Hamar Foster, John McLaren

Mixed Signals A History Of The Chinese Diasport:

A Modern History of Hong Kong Steve Tsang, 2007-07-30 This major history of Hong Kong tells the remarkable story of how a cluster of remote fishing villages grew into an icon of capitalism The story began in 1842 with the founding of the Crown Colony after the First Anglo Chinese war the original Opium War As premier power in Europe and an expansionist empire Britain first created in Hong Kong a major naval station and the principal base to open the Celestial Chinese Empire to trade Working in parallel with the locals the British built it up to become a focus for investment in the region and an international centre with global shipping banking and financial interests Yet by far the most momentous change in the history of this prosperous capitalist colony was its return in 1997 to Mother China the most powerful Communist state in the world

Sound and Script in Chinese Diaspora Jing Tsu, 2011-01-15 What happens when language wars are not about hurling insults or quibbling over meanings but are waged in the physical sounds and shapes of language itself Native and foreign speakers mother tongues and national languages have jostled for distinction throughout the modern period The fight for global dominance between the English and Chinese languages opens into historical battles over the control of the medium through standardization technology bilingualism pronunciation and literature in the Sinophone world Encounters between global languages as well as the internal tensions between Mandarin and other Chinese dialects present a dynamic interconnected picture of languages on the move In *Sound and Script in Chinese Diaspora* Jing Tsu explores the new global language trade arguing that it aims at more sophisticated ways of exerting influence besides simply wielding knuckles of power Through an analysis of the different relationships between language standardization technologies of writing and modern Chinese literature around the world from the nineteenth century to the present this study transforms how we understand the power of language in migration and how that is changing the terms of cultural dominance Drawing from an unusual array of archival sources this study cuts across the usual China West divide and puts its finger on the pulse of a pending supranational world under literary governance

Heritage and History in the China-Australia Migration Corridor Denis Byrne, Ien Ang, Phillip Mar, 2023-03-03 *Heritage and History in the China Australia Migration Corridor* traces the material and social legacy of migration from China to Australia from the 1840s until the present day The volume offers a multidimensional examination of the material footprint of migration as it exists at either end of the migration corridor stretching between Zhongshan county in south China and Australia Spanning the fields of heritage studies migration studies and Chinese diaspora history Denis Byrne Ien Ang Phillip Mar and the other contributors foreground a transnational approach to the history and heritage of migration one that takes account of the flows of people ideas objects and money that circulate through migration corridors forming intricate ongoing bonds between those who migrated to Australia and their home villages in China This is an excellent new addition to the growing literature on the history heritage and archaeology of the Chinese diaspora and transnational Chinese migration This book is poised to be a major contribution to the history and

heritage of the Chinese diaspora Barbara L Voss Stanford University The quality of the research and writing is very high and the theoretical framing is sophisticated and original This book makes a much needed contribution to overseas Chinese heritage studies Chinese Australian history transnational theory and migration history It also provides a model for how to work respectfully and successfully with descendants and community Sophie Loy Wilson University of Sydney *Gender and Sexuality in Modern Chinese History* Susan L. Mann, 2011-09-19 Gender and sexuality have been neglected topics in the history of Chinese civilization despite the fact that there is a massive amount of historical evidence on the subject China's late imperial government was arguably more concerned about gender and sexuality among its subjects than any other pre modern state How did these and other late imperial legacies shape twentieth century notions of gender and sexuality in modern China Susan Mann answers this by focusing on state policy ideas about the physical body and notions of sexuality and difference in China's recent history from medicine to the theater to the gay bars from law to art and sports More broadly the book shows how changes in attitudes toward sex and gender in China during the twentieth century have cast a new light on the process of becoming modern while simultaneously challenging the universalizing assumptions of Western modernity

Wearing the Cheongsam Cheryl Sim, 2019-09-19 Associations between the cheongsam dress and Chinese cultural identity are well known but what are the meanings of the cheongsam for members of the Chinese diaspora In a study grounded in first hand accounts of wearing Cheryl Sim explores the practices and experiences of women in Canada a major Chinese diaspora and carries out the first in depth study of the cheongsam from this critical point of view Questions explored over the course of 20 interviews as well as during personal reflections on the author's own experiences of wearing include is there a desire to re claim or appropriate the cheongsam Does this desire risk perpetuating stereotypes of Asian women Does it undermine one's identification with one's host country Can erased heritage's be accessed through dress And how does wearing the cheongsam interact with the male gaze Revealing feelings of repulsion and attraction Sim combines personal stories with an authoritative use of theoretical frameworks such as feminism post colonialism and autoethnography Covering issues such as heritage ethnic identity authenticity nationalism patriarchy and assimilation Sim demonstrates that the meanings of the cheongsam are multifarious Readable but with strong academic underpinnings this book is the entry point into discussions of Chinese dress and diaspora *Asia's New Regionalism* Ellen L. Frost, 2008 *Mixed Race Identities in*

