Mistress Of The House:

Mistress of the House, Mistress of Heaven Anne K. Capel, Glenn Markoe, 1996 The first of its kind exhibit cataloged here focuses on the women of Egypt from all levels of society in works compiled strictly from American collections by American curators Because the quantity of written records is limited though enormous in comparison to most early societies there is still much guesswork involved in determining the place women held in Egyptian society It is clear that unlike most ancient and not so ancient societies Egypt conferred on women the legal right to own property and to barter their own goods which means a larger record for current study The essays here are both erudite and fascinating to read the illustrations are clear and well presented in conjunction with the text 117 colour 112 b w illustrations

Lee,1898 *The Experience of Domestic Service for Women in Early Modern London* Paula Humfrey,2016-12-05 The late seventeenth and early eighteenth century texts presented here describe female servants experiences of work in early modern London Domestic court depositions offer qualitative evidence that female servants were an important support of emergent capitalism in the early modern metropolis Exposed here are the contractual underpinnings of domestic service for women the mobility that domestic servants enjoyed and the concern that this mobility generated in the authorities Paid domestic work has traditionally been regarded by historians simply as a pre marital phase of women s lives In fact the depositions in this volume show that service was a prototypical form of female wage labour While some women left service once they married others relied on domestic positions as an avenue to generating income as life long single women as married women and as widows Even though they usually lived in poverty labouring women who worked as servants in London had considerably more agency than has earlier been recognized Female servants who deposed before London ecclesiastical and parish courts three centuries ago were mostly non literate Strikingly their individual voices are clear and distinct as they present information about their working and personal circumstances *A genuine account of the proceedings on the trial of F.
