Mitre And Sceptre Transatlantic Faiths Ideas Personalities And Politics 1689 1775:

Mitre and Sceptre Transatlantic Faiths, Ideas, Personalities, and Politics 1689-1775 Carl Bridenbaugh, 2023-07-18 A sweeping work of history Mitre and Sceptre explores the intricate web of relationships between Great Britain and its American colonies in the decades leading up to the Revolutionary War Drawing on a wealth of primary sources Carl Bridenbaugh paints a vivid picture of a world in flux as religious political and economic forces collide and reshape the course of history This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant Mitre and Sceptre Transatlantic Faiths, Ideas, Personalities, and Politics 1689-1775 - Primary Source Edition Carl Bridenbaugh, 2014-02 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book **Mitre and Sceptre Transatlantic Faiths, Ideas, Personalities, and Politics 1689-1775 - Scholar's Choice Edition** Carl Bridenbaugh, 2015-02-15 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *Mitre and Sceptre, Transatlantic Faiths, Ideas, ReBoualiries and Politics, 1689-1775* Carl Bridenbaugh, 1962 Clothed in Robes of Sovereignty Benjamin H. Irvin, 2011-04-11 In 1776 when the Continental Congress declared independence formally severing relations with Great Britain it immediately began to fashion new objects and ceremonies of state with which to proclaim the sovereignty of the infant republic In this marvelous social and cultural

history of the Continental Congress Benjamin H Irvin describes this struggle to create a national identity during the American Revolution The book examines the material artifacts rituals and festivities by which Congress endeavored not only to assert its political legitimacy and to bolster the war effort but ultimately to exalt the United States and to win the allegiance of its inhabitants Congress for example crafted an emblematic great seal celebrated anniversaries of U S independence and implemented august diplomatic protocols for the reception of foreign ministers Yet as Irvin demonstrates Congress could not impose its creations upon a passive American public To the contrary the people out of doors broadly defined to include not only the working poor who rallied in the streets of Philadelphia but all persons unrepresented in the Continental Congress including women loyalists and Native Americans vigorously contested Congress s trappings of nationhood Vividly narrating the progress of the Revolution in Philadelphia and the lived experiences of its inhabitants during the tumultuous war *Clothed in Robes of Sovereignty* sharpens our understanding of the relationship between political elites and crowds of workaday protestors as it illuminates the ways in which ideologies of gender class and race shaped the civic identity of the Revolutionary United States

Merchants and Ministers Kevin Schmiesing,2016-12-14 Two of the most influential forces in American history are business and religion *Merchants and Ministers* weaves the two together in a history of the relationship between businesspeople and Christian clergy From fur traders and missionaries who explored the interior of the continent to Gilded Age corporate titans and their clerical confidants to black businessmen and their ministerial collaborators in the Civil Rights movement *Merchants and Ministers* tells stories of interactions between businesspeople and clergy from the colonial period to the present It presents a complex picture of this relationship highlighting both conflict and cooperation between the two groups By placing anecdotal detail in the context of general developments in commerce and Christianity *Merchants and Ministers* traces the contours of American history and illuminates those contours with the personal stories of businesspeople and clergy

The Religious Roots of the First Amendment Nicholas P. Miller,2012-06-01 Traditional understandings of the genesis of the separation of church and state rest on assumptions about Enlightenment and the republican ethos of citizenship In *The Religious Roots of the First Amendment* Nicholas P Miller does not seek to dislodge that interpretation but to augment and enrich it by recovering its cultural and discursive religious contexts specifically the discourse of Protestant dissent He argues that commitments by certain dissenting Protestants to the right of private judgment in matters of Biblical interpretation an outgrowth of the doctrine of the priesthood of all believers helped promote religious disestablishment in the early modern West This movement climaxed in the disestablishment of religion in the early American colonies and nation Miller identifies a continuous strand of this religious thought from the Protestant Reformation across Europe through the English Reformation Civil War and Restoration into the American colonies He examines seven key thinkers who played a major role in the development of this religious trajectory as it came to fruition in American political and legal history William Penn John Locke Elisha Williams Isaac Backus William Livingston John

