Missed Opportunities The Story Of Canadas Broadcasting Policy:

Missed Opportunities Marc Raboy, 1990-05-01 Toward the end of his career Graham Spry used the phrase missed opportunities in reference to Canadian broadcasting Raboy shows which opportunities have been missed and clarifies the relationship between the evolution of Canadian broadcasting policy over the past sixty years and the changes in Canadian society during the same period The Mass Media in Canada Mary Vipond, 2011-03-25 Canada has one of the most advanced mass media systems in the world which allows Canadians more access to American culture via television the movies and the Internet than ever before At the same time governments support the production and distribution of Canadian content to Canadians In this fully updated fourth edition Mary Vipond traces the rise of the traditional mass media in Canada explores the new media and discusses the influence of old mass media on new media Clearly written and persuasively argued *The Mass Media in Canada* demonstrates the huge challenges government face today in trying to influence media content and considers the troubling questions of who decides what we read watch and hear *On Location* Serra Tinic, 2005-12-15 Film and television production are important components of the Canadian economy In Vancouver popular American television series like *The X Files* and Canadian series like *Da Vinci's Inquest* have boosted the city's profile as a centre for international and domestic productions Serra Tinic's *On Location* is the first empirical analysis of regional Canadian television producers in the context of developing global media markets Tinic observes that global television production in Vancouver has been a contradictory process that has on one level led to the homogenization of culturally specific storylines while simultaneously facilitating the development of new avenues for international ventures The author explains how federal and regional network considerations funding guidelines and partnerships with international co-producers affect the capacity of Canadian television producers to negotiate culturally specific storylines in the development process She further interrogates the concepts of globalization culture and national identity and their relationship to broadcasting from the perspectives of members of the television industry themselves highlighting the extent to which industry practices in Vancouver epitomize current trends in global television production *On Location* fills a major gap in contemporary media and cultural studies debates that question the connections between the politics of place culture and commerce within the larger context of cultural globalization *Images of Canadianness* Leen D'Haenens, 1998 *Images of Canadianness* offers backgrounds and explanations for a series of relevant if relatively new features of Canada from political cultural and economic angles Each of its four sections contains articles written by Canadian and European experts that offer original perspectives on a variety of issues voting patterns in English speaking Canada and Quebec the vitality of French language communities outside Quebec the Belgian and Dutch immigration waves to Canada and the resulting Dutch language immigrant press major transitions taking place in Nunavut the media as a tool for self government for Canada's First Peoples attempts by Canadian Indians to negotiate their position in society the Canada US relationship Canada's trade

with the EU and Canada's cultural policy in the light of the information highway *Slippery Pastimes* Joan Nicks, Jeannette Sloniowski, 2009-10-21 Sixteen essays written by specialists from many fields grapple with the problem of a popular culture that is not very popular but is seen by most as vital to the body politic whether endangered by globalization or capable of politically progressive messages for its audiences *Slippery Pastimes* covers a variety of topics Canadian popular music from rock n roll to country hip hop to pop Celtic television advertising tourism sport and even postage stamps As co editors Nicks and Sloniowski have taken an open view of the Canadian Popular and contributors have approached their topics from a variety of perspectives including cultural studies women's studies film studies sociology and communication studies The essays are accessibly written for undergraduate students and interested general readers **Cultural Industries.ca** Ira Wagman, Peter Urquhart, 2012-09-26 Canada's creative industries encompass book periodical and newspaper publishing radio and television broadcasting the music industry video game production filmmaking and video production telecommunications and the new media These industries represent a major sector in the Canadian economy and exert a profound influence on many aspects of Canadian life In *Cultural Industries.ca* thirteen contributors take a thought provoking look at the industries that form this important sector and the central issues that are currently under debate They also discuss how these industries have adapted to the rise of new digital technologies that have radically altered how they engage with their audiences and how they produce and distribute content Offering a timely analysis and a wealth of current data *Cultural Industries.ca* offers a unique portrait of this key sector of the economy **1968 in Canada** Michael K. Hawes, Andrew C. Holman, Christopher Kirkey, 2021-04-13 The year 1968 in Canada was an extraordinary one unlike any other in its frenetic pace of activities and their consequences for the development of a new national consciousness among Canadians It was a year when decisions and actions both in Canada and outside its borders were thick and contentious and whose effects were momentous and far reaching It saw the rise of Trudeaumania and the birth of the Parti Qu b cois the articulation of the new nationalism in English Canada and an alternative vision for Indigenous rights and governance a series of public hearings in the Royal Commission on the Status of Women the establishment of the Canadian Radio and Television Commission nationwide Medicare and CanLit and a striving for both a new relationship with the United States and a more independent foreign policy everywhere else And more Virtually no segment of Canadian life was untouched by both the turmoil and the promise of generational change Published in English with chapters in French **Encyclopedia of Radio 3-Volume Set** Christopher H. Sterling, 2004-03-01 Produced in association with the Museum of Broadcast Communications in Chicago the *Encyclopedia of Radio* includes more than 600 entries covering major countries and regions of the world as well as specific programs and people networks and organizations regulation and policies audience research and radio's technology This encyclopedic work will be the first broadly conceived reference source on a medium that is now nearly eighty years old with essays that provide essential information on the subject as well as comment on the significance of the particular person organization or topic

