Missing Men:

The Man Who Never Returned Peter Quinn, 2022-02-08 Peter Quinn's *The Man Who Never Returned* is a noirish stylized detective narrative set in 1950s New York. It follows Fintan, a retired detective turned private investigator who has been given the job of finding Judge Crater who just went missing in 1930. Based on a real story, it is quite an intriguing tale that was even more so for people living at the time. The famous missing person case is comparable to the Amelia Earhart missing person case, though it could have been an even more interesting one. It was alleged that the missing judge may have had information about underhanded dealings in the New York judiciary. It was believed that if such information came to light, Franklin D. Roosevelt, then governor of New York, would have had a hard time becoming the president of the United States. There were also rumors that the judge, who was a known ladies man, had either decided to disappear or had fallen afoul of the mafia. Featuring hardboiled characters and a beautiful recreation of New York from the 50s, it is quite a compelling read.

The Man Who was Hanged by a Thread Cecil Clark, 2011-11-15 From 1858 until 1950 the BC Provincial Police were responsible for maintaining law and order in British Columbia. Numbering only 100 men in 1900, they patrolled this vast area by horseback, boat, snowshoes, and dog team until the arrival of the train, automobile, and airplane. In these classic cases from the files of the BC Provincial Police, former deputy commissioner Cecil Clark brings to life the lawmen who upheld the peace and the criminals who disrupted it. A Texas gambler thinks he has committed the perfect murder, but his plans are foiled by Barkerville's barber. A Quesnel family disappears in mysterious circumstances; their fate remains unknown to this day. Two men are brutally murdered at Osborne Bay in a case of mistaken identity, but did they ever receive justice? These dramatic stories provide a vivid window into BC's frontier society and the challenges faced by the members of North America's first territorial constabulary.

Masculinities and Femininities in Latin America's Uneven Development Susan Paulson,2015-08-20 This book forges a new approach to historical and geographical change by asking how gender arrangements and dynamics influence the evolution of institutions and environments This new theoretical approach is applied via mixed methods and a multi scale framework to bring together unusually diverse phenomena Regional trends demonstrated with quantitative data include the massive incorporation of women into paid work demographic masculinization of the countryside and feminization of cities rapidly increasing gaps that favor women over men in education and life expectancy and extraordinarily high levels of violence against men Case studies in Mexico Chile and Bolivia explore changes influenced by gender practices and expectations that involve men in different ways than women they also highlight dissimilarities and power relations between differently positioned masculine groups Ethnographic studies of culturally diverse arrangements together with particular attention to subordinate versus dominant masculinities complicate the gender binaries that circumscribe so much research and policy Drawing attention to imbalances and conflicts generated by inappropriate models and uneven developments the book points to opportunities for experimenting with and adapting the sociocultural institutions that govern relations among humans and between humans and their environment Army ,1972 *The American Annual Cyclopedia and Register of*
