Trifonov, 1999 The Old Man veers between a contemporary effort to buy a dacha and the memories of an incident during the Civil War A questionable action in the past haunts the present and throws into relief the materialism that has come to replace revolutionary idealism by suggesting that this idealism may have been tainted in the first place Trifonov implicitly blames the past for the ills of the present While the setting and situation are very Soviet the quandary Trifonov describes has universal significance Book Jacket Detecting Texts Patricia Merivale, Susan Elizabeth Sweeney, 2011-06-07 Although readers of detective fiction ordinarily expect to learn the mystery's solution at the end there is another kind of detective story the history of which encompasses writers as diverse as Poe Borges Robbe Grillet Auster and Stephen King that ends with a question rather than an answer The detective not only fails to solve the crime but also confronts insoluble mysteries of interpretation and identity As the contributors to Detecting Texts contend such stories belong to a distinct genre the metaphysical detective story in which the detective hero's inability to interpret the mystery inevitably casts doubt on the reader's similar attempt to make sense of the text and the world Detecting Texts includes an introduction by the editors that defines the metaphysical detective story and traces its history from Poe's classic tales to today's postmodernist experiments In addition to the editors contributors include Stephen Bernstein Joel Black John T Irwin Jeffrey T Nealon and others The Seer in Ancient Greece Michael Flower, 2008-01-07 The seer mantis an expert in the art of divination operated in ancient Greek society through a combination of charismatic inspiration and diverse skills ranging from examining the livers of sacrificed animals to spirit possession Unlike the palm readers and mediums who exist on the fringe of modern society many seers were highly paid well respected educated members of the elite who played an essential role in the conduct of daily life political decisions and military campaigns Armies for example never went anywhere without one This engaging book the only comprehensive study of this fascinating figure enters into the socioreligious world of ancient Greece to explore what seers did why they were so widely employed and how their craft served as a viable and useful social practice