Witherspoon and James Madison Miller shows that the separation of church and state can be read most persuasively as the triumph of a particular strand of Protestant nonconformity that which stretched back to the Puritan separatist and the Restoration sects rather than to those like Presbyterians who sought to replace the wrong church establishment with their own right one The Religious Roots of the First Amendment contributes powerfully to the current trend among some historians to rescue the eighteenth century clergymen and religious controversialists from the enormous condescension of posterity The American Colonies Richard C. Simmons,1981 The American Colonies brings the burgeoning scholarship on early America under control and provides students with a graceful rigorous introduction to American colonial history Robert M Calhoon Journal of American History *Scripture Politics* Ian McBride,1998 One of the greatest ironies of Irish history is that republicanism began not with the Catholics but with the Presbyterians of Ulster This book explores the role they played in the birth of Irish nationalism **Revolution as Reformation** Peter C. Messer,William Harrison Taylor,2021-01-19 Essays that explore how Protestants responded to the opportunities and perils of revolution in the transatlantic age Revolution as Reformation Protestant Faith in the Age of Revolutions 1688 1832 highlights the role that Protestantism played in shaping both individual and collective responses to revolution These essays explore the various ways that the Protestant tradition rooted in a perpetual process of recalibration and reformulation provided the lens through which Protestants experienced and understood social and political change in the Age of Revolutions In particular they call attention to how Protestants used those changes to continue or accelerate the Protestant imperative of refining their faith toward an improved vision of reformed religion The editors and contributors define faith broadly they incorporate individuals as well as specific sects and denominations and as much of life experience as possible not just life within a given church In this way the volume reveals how believers combined the practical demands of secular society with their personal faith and how in turn their attempts to reform religion shaped secular society The wide ranging essays highlight the exchange of Protestant thinkers traditions and ideas across the Atlantic during this period These perspectives reveal similarities between revolutionary movements across and around the Atlantic The essays also emphasize the foundational role that religion played in people s attempts to make sense of their world and the importance they placed on harmonizing their ideas about religion and politics These efforts produced novel theories of government encouraged both revolution and counterrevolution and refined both personal and collective understandings of faith and its relationship to society **Traders and Gentlefolk** Cynthia A. Kierner,2018-09-05 Including among their number a signer of the Declaration of Independence and the founder of an ironworks the Livingstons were a prominent family in the political economic and social life of colonial New York Drawing on a rich array of sources Cynthia Kierner vividly recreates the history of four generations of Livingstons and sheds new light on the development of both the elite ideology they represented and of the wider culture of early America Although New York s colonial elite have been considered self interested political intriguers Kierner contends that the Livingstons idealized gentility and public

spiritedness industry and morality She shows how New York's most successful traders became gentlefolk without abandoning their entrepreneurial values how they forged a distinct culture and how the Revolution ultimately occasioned the rejection of elite political authority Traders and Gentlefolk focuses on the lives of four members of the family Robert Livingston a Scottish emigrant who with his wife Alida Schuyler attained substantial political influence and acquired Livingston Manor their son Philip whose outstanding commercial talents secured his descendants financial security Philip's son William an outspoken civic leader and energetic supporter of American independence and Robert R Livingston a jurist and diplomat whose aristocratic temperament prevented him from playing a vital role in post Revolutionary politics

A Companion to American Religious History Benjamin E. Park, 2021-02-09 A collection of original essays exploring the history of the various American religious traditions and the meaning of their many expressions The Blackwell Companion to American Religious History explores the key events significant themes and important movements in various religious traditions throughout the nation's history from pre colonization to the present day Original essays written by leading scholars and new voices in the field discuss how religion in America has transformed over the years explore its many expressions and meanings and consider religion's central role in American life Emphasizing the integration of religion into broader cultural and historical themes this wide ranging volume explores the operation of religion in eras of historical change the diversity of religious experiences and religion's intersections with American cultural political social racial gender and intellectual history Each chronologically organized chapter focuses on a specific period or event such as the interactions between Moravian and Indigenous communities the origins of African American religious institutions Mormon settlement in Utah social reform movements during the twentieth century the growth of ethnic religious communities and the rise of the Religious Right An innovative historical genealogy of American religious traditions the Companion Highlights broader historical themes using clear and compelling narrative Helps teachers expose their students to the significance and variety of America's religious past Explains new and revisionist interpretations of American religious history Surveys current and emerging historiographical trends Traces historical themes to contemporary issues surrounding civil rights and social justice movements modern capitalism and debates over religious liberties Making the lessons of American religious history relevant to a broad range of readers The Blackwell Companion to American Religious History is the perfect book for advanced undergraduate and graduate students in American history courses and a valuable resource for graduate students and scholars wanting to keep pace with current historiographical trends and recent developments in the field

The Oxford Handbook of Church and State in the United States Derek Davis, 2010-11-18 21 essays present a scholarly look at the intricacies and past and current debates that frame the American system of church and state within 5 main areas history politics sociology theology philosophy and law

Roger Sherman and the Creation of the American Republic Mark David Hall, 2013 One of leading figures of his day Roger Sherman was a member of the five man committee that drafted the Declaration of Independence and an influential

delegate at the Constitutional Convention As a Representative and Senator in the new republic he had a hand in determining the proper scope of the national government s power as well as drafting the Bill of Rights In Roger Sherman and the Creation of the American Republic Mark David Hall explores Sherman s political theory and shows how it informed his many contributions to America s founding A close examination of Sherman s religious beliefs provides insight into how those beliefs informed his political actions Hall shows that Sherman like many founders was influenced by Calvinist political thought a tradition that played a role in the founding generation s opposition to Great Britain and led them to develop political institutions designed to prevent corruption promote virtue and protect rights Contrary to oft repeated assertions that the founders advocated a strictly secular policy Hall argues persuasively that most founders believed Christianity should play an important role in the new American republic

