Machina Ex Deo Lynn Townsend White,1968 **Machina Ex Deo: Essays in the Dynamism of Western Culture**
Lynn White (ifj.),1968 **Machina Ex Deo** Lynn White,1968 **Fifty Years of Medieval Technology and Social Change** Steven A. Walton,2019-08-22 This volume brings together a series of papers at Kalamazoo as well as some contributed papers inspired by the fiftieth anniversary of the publication of Lynn White Jr s Medieval Technology and Social Change 1962 a slim study which catalyzed the study of technology in the Middle Ages in the English speaking world While the initial reviews and decades long fortune of the volume have been varied it is still in print and remains a touchstone of an idea and a time The contributors to the volume therefore both investigate the book itself and its fate and look at new research furthering and inspired by White s work The book opens with an introduction surveying White s career with a bibliography of his work as well as some opening thoughts on the study of medieval technology in the last fifty years Three papers then deal explicitly with the reception and longevity of his work and its impact on medieval studies more generally Then five papers look at new cast studies areas where White s work and approach has had a particular impact namely medieval technology studies and medieval rural ecological studies [The Colonizer's Model of the World](#) J. M. Blaut,2012-07-23 This influential book challenges one of the most pervasive and powerful beliefs of our time that Europe rose to modernity and world dominance due to unique qualities of race environment culture mind or spirit and that progress for the rest of the world resulted from the diffusion of European civilization J M Blaut persuasively argues that this doctrine is not grounded in the facts of history and geography but in the ideology of colonialism Blaut traces the colonizer s model of the world from its 16th century origins to its present form in theories of economic development modernization and new world order **Farewell to the Horse: A Cultural History** Ulrich Raulff,2018-02-13 A surprising lively and erudite history of horse and man for readers of The Invention of Nature and The Soul of an Octopus Horses and humans share an ancient profoundly complex relationship Once our most indispensable companions horses were for millennia essential in helping build our cities farms and industries But during the twentieth century in an increasingly mechanized society they began to disappear from human history In this esoteric and rich tribute award winning historian Ulrich Raulff chronicles the dramatic story of this most spectacular creature thoroughly examining how they ve been muses and brothers in arms neglected and sacrificed in war yet memorialized in paintings sculpture and novels and ultimately marginalized on racetracks and in pony clubs Elegiac and absorbing Farewell to the Horse paints a stunning panorama of a world shaped by hooves and the imprint left on humankind A beautiful and thoughtful exploration Farewell to the Horse is a grown up but also lyrical and creative history book and I very much enjoyed it James Rebanks author of the New York Times bestseller The Shepherd s Life **Maynard Adams** Glenn Blackburn,2009 Maynard Adams 1919 2003 was a profound philosopher and civic humanist at the University of North Carolina Chapel Hill A major intellectual figure of the second half of the twentieth century Adams

Moore, 2014-09-15 A turn to the animal is underway in the humanities most obviously in such fields as philosophy literary studies cultural studies and religious studies One important catalyst for this development has been the remarkable body of animal theory issuing from such thinkers as Jacques Derrida and Donna Haraway What might the resulting interdisciplinary field commonly termed animality studies mean for theology biblical studies and other cognate disciplines Is it possible to move from animal theory to creaturely theology This volume is the first

full length attempt to grapple centrally with these questions It attempts to triangulate philosophical and theoretical reflections on animality and humanity with theological reflections on divinity If the animal human distinction is being rethought and retheorized as never before then the animal human divine distinctions need to be rethought retheorized and retheologized along with it This is the task that the multidisciplinary team of theologians biblical scholars philosophers and historians assembled in this volume collectively undertakes They do so frequently with recourse to Derrida s animal philosophy and also with recourse to an eclectic range of other relevant thinkers such as Haraway Giorgio Agamben Emmanuel Levinas Gloria Anzaldua Helene Cixous A N Whitehead and Lynn White Jr The result is a volume that will be essential reading for religious studies audiences interested in ecological issues animality studies and posthumanism as well as for animality studies audiences interested in how constructions of the divine have informed constructions of the nonhuman animal through history

industrialization and modernity and will be essential reading for all those interested in the great debate about the economic rise of the West *Work in Ancient and Medieval Thought* B. van de Hoven, 2023-01-16 The main object of this study is to find out whether the differences between classical and medieval thinking about work occupations and technology are so significant that we are justified in speaking of a real break between Antiquity and the Middle Ages in this connection or whether there is a possible continuity of ideas From a comparative perspective five themes are being researched to shed light on this question In the first two chapters the author looks into the traditional view of negative ideas about work in Antiquity Chapter three subsequently deals with monks and their attitude towards labour In chapter four the place of the so called artes mechanicae in medieval classifications of knowledge is being studied In chapter five we find an analysis of twelfth century sermons ad status These three chapters principally deal with the question whether Christianity brought about a change in attitude towards work **An Environmental History of Medieval Europe** Richard

Hoffmann, 2014-04-10 How did medieval Europeans use and change their environments think about the natural world and try to handle the natural forces affecting their lives This groundbreaking environmental history examines medieval relationships with the natural world from the perspective of social ecology viewing human society as a hybrid of the cultural and the natural Richard Hoffmann's interdisciplinary approach sheds important light on such central topics in medieval history as the decline of Rome religious doctrine urbanization and technology as well as key environmental themes among them energy use sustainability disease and climate change Revealing the role of natural forces in events previously seen as purely human the book explores issues including the treatment of animals the tragedy of the commons agricultural clearances and agrarian economies By introducing medieval history in the context of social ecology it brings the natural world into historiography as an agent and object of history itself
