Macau In Transition From Colony To Autonomous Region:

Macau in Transition H. Yee, 2001-09-12 The book analyzes various aspects of the process of Macau's transition from a Portuguese autonomous territory to a Chinese special administrative region. It analyzes the role of those involved in the process: Beijing, Lisbon, the local Portuguese Macau administration, the Macau branch of the New China News Agency, the Luso-Chinese Joint Liaison Group, and the local political and social groups. It stresses the dynamics of interactions between actors as well as the political, economic, and social changes in the enclave that have direct or indirect impact on the transition.

China's Macao Transformed Eilo W.Y. YU, Ming K. CHAN, 2014-10-01 The return of Macao from the Portuguese administration to the People's Republic of China (PRC) in 1999 marks the beginning of its transformation in the 21st century. Macao was confronted with various issues concerning then-existing political system, economic downturn, and gangland violence during the transition period. Beijing put Macao under the One Country Two Systems and implemented a wide variety of measures in order to restore its law and order as well as to recover its tourism-dependent economy. Gradually, Macao transformed itself to Las Vegas of the East. This volume of 18 essays highlights the key dimensions of Macao's remarkable One Country Two Systems actualisation experience in its first 15 years and discusses how Macao transformed and what challenges it encountered during its post-handover transformation. The volume has several focuses. It first investigates the political and electoral issues in a critical manner: post-handover Macao suffered from maladministration and limited democratization, and the chief executives selected lacked representativeness due to restricted public participation in the electoral process. Overall speaking, the government lacked legitimacy and popular support. From a socio-economic point of view, this book looks into the business model in running Macao's casinos and the emerging culture of mass participation and youth participation in political affairs. The education reformation and changes in civic identity of local Macao Chinese are also addressed. Finally, the volume looks into how post-handover Macao relates itself in the international politics affair.

Hybrid Constitutionalism Eric C. Ip, 2019-04-25 This is the first book that focuses on the entrenched fundamental divergence between the Hong Kong Court of Final Appeal and Macau's Tribunal de Última Instância over their constitutional jurisprudence with the former repeatedly invalidating unconstitutional legislation with finality and the latter having never challenged the constitutionality of legislation at all. This divergence is all the more remarkable when considered in the light of the fact that the two Regions, commonly subject to oversight by China's authoritarian Party-state, possess constitutional frameworks that are nearly identical, feature similar hybrid regimes, and share a lot in history, ethnicity, culture, and language. Informed by political science and economics, this book breaks new ground by locating the cause of this anomaly studied within the universe of authoritarian constitutionalism, not in the common law/civil law differences between these two former European dependencies but in the disparate levels of political transaction costs therein.

China's Policies On Its Borderlands And The International Implications Yufan Hao,Bill K P Chou,2010-11-25 This book examines the interplay of two sets of policies the Chinese government s policies to its borderlands and international relations It proposes a conceptual framework and argues that China s policymakers fail to make complete use of the opportunities in the borderlands for accomplishing foreign policymakers agenda to strengthen China s relations with other countries neighboring ones in particular As a result these foreign policies reflect the political elites inadequate consideration of the negative impact of these policies on the borderlands and underscore their worry for territorial disintegration Therefore these policies center

on the pursuit of central control through exercising administrative military coercion making the borderlands economically dependent standardizing the cultural identity and indoctrinating CCP defined ideology The challenges of the borderlands to the national integration are exaggerated so much that political elites pursued control and standardization at the expense of the identification of many people in borderlands with the regime China's international image and the relations with its neighbouring countries

China's Rise - Threat or Opportunity? Herbert S. Yee, 2010-10-15 The phenomenal growth of Chinese economic and military power in the first decade of the 21st century has drawn world wide attention Perceptions of China's rise have shifted from seeing China as a threat to a more mixed view where China is seen as playing a key role in economic recovery taking an increasingly responsible role in world affairs and contributing significantly to scientific and technological advances This book argues that China will only become a truly global power when its rising power status is accepted or at least tolerated by

other major powers and China's neighbours. Filling a major gap in the existing literature, it presents a comprehensive overview of how China's rise is perceived in a wide range of countries and regions: these include China's neighbours, other world powers, the parts of China not part of mainland China (Taiwan, Hong Kong and Macau) and regions of the world where China is having an unexpected impact, such as the Middle East. It also examines changing perceptions of China in the western media. Overall, the book demonstrates that whilst many countries and regions are much more positive about China's rise than they were before, considerable nervousness and concern persists.

World and Its Peoples, 2007. Most of what is known about the outside world remains superficial and stereotypical. *World and Its Peoples* (Eastern and Southern Asia) brings a long, rich story to light about ethnic groups, the impact of terrain and natural resources, and the influence of history. This unique reference work maps out how the nations of the modern world became what they are today through photographs of the geography and people of foreign lands, through discussion of ancient and contemporary works of art and events, and through scores of maps detailing geographical features, historic and modern places, natural habitats, rainfall, locations of ethnic and linguistic groups, natural resources, and centers of industry and transportation. No single resource assembles such comprehensive insight into the world and the people who live in it.

[Keeping Democracy at Bay](#) Suzanne Pepper, 2008. This thoroughly researched study provides an invaluable account of Hong Kong's political evolution from its founding as a British colony to the present. Exploring the interplay between colonial, capitalist, communist, and democratic forces in shaping Hong Kong's political institutions and culture, Suzanne Pepper offers a fresh perspective on the territory's development and a gripping account of the transition from British to Chinese rule. The author carries her narrative forward through the lives of significant figures, capturing the personalities and issues central to understanding Hong Kong's political history. Bringing a balanced view to her often contentious subject, she places Hong Kong's current partisan debates between democrats and their opponents within the context of China's ongoing search for a viable political form. The book considers Beijing's increasing intervention in local affairs and focuses on the challenge for Hong Kong's democratic reformers in an environment where ultimate political power resides with the communist-led mainland government and its appointees.

China Threat: Perceptions Myths Herbert Yee, Ian Storey, 2013-04-03. Since the end of the Cold War, one of the most significant debates in international relations has been the question of whether the rise of China as a major economic, political, and military power will be a force for stability or instability in the international system and the East Asian region. Forceful arguments have been put forward on both sides. This book examines perceptions of the China Threat and governments' policies in response to the perceived threat in a wide range of countries, including the United States, Russia, Europe, Japan, South Asia, South East Asia, and the Middle East, as well as the perceptions of the Chinese themselves. For each country, current security concerns and policies, especially the policy of engagement, are examined in detail, and future prospects for relations with China are assessed. As the Bush administration in Washington increasingly focuses on China as a strategic competitor, and Sino-US relations

becomes increasingly tense the China Threat issue has come to dominate the security agenda in the Asia Pacific region and now poses the biggest foreign policy challenge of the 21st century **Education, Globalization and the Nation** Andrew Peterson, Ian Davies, King Man Chong, Terrie Epstein, Carla L. Peck, Alistair Ross, Alan Sears, Maria Auxiliadora Moreira dos Santos Schmidt, Debbie Sonu, 2016-01-26 Globalization and the Nation provide significant contexts for examining past educational thinking and practice and to identify how education has been influenced today This book written collaboratively explores country case studies Australia Brazil Canada China the UK and USA as well as discussing the transnational European Union