Asia and the Pacific Zarine L. Rocha, 2015-10-08 Mixed race is becoming an important area for research and there is a growing body of work in the North American and British contexts However understandings and experiences of mixed race across different countries and regions are not often explored in significant depth New Zealand and Singapore provide important contexts for investigation as two multicultural yet structurally divergent societies Within these two countries mixed race describes a particularly interesting label for individuals of mixed Chinese and European parentage This book explores the concept of mixed race for people of mixed Chinese and European descent looking at how being Chinese and or

European can mean many different things in different contexts By looking at different communities in Singapore and New Zealand it investigates how individuals of mixed heritage fit into or are excluded from these communities Increasingly individuals of mixed ancestry are opting to identify outside of traditionally defined racial categories posing a challenge to systems of racial classification and to sociological understandings of race As case studies Singapore and New Zealand provide key examples of the complex relationship between state categorization and individual identities The book explores the divergences between identity and classification and the ways in which identity labels affect experiences of mixed race in everyday life Personal stories reveal the creative and flexible ways in which people cross boundaries and the everyday negotiations between classification heritage experience and nation in defining identity The study is based on qualitative research including in depth interviews with people of mixed heritage in both countries Filling an important gap in the literature by using an Asia Pacific dimension this study of race and ethnicity will appeal to students and scholars of mixed race studies ethnicity Chinese diaspora and cultural anthropology

Grassroots Integration in Multicultural Singapore Rebecca Grace Tan, 2025-01-24 This book studies the role that grassroots volunteers play in the integration and naturalization process in Singapore With increasing migration the topics of migrant integration and belonging are of perennial academic and public interest However much of the existing literature on the subject is largely focused on European and North American cases By focusing on the single case of Singapore this project provides a story of how a city state grapples with the issue of managing increasing cultural diversity while seeking to maintain a cohesive identity As a city Singapore has many ubiquitous features of other urban centres for migration such as a rapidly diversifying population and an economy that is heavily reliant on foreign labour At the same time being a city state means that the demographic and cultural changes experienced in Singapore also coincide with questions of national belonging and membership in the nation state in contrast to larger countries with rural urban divides or more decentralized systems of migration management and integration Examining this simultaneously typical yet unique case study means that this project is able to examine the processes where state and society have managed migration and cultural diversity at the level of the nation state For example this project discusses how Singapore's policy of multiracialism complements nation building efforts adding to existing public and academic debate about whether societies can concurrently embrace cultural difference yet maintain a cohesive national identity

Mixed Messages Kathryn E. Graber, 2020-08-15 Focusing on language and media in Asian Russia particularly in Buryat territories Mixed Messages engages debates about the role of minority media in society alternative visions of modernity and the impact of media on everyday language use Kathryn E Graber demonstrates that language and the production circulation and consumption of media are practices by which residents of the region perform and negotiate competing possible identities What languages should be used in newspapers magazines or radio and television broadcasts Who should produce them What kinds of publics are and are not possible through media How exactly do discourses move into