being examined **Beyond the Border** Kyle Conway, Timothy Pasch, 2013-06-01 The idea that the American Great Plains and the Canadian Prairies are just fly over country is a mistake In the post 9 11 era politicians and policy makers are paying more attention to the region especially where border enforcement is concerned Beyond the Border provides interdisciplinary perspectives on the region s increasing importance Drawing inspiration from Habermas s observation that certain modern phenomena from ecological degradation and organized crime to increased capital mobility challenge a state s ability to retain sovereignty over a fixed geographical region contributors to this book question the ontological status of the Canada US border They look at how entertainment media represents the border for their viewers how Canada and the US enforce the line that separates the two countries and how the border appears from the viewpoint of Native communities where it was imposed through their traditional lands Under this scrutiny the border ceases to appear as self evident its status more fragile than otherwise imagined At a time when the importance of border security is increasingly stressed and the Great Plains and Prairies are becoming more economically and politically prominent Beyond the Border offers necessary context for understanding decisions by politicians and policy makers along the forty ninth parallel Contributors include Phil Bellfy Michigan State University Christopher Cwynar University of Wisconsin Brandon Dimmel Western University Zalfa Feghali University of Nottingham Joshua Miner University of Iowa Paul Moore Toronto Metropolitan University Michelle Morris University of Waterloo Paul Sando Minnesota State University Moorhead and Serra Tinic University of Alberta

Communication Technology Darin Barney, 2011-11-01 When the Internet began to emerge as a popular new mode of communication many political scientists and social commentators believed that it would revolutionize our democratic institutions Today voter turnout is at an historic low and Internet usage is at an all time high Can we still make the claim that new information and communication technologies ICTs enhance democratic life in Canada What effect does the technological mediation of political communication have on the practice of Canadian politics How have such technologies affected the distribution of power in society Darin Barney investigates the links between ICTs and democratic processes arguing that the potential of digital technologies to contribute to a more democratic political system will remain largely untapped unless the more conventional dimensions of Canadian politics the economy and modes of governance are reoriented **Politics,**

Society, and the Media Paul Wingfield Nesbitt-Larking, 2007-01-01 Nesbitt Larking challenges his readers to become critical consumers of media and provides a number of strategies to encourage them to do so Nick Baxter Moore Brock University **Technocities** John Downey, Jim McGuigan, 1999-06-22 Information and communication technologies are said to be transforming urban life dramatically and bringing about rapid economic and cultural globalization This book explores the many fascinating and urgent issues involved by relating advanced theoretical debates to practical matters of communication with cultural policy It maps out a range of optimistic and pessimistic scenarios with special regard to various forms of inequality particularly class gender and geopolitical Topics discussed include urban planning virtual cities and

