*Higher education for diversity, social inclusion and community* Sjur Bergan, Ira Harkavy, 2018-08-20 How does the Council of Europe put into practice its commitment to the promotion of a culture of democracy through education Over the past decade or so our societies have been facing increasing difficulties in reconciling acceptance of diversity and social inclusion with the need for community The search for simple solutions to complex problems the fact that fake news and alternative facts are no longer seen as nonsensical expressions our responses to migration and the refugee crisis and the growth of populism in many parts of Europe present challenges to our societies and not least to education Authors from Europe North America and South Africa outline how higher education could respond to these challenges The first section makes a strong case for the continuing importance of higher education and research to modern society The second focuses on higher education institutions and the need for inclusive and diverse campuses The third section considers opportunities to improve the inclusion of refugees and immigrants in higher education Whereas the focus in Europe is mostly on refugees in the United States it is largely on immigrants further accentuated by the debate on the Dreamers

*Accountability in Higher Education: Navigating Current Issues and Trends* Singleton, Topeka Small, 2025-03-28 Accountability in higher education has become a critical issue as higher education institutions face scrutiny over student outcomes financial transparency and the value of a college degree As the cost of tuition is on the rise and student debt growing the concerns on equitability and the concerns of student engagement have left many in the public to lose trust in higher education From government regulations to accreditation standards and data driven assessment models accountability measures are evolving to ensure that higher education remains both effective and accessible As the public become more distrustful of higher education discussing the problems issues is effective in seeking change Accountability in Higher Education Navigating Current Issues and Trends explores the current trends and issues with accountability in higher education It discusses how accountability in higher education is essential and is the most impactful This book covers topics

such as accountability diversity and inclusion and educational training and is a useful resource higher education professionals who seek to know more about navigating the landscape of accountability in higher education

*The Co-opting of Education by Extremist Factions* Sarah Gendron, 2020-01-31 The Co-opting of Education by Extremist Factions Professing Hate is a study of the ways in which various extremist groups have appropriated education for social manipulation in order to gain political power and in some cases to incite violence It is a detailed exploration of case studies representing both a wide range of situational differences time place and political orientation and experiential similarities To examine a broad scope of circumstances this book explores various types of rule from National Socialism to communism to capitalism from around the world Europe Asia Africa and North America and spans time periods from the mid twentieth century to the beginning of the twenty first century With the purpose of allowing these diverse situations to dialogue with one another this study explores each country in its own right as well as in relation to others ultimately demonstrating the extent to which they influenced one another

*The Scandal of the Evangelical College* Martin Spence, 2025-06-30 Despite heady claims about Christ centeredness Evangelical colleges are scandalously secular institutions in thrall to the regnant assumptions of the market economy and mainstream higher education Paradigms intended to integrate faith and learning often ironically fracture and distort Christianity Even the spiritual dimensions of the Christian college presumed to keep it safe from religious declension are prone to secularizing tendencies because the American Evangelical culture from which the college receives its spiritual cues and from which it accepts its donors money is itself captive to a set of sub biblical economic social and political assumptions This book argues that the cause of the scandal is the absence of the church in the imagination of the Evangelical college It therefore proposes that the mission and practice of the Evangelical college should be to summon equip and renew the people of God While this may sound like a return to an obsolete bible school model of Christian education the ecclesial vision only sounds narrow because we lack a robust understanding of the vocation of the church itself By simultaneously restricting our vision of the Evangelical college while broadening our understanding of the church a more fully evangelical educational endeavor might emerge

*The SAGE Sourcebook of Service-Learning and Civic Engagement* Omobolade Delano-Oriaran, Marguerite W. recommendations that pose no legal barrier to implementation      The Economics of Higher Education in the United States  
Thomas Adam,Ayten Burcu Bayram,2019-03-27 In The Economics of Higher Education in the United States editors Thomas Adam and A Burcu Bayram have assembled five essays adapted from the fifty second annual Walter Prescott Webb Memorial Lecture Series that focus on the increasing cost of college a topic that causes great anxiety among students parents faculty administrators legislators and taxpayers Essays focus on the funding of colleges the funding of professional schools and the provision of scholarships and student loans for undergraduate students to reveal the impact of money on the structure of institutions of higher education and the organization of colleges The cost of higher education has risen dramatically as both states and the federal government have significantly lowered their contributions to offset that cost With rising tuition and cost of living on top of a growing student population too many graduates find themselves in financial trouble after earning their undergraduate degree Mounting student debt prevents an increasing number of young professionals from embarking on the very life for which their education was supposed to prepare them How have we come from a political environment in which higher education was perceived as a public good normally free to the user to an environment in which higher education is seen as a privilege subject primarily to market forces The Economics of Higher Education in the United States offers a desperately needed analysis in an attempt to understand and tackle this looming problem