out of and through the media to affect everyday social practices Mixed Messages addresses these questions through a rich ethnography of the Russian Federation's Buryat territories a multilingual and multiethnic region on the Mongolian border with a complex relationship to both Europe and Asia Mixed Messages shows that belonging in Asian Russia is a dynamic process that one cannot capture analytically by using straightforward categories of ethnolinguistic identity **The Palgrave Dictionary of Transnational History** A. Iriye, P. Saunier, 2016-04-30 Written and edited by many of the world's foremost scholars of transnational history this Dictionary challenges readers to look at the contemporary world in a new light Contains over 400 entries on transnational subjects such as food migration and religion as well as traditional topics such as nationalism and war **The Blacks of Premodern China** Don J. Wyatt, 2012-02-28 Premodern Chinese described a great variety of the peoples they encountered as black The earliest and most frequent of these encounters were with their Southeast Asian neighbors specifically the Malaysians But by the midimperial times of the seventh through seventeenth centuries C E exposure to peoples from Africa chiefly slaves arriving from the area of modern Somalia Kenya and Tanzania gradually displaced the original Asian blacks in Chinese consciousness In *The Blacks of Premodern China* Don J Wyatt presents the previously unexamined story of the earliest Chinese encounters with this succession of peoples they have historically regarded as black A series of maritime expeditions along the East African coastline during the early fifteenth century is by far the best known and most documented episode in the story of China's premodern interaction with African blacks Just as their Western contemporaries had the Chinese aboard the ships that made landfall in Africa encountered peoples whom they frequently classified as savages Yet their perceptions of the blacks they met there differed markedly from those of earlier observers at home in that there was little choice but to regard the peoples encountered as free The premodern saga of dealings between Chinese and blacks concludes with the arrival in China of Portuguese and Spanish traders and Italian clerics with their black slaves in tow In Chinese writings of the time the presence of the slaves of the Europeans becomes known only through sketchy mentions of black bondservants Nevertheless Wyatt argues that the story of these late premodern blacks laboring anonymously in China under their European masters is but a more familiar extension of the previously untold story of their ancestors who toiled in Chinese servitude perhaps in excess of a millennium earlier

Theater Missile Defense (TMD) in East Asia Lars Assmann, 2007 As East Asia is entering the 21st Century Japan is reassessing its security environment and thus its strategic calculus is on the verge of deploying latest jointly researched theater missile defenses TMD to counter the threat of ballistic and cruise missiles In parallel the People's Republic of China is constantly modernizing its ballistic missile forces and is gearing up for a possible contingency with its self proclaimed high tech adversaries This work shows what drives Japan to deploy theater missile defenses and how the People's Republic of China is poised to be reacting to it [Interpreting China's Military Power](#) Ka Po Ng, 2005-08-09 Although inter state tensions have generally been easing after the Cold War military power remains a dominant factor in Asian regional politics As

China operating the world's largest army grows stronger there are ongoing debates over the implications for Asia's regional security. This book argues that it is imperative to look beyond the empirical observations and conventional materialist reading of Chinese military development to understand its dynamics and directions in doctrinal terms and put it in a readiness context for evaluation. Military doctrine has long been under studied and is often treated as a subject separate from force development. But as this study contends this factor is necessary for interpreting the making and purposes of China's military power because it forms the intellectual foundation of military structural and hardware development. When loaded with political rhetoric it also communicates to us the intended uses of the military power. The role of doctrine is reinforced in the context of military readiness which defines what for and how the army is getting ready. Force development is evaluated in structural, operational and directional terms. The importance of this analytical framework based on military doctrine and readiness is demonstrated in a survey of the evolution of Chinese military doctrine and force development. As the Chinese People's Liberation Army has continued to adjust its military structure and operation to follow the doctrinal lead its switches between the doctrines of local war and total war have seen corresponding changes to the emphasis between operational and structural readiness.

The Kremlin's Chinese Advance Guard Daria Arincheva, Alexander Pantsov, 2023-04-21. This book is a comprehensive historical study of the Bolshevik system of ideological and political indoctrination of a substantial number of Chinese revolutionaries who studied in Comintern international institutions in Soviet Russia from the October Revolution of 1917 to the Great Terror of the late 1930s. Including analysis of previously unknown documentary materials from the Bolshevik Party and Comintern archives as well as memoirs of former Chinese students and prisoners of Stalin's camps, the book determines how effective the training of Chinese students in the main educational centers in Moscow was, how well it compared to the existing level of Marxist education in the USSR, and how the Stalinist regime defined the lives and fates of the Chinese revolutionaries in Soviet Russia. In raising questions about the transferability of revolutionary ideology, experience and practice from the revolutionaries of one country to would-be revolutionaries in other countries, the authors ask: can revolution be exported? Shedding light on an under-explored aspect of the early history of the CCP and the Soviet Bolshevik Party, this book will be a valuable resource to both students and scholars of Chinese and Russian history and politics.

