remaining holdout in the Boston parkland known as the Fenway and the fact that it eluded condemnation by the city is a testament to the elderly bachelor's great wealth. Childless and nearing the end of his life he surrounds himself with only his cat, his servants, and a friend Mrs Warden to say nothing of the circle of extended family members whose lives he both subsidizes and rules from afar. The nieces and nephews who all seem to be more fond of Uncle Mart's money than they are of his character. On the eve of his birthday Greenough requests the presence of his heirs at his home insisting that he has something important to discuss. Before that discussion can take place though the man is murdered in his study. In one way or another nearly everyone there would benefit by his death and none gathered seem terribly upset by it so finding the culprit is no easy task for Inspector Kane of the Boston PD. But as he untangles the threads and unburies dark family secrets the discovery of a bizarre clue might hold the key to solving the crime. A classical closed circle mystery featuring a colorful cast of characters. *Cat's Paw* exemplifies the puzzling house bound tales for which Roger Scarlett is remembered today. It is sure to delight any fan of pure Golden Age detective stories especially those with a love of architecturally focused plots. Includes discussion guide questions for use in book clubs.

Birkbeck Joanna Bourke, 2022-08-11 Birkbeck traces the 200 year history of Birkbeck University of London from its founding at a time when social elites deplored the notion of educated working people to the present day. Joanna Bourke writes a lively history of the institution and how it contributed to the shaping of modern British higher education. Two hundred years ago Birkbeck was founded as the London Mechanics Institution LMI. When it was established in 1823 one third of all men and half of all women were unable to read or write. British elites were vehemently hostile to educating working people. The country was in political turmoil and it was feared that education would destroy society. This was the context in which the LMI was established. From its foundation it was unique. Birkbeck traces its history from 1823 to the present with Joanna Bourke using the history of Birkbeck to reflect on life and culture in London over the past two centuries. What does it mean to be educated? Why have Birkbeck's students been prepared to give up so much in order to study for a higher degree? How does education help us become fully human and self fulfilled by learning how to use all our faculties: knowledge, imagination, sympathy? The story of Birkbeck contains some blood, oceans of scholarly sweat, and not a few tears. But it is also a story of laughter, intellectual excitement, scholarly eccentricity, collective as well as personal ambition, and most of all the quirky passions and personalities that make up the Birkbeck community. It is a story of a unique university but also of higher education of Britain. It shows how knowledge can empower people to better themselves and improve the world.