actual cities economic and political policy and critical social analysis of current trends that are of momentous consequence The book concludes that it is necessary to bring together a number of different Communicating in Canada's Past Gene Allen, Daniel J. Robinson, 2009-01-01 The first collection of its kind this volume assembles both well established and up and coming scholars to address sizable gaps in the literature on media history in Canada The Concise Encyclopedia of Communication Wolfgang Donsbach, 2015-02-03 This concise volume presents key concepts and entries from the twelve volume ICA International Encyclopedia of Communication 2008 condensing leading scholarship into a practical and valuable single volume Based on the definitive twelve volume IEC this new concise edition presents key concepts and the most relevant headwords of communication science in an A Z format in an up to date manner Jointly published with the International Communication Association ICA the leading academic association of the discipline in the world Represents the best and most up to date international research in this dynamic and interdisciplinary field Contributions come from hundreds of authors who represent excellence in their respective fields An affordable volume available in print or online

Prometheus Wired Darin Barney, 2011-11-01 From all sides we hear that computer technology with its undeniable power to disseminate information and connect individuals holds enormous potential for a reinvigoration of political life But will the Internet really spark a democratic revolution And will the changes it brings be so profound that past political thought will be of little use in helping us to understand them In *Prometheus Wired* Darin Barney debunks claims that a networked society will provide the infrastructure for a political revolution and shows that the resources we need for understanding and making sound judgments about this new technology are surprisingly close at hand By looking to thinkers who grappled with the relationship of society and technology such as Plato Aristotle Marx and Heidegger Barney critically examines such assertions about the character of digital networks Along the way Barney offers an eye opening history of digital networks and then explores a wide range of contemporary issues such as electronic commerce telecommuting privacy virtual community digital surveillance and the possibility of sovereign governance in an age of global networks Ultimately Barney argues that instead of placing power back in the hands of the public a networked economy seems to exacerbate the worst features of industrial capitalism and in terms of the surveillance and control it exerts reduces our political freedom Of vital interest to politicians communicators and anyone concerned about the future of democracy in the digital age *Prometheus Wired* adds a provocative new voice to the debate swirling around the Net and the ways in which it will or will not change our political lives *The Cultural Industries in Canada* Michael Dorland, 1996 Contents Part I Print Industries Book Publishing Rowland Lorimer Periodical Publishing Lon Dubinsky Newspaper Publishing Christopher Dornan Part II Sound Industries Sound Recording **End of the CBC** David Taras, Christopher Waddell, 2020-02-18 The End of the CBC is about three overlapping crises the crisis that has enveloped the CBC the crisis of news and the crisis of democracy They are all the result to some degree of the vast changes that have overtaken and consumed the media world in the last ten to fifteen years The emergence

of platforms such as Google Facebook Twitter and Netflix the hyper targeting of individual users through data analytics the development of narrow online identity communities and the rise of an attention economy that makes it more and more difficult for any but the most powerful media organizations to be noticed have changed the media landscape in dramatic ways The effects on the CBC and on other Canadian media organizations have been shattering Describing the failure of successive governments to address problems faced by the public broadcaster this book explains how the CBC lost its place in sports drama and entertainment Taras and Waddell propose a way forward for the CBC one in which the corporation concentrates its resources on news and current affairs and re establishes a reputation for depth and quality Telecom Nation Laurence B. Mussio, 2001 Mussio is a communications consultant who traces how Canada handled expansion in telecommunications and the arrival of the computer in the three critical decades following World War II Like technological transformations in transportation and utilities the spread of new communications systems forced governments to respond in continental Europe and the UK they asserted control and ownership of national telecommunication networks In the US private companies were permitted to manage systems and provide services In Canada both models were adopted and domestic hybrids combining both also flourished Distributed in the US by Cornell University Services c Book News Inc **Communication Yearbook** 33 Christina S. Beck, 2009-05-07 The Communication Yearbook annuals publish diverse state of the discipline literature reviews across the field of communication Sponsored by the International Communication Association volumes offer insightful descriptions of research as well as reflections on the implications of those findings for other areas of the discipline Editor Christina S Beck presents a diverse international selection of articles that highlight empirical and theoretical intersections in the communication discipline Television, the Public Sphere, and National Identity Monroe E.