The Industrial Revolution in World History Peter N. Stearns, 2020-11-16. Now in its fifth edition, this book explores the ways in which the industrial revolution reshaped world history, covering the international factors that helped launch the industrial revolution, its global spread, and its impact from the end of the eighteenth century to the present day. The single most important development in human history over the past three centuries, the industrial revolution continues to shape the contemporary world. Revised and brought into the present, this fifth edition of Peter N. Stearns' *The Industrial Revolution in World History* extends his global analysis of the industrial revolution. Looking beyond the West, the book considers India, the Middle East, and China, and now includes more on key Latin American economies and Africa, as well as the

heightened tensions since 2008 about the economic aspects of globalization and the decline of manufacturing in the West This edition also features a new chapter on key historiographical debates updated suggestions for further reading and boxed debate features that encourage the reader to consider diversity and different viewpoints in their own analysis and pays increased attention to the environmental impacts Illustrating the contemporary relevance of the industrial revolution s history this is essential reading for students of world history and economics as well as for those seeking to know more about the global implications of what is arguably the defining socioeconomic event of modern times *Essays in the History of Canadian Law* Hamar Foster, John McLaren, 1995-12-15 This sixth volume in the Osgoode Society s distinguished series on the history of Canadian law turns to the a central theme in the history of British Columbia and the Yukon law and order In the early days of British sovereignty the frenzied activity of the fur trade and the gold rush along with clashes between settlers and Natives made law enforcement a difficult business Later although law and order were more firmly established tensions continued between the dominant populations committed to the practice and rhetoric of British justice and those groups owing allegiance to other value systems such as Native peoples Asian immigrants and Doukhobors or those resisting authority criminals and the criminally insane These essays look at key social economic and political issues of the times and show how they influenced the developing legal system The essays cover a wide range of topics and explore the human as well as the legal dimensions of their subjects relating specific cases to broader theory They demonstrate that English law has been flexible enough to accommodate diversity and is therefore pragmatic The volume also proves that there is no single Canadian legal culture geography demography politics economics and military considerations have had an impact on the shape of our legal culture The introduction by John McLaren and Hamar Foster pulls together the many regional themes to provide a clear overview of the legal complexities of the period *New Chinese Migrants in New Zealand* Bingyu Wang, 2018-08-06 There are growing waves of desirable migrants from Asia moving to New Zealand a place experiencing increasing ethnic diversity particularly in its largest metropolitan region Auckland In purely demographic terms much of this diversity has been generated by policy shifts since the 1980s and the adoption of a comparatively liberal immigration policy based on personal merit without discrimination on the grounds of race national or ethnic origin Due to these changes migrants from China and Asia more broadly have become increasingly significant in migration flows into New Zealand This in turn makes New Zealand a valuable case study for understanding how Chinese migrants integrate into and affect their host nation Wang attempts to close a gap in contemporary research by relating cosmopolitanism to migration particularly in the Asian context With a cosmopolitan gaze towards migration studies she makes four key contributions to the ongoing scholarly discussion Firstly this is the first comprehensive study to use cosmopolitanism as a framework to study the lives of contemporary Chinese migrants with implications for migration studies as a whole It sheds light on the relationship between cosmopolitanism and migrant mobility taking a new approach to examine the living paradigms of international migrants

Secondly this book identifies the emergence and development of cosmopolitanism outside the domain of Western middle class groups The concept of rooted cosmopolitanism is utilised to break down the Eurocentric notion of cosmopolitanism and to show the role played by Chinese rootedness during the process of becoming cosmopolitan and encountering diversity Thirdly the book advances and enriches the knowledge of studies in everyday cosmopolitanism by focusing on cosmopolitanism from below locating quotidian and down to earth cosmopolitan engagements that are grounded in everyday migrant lives Fourthly it looks at the emotional dimension of migrants negotiating difference and engaging in cosmopolitanism particularly the ways in which emotions undermine and promote the development of cosmopolitan sociability

China and the Islamic World Robert R. Bianchi, 2019-02-01 China is building a New Silk Road that runs through the heartland of the Muslim world promising it will create integrated economies and stronger ties across Eurasia and Africa Robert R Bianchi argues that while China has the financial and technical resources to accomplish its infrastructure goals it is woefully unprepared to deal with the social and political demands of its partner countries citizens China and the Islamic World explores how China's leaders and citizens are learning through their relationships with Pakistan Turkey Indonesia Iran Nigeria and Egypt that they have to respect and adjust to the aspirations of ordinary people throughout the Islamic world not just cater to the narrow band of government and business elites Bianchi demonstrates that turbulent countries along the New Silk Road are likely to transform Chinese society at least as much as China changes them This realization will be deeply unsettling for China's authoritarian rulers who desperately want to monopolize power domestically The party and state bosses have responded to challenges with a contradictory blend of flexibility abroad and rigidity at home compromising with popular demands in one country after another while refusing to negotiate many of the same issues with their own citizens This book shows how China faces a growing struggle to maintain their double sided statecraft as it becomes apparent that the New Silk Road is not a one way street