The Folly of Revolution S. Scott Rohrer,2023-03-20 In this penetrating biography of Thomas Bradbury Chandler S Scott Rohrer takes readers deep into the intellectual world of a leading loyalist who defended monarchy rejected rebellion and democracy and opposed the American Revolution Talented hardworking and erudite this Anglican minister from New Jersey possessed one of the Church of England s most outstanding minds Chandler was an Anglican leader in the 1760s and a key strategist in the effort to strengthen the American church in the years preceding the Revolution He headed the campaign to create an Anglican bishopric in America a cause that helped inflame tensions with American radicals unhappy with British policies And in the 1770s his writings provided some of the most trenchant criticisms of the American revolutionary movement raising fundamental questions about obedience subordination and rebellion that undercut Whig assertions about republicanism and popular control Working from Chandler s library catalog and other primary sources Rohrer digs into Chandler s political and religious beliefs exploring their origins and the events in British history that shaped them An intriguing and thoughtful reappraisal of a consequential figure in early American history this biography will captivate students scholars and lay readers interested in politics and religion in Revolutionary era America

A Companion to Colonial America Daniel Vickers,2008-04-15 A Companion to Colonial America consists of twenty three original essays by expert historians on the key issues and topics in American colonial history Each essay surveys the scholarship and prevailing interpretations in these key areas discussing the differing arguments and assessing their merits Coverage includes politics religion migration gender ecology and many others

Conceived in Liberty Murray Newton Rothbard,2011

Forming American Politics Alan Tully,2019-12-01 Originally published in 1994 In this pathbreaking book Alan Tully offers an unprecedented comparative study of colonial political life and a rethinking of the foundations of American political culture Tully chooses for his comparison the two colonies that arguably had the most profound impact on American political history New York and Pennsylvania the rich and varied colonies at the geographical and ideological center of British colonial America Fundamental to the book is Tully s argument that out of Anglo American influences and the cumulative character of each colonial experience New York and Pennsylvania developed their own

distinctive but complementary characteristics In making this case Tully enters from a new perspective the prominent argument between the classical republican and liberal views of early American public thought He contends that the radical Whig element of classical republicanism was far less influential than historians have believed and that the political experience of New York and Pennsylvania led to their role as innovators of liberal political concepts and discourse In a conclusion that pursues his insights into the revolutionary and early republican years Tully underlines a paradox in American political development not only were the pathbreaking liberal politicians of New York and Pennsylvania the least inclined towards revolutionary fervor but their political language and concepts integral to an emerging liberal democratic order were rooted in oligarchical political practice A momentous contribution to the burgeoning literature on the middle Atlantic region and to the vexed question of whether it constitutes a coherent cultural configuration Tully argues persuasively that it does and his arguments will have to be reckoned with like few that have gone before even as he develops an array of differences between the two colonies more subtle and penetrating than any of his predecessors has ever put forth Michael Zuckerman University of Pennsylvania *The Politics of History* Arthur H. Shaffer, 2017-07-12 This is an analysis of the American Revolutionary generation's attempt to create a national history that would justify the Revolution and develop a sense of nationhood Shaffer pursues a number of themes and establishes a connection between the historians' republican ideology, political concerns and outlook and the precise ways in which they interpreted American history He also includes an analysis of their background, education, profession, political persuasion, personal ambitions and circumstances and attitudes toward the problem of union during the 1780s The writings here offer unusual insights into the mind of the Revolutionary generation The histories produced during the early national period represent the beginnings of a genre of writing new to America, one characterized by the subjugation of history to the service of nationalism It is this element, nationalism, that gave this history its flavor, made possible its achievement, saddled it with difficulties and although unintentionally produced a tone and emphasis different from that of the Enlightenment The contribution of the Revolutionary generation of historians to the public identity represents an important aspect of the intellectual history of the early national period With all their frequent vagueness and imprecision of formulation, almost incantatory repetitiousness and patriotic sentimentality, the works of the first national generation of historians comprise a revealing effort to come to grips with the meaning of the Revolution and nationhood This striving charted much of the course that American historiography was to travel thereafter **Religion und Politik in den Vereinigten Staaten von Amerika** Norbert Finzsch, 2012

Unveiling the Energy of Verbal Art: An Mental Sojourn through **Mitre And Sceptre Transatlantic Faiths Ideas Personalities And Politics 1689 1775**

In some sort of inundated with displays and the cacophony of fast connection, the profound energy and mental resonance of verbal artistry frequently diminish in to obscurity, eclipsed by the regular onslaught of sound and distractions.
