communication and branding). The communication plan will then be put on line as a living document to be updated with additional case studies and stories on the new website.
6. The Secretariat will present the lay-out of its new website. All information on the MAB Programme and the World Network of Biosphere Reserves can be found on this new site. The Secretariat is currently in the process of creating new pages for each biosphere reserve.
7. As adopted in the communication plan, it is planned that in 2019 each biosphere reserve is confidently telling their foundation story and that each biosphere reserve has made

resources such as water minerals or land which are inherently decisions about what is just or fair Yet there is little emphasis on justice in environmental management research or practical guidance on how to achieve fairness and equity in environmental governance and public policy This results in social dilemmas that are significant issues for government business and community agendas causing conflict between different community interests Natural Resources and Environmental Justice provides the first comprehensive interdisciplinary examination of justice research in Australian environmental management identifying best practice and current knowledge gaps With chapters written by experts in environmental and social sciences law and economics this book covers topical issues including coal seam gas desalination plants community relations in mining forestry negotiations sea level rise and animal rights It also proposes a social justice framework and an agenda for future justice research in environmental management These important environmental issues are covered from an Australian perspective and the book will be of broad use to policy makers researchers and managers in natural resource management and governance environmental law social impact and related fields both in Australia and abroad

Parliamentary Assembly Documents 1999 Ordinary Session (fourth part, September 1999), Volume VII Council of Europe, *The International Cyclopaedia* ,1900 Facing Global Environmental Change Hans Günter Brauch,Navnita Chadha Behera,Patricia Kameri-Mbote,John Grin,Ürsula Oswald Spring,Béchir Chourou,Czeslaw Mesjasz,Heinz Krummenacher,2009-06-04 The year 2007 could perhaps accurately be described as the year when climate change finally received the attention that this challenge deserves globally Much of the information and knowledge that was created in this field during the year was the result of the findings of the Fourth sessment Report AR4 of the Intergovernmental Panel on Climate Change IPCC which were disseminated on a large scale and reported extensively by the media This was the result not only of a heightened interest on the part of the public on various aspects of climate change but also because the IPCC itself proactively attempted to spread the findings of its AR4 to the public at large The interest generated on the scientific realities of climate change was further enhanced by the award of the Nobel Peace Prize to the IPCC and former Vice President of the US Al Gore By taking this decision in favour of a leader who

has done a great deal to create awareness on climate change and a body that assesses all scientific aspects of climate change and disseminates the result of its findings the Norwegian Nobel Committee has clearly drawn the link between climate change and peace in the world
