Architecture of the California Missions Kurt Baer,2023-11-15 Architecture of the California Missions by Kurt Baer with photographs by Hugo Rudinger offers a deep dive into the architectural legacy of California s historic missions Rather than simply providing a history or a guide to these iconic buildings this work is a scholarly study of the stylistic influences and architectural forms that shaped these structures Baer examines the classical Roman Moorish Mexican baroque and primitive elements that influenced the design of the missions grouping them according to the distinct styles that are most prominently represented in the surviving buildings The book carefully explores how these missions built in a short span during a time of Spanish decline and political turmoil reflect both the aesthetic aspirations and the practical limitations of their time With much of the archival information lost and only romanticized sketches remaining Baer reconstructs the history and style of these buildings based on existing structures old photographs and available documents Accompanied by Hugo Rudinger s evocative bromoil photographs which capture the simplicity and timeless beauty of the missions this work provides a unique visual and narrative journey into California s architectural past It s a must read for architecture enthusiasts and anyone fascinated by the history and legacy of California s mission era This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1958
