## **Quicklet on David Roberts and Greg Child's Sandstone Spine: Seeking the Anasazi on the First Traverse of the Comb Ridge**

**(CliffNotes-like Book Summary and Analysis)** Nicole Silvester, 2012-07-30 ABOUT THE BOOK In this book I have chosen sometimes to be deliberately vague about the name and location of certain prehistoric ruins and rock art Such an ethic is by now in long use among writers photographers and guides who celebrate the Southwest A narrative of personal discovery should not serve as a treasure map Roberts and Child's book *Sandstone Spine* is an account of the expedition of three men along Comb Ridge a sandstone ridge resembling a miniature mountain range and running for nearly an hundred miles across Arizona and Utah This area is full of archaeological ruins primarily from various phases of the Anasazi people as well as more recent Navajo sites While the basic premise of the book is a recounting of Roberts Child's and their friend Vaughn

Hadenfeldt's experiences during the arduous expedition along the length of the Ridge the structure and additional content of Sandstone Spine make it much more than simply an account of an hiking trip Interspersed between sections recounting the events of the hike are retellings of historical events significant to the area and information on both the current Navajo inhabitants and the prehistoric Anasazi people Roberts also includes geological and natural history information arranging all of this content into a fascinating mosaic of a book The book narrates how while searching for a new expedition author David Roberts and long time hiking and climbing partner Vaughn Hadenfeldt wondered whether or not anyone had ever hiked Comb Ridge from end to end in one trip As it seemed that no one had ever made a complete traverse of the Ridge the two friends decided to try it themselves and they both agreed that photographer and mutual friend Greg Child would be the perfect third party to join them on the expedition At ages 47 53 and 61 respectively at the time of their trip Child Hadenfeldt and Roberts had spent their lives making adventurous forays into some of the most inaccessible places on Earth Both Roberts and Child made good livings writing about their adventures while Hadenfeldt ran a business guiding hiking trips into the Utah canyonlands The level of expedition and adventure writing experience that Roberts and Child have ensures that their book includes interesting and relevant information for readers Roberts did considerable research after the trip to complement the daily journals he kept Sandstone Spine was published by The Mountaineers Books which also published some of Roberts other titles The publisher is a part of The Mountaineers Club a non profit dedicated to the exploration preservation and enjoyment of outdoor and wilderness areas In keeping with its publisher's philosophy Sandstone Spine is very much a book about enjoying the outdoors in a respectful and non destructive way EXCERPT FROM THE BOOK Over the years Greg Vaughn and I had found literally hundreds of Anasazi ruins in the backcountry Yet the thrill of coming upon a new one especially one so beautiful as this was undiminished Chapter One describes the preparations that Roberts Child and Hadenfeldt make for their expedition As the area they wish to traverse has unreliable water supplies the men decide on a water caching system in which they visit key locations along the ridge by driving and day hiking and leave plastic bottles of water where they can easily find them again They also decide to arrange for another friend to meet them at certain dates at points where highways and road access penetrate the ridge so they won't have to pack a whole month's worth of food This will also allow them to swap out equipment if necessary Hiking the whole length of Comb Ridge also requires permits buy the book to continue reading

*Postcards from the Ledge* Greg Child, 2012-10-02 Reflections and humorous pieces plus insights into some of mountaineering's more controversial events Revealing portraits of other Himalayan climbers Peeling back the layers to reveal the gritty truth about the elite climbing world is Greg Child's specialty With clever wit sharp observations and insightful reflections Child's writing covers the full spectrum of the mountaineering experience Entertaining even to those who have never been above sea level Child's stories reveal climbing's other face His description of the daily habits of mountaineers on expedition who don't bathe for months is both disgusting and horrifyingly funny A post climb fiasco in the

offices of petty Pakistani bureaucrats proves that not all epics take place on high mountain faces Falling of a rock climb in front of his mother is an exercise in humility Child takes up climbing controversy with the same keen insight His investigation of Tomo Cesen s claimed first ascent of Lhotse s south wall is considered the definitive report on this controversial event A hard look at the media frenzy around the death of Alison Hargreaves on K2 evolves into a brilliant impassioned defense of a friend He also speaks out on the money and media driven expeditions that now crowd Everest But Child never preaches Whether contrasting his clumsy performance with Lynn Hill s elegant moves on a climb in the remote mountains of Kyrgyzstan or reflecting upon artifacts from crucifixes to pink flamingos that decorate the world s highest peaks he writes it as he sees it with a dose of wit A true insider Greg Child draws us deep into the world of climbing but never denies its dark side

Escape Routes David Roberts,1998-08-01 A collection of the author s favorite twenty adventure stories from the last eleven years

**Over the Edge** Greg Child,2015-02-04 A different sort of true climbing adventure this one with terrorists kidnappings and AK47s New afterword by the author First time in paperback Before dawn on August 12 2000 four of America s best young rock climbers Tommy Caldwell Beth Rodden Jason Singer Smith and John Dickey were asleep in their portaledge high on the Yellow Wall in the Pamir Alai mountain range of Kyrgyzstan At daybreak they would be kidnapped at gunpoint by fanatical militants of the Islamic Movement of Uzbekistan IMU which operates out of secret bases in Tajikistan and Afghanistan and is linked to Al Qaeda The kidnappers themselves barely out of their teens intended to use their hostages as human shields and for ransom money as they moved across Kyrgyzstan They hid the climbers by day and marched them by night through freezing treacherous mountain terrain with little food no clean water and the constant threat of execution The four climbers the oldest of them only 25 would see a fellow hostage a Kyrgyz soldier executed before their eyes And in a remarkable life and death crucible over six terrifying days they would be forced to choose between saving their own lives and committing an act none of them thought they ever could In **Over the Edge** the climbers reveal the complete story of their nightmarish ordeal to journalist and climber Greg Child With riveting details Child re creates the entire hour by hour drama from the first ricocheting bullets to the climatic decision that gains them their freedom Set in a region rife with narcotics and terrorism this is a compelling story about loyalty and the will to survive What continues to make it relevant today 15 years after the events took place is the geopolitical context the incident happened eerily on the eve of 9 11 the fact that at least two of the four climbers continue to be prominent in the sport and the details incorporated into the story around the media hype and controversy regarding the climbers and their story

*Pilgrims of the Vertical* Joseph E. Taylor III, 2010-10-15 Few things suggest rugged individualism as powerfully as the solitary mountaineer testing his or her mettle in the rough country Yet the long history of wilderness sport complicates this image In this surprising story of the premier rock climbing venue in the United States *Pilgrims of the Vertical* offers insight into the nature of wilderness adventure From the founding era of mountain climbing in Victorian Europe to present day climbing gyms *Pilgrims of the Vertical* shows how ever changing alignments of nature technology gender sport and consumer culture have shaped climbers relations to nature and to each other Even in Yosemite Valley a premier site for sporting and environmental culture since the 1800s elite athletes cannot be entirely disentangled from the many men and women seeking recreation and camaraderie Following these climbers through time Joseph Taylor uncovers lessons about the relationship of individuals to groups sport to society and nature to culture He also shows how social and historical contexts influenced adventurers choices and experiences and why some became leading environmental activists including John Muir David Brower and Yvon Chouinard In a world in which wild nature is increasingly associated with play and virtuous play with environmental values *Pilgrims of the Vertical* explains when and how these ideas developed and why they became intimately linked to consumerism **Freedom Climbers** Bernadette McDonald, 2013-02-20 [CLICK HERE](#) to download the first chapter from *Freedom Climbers* Provide us with a little information and we'll send your download directly to your inbox One of the most important mountaineering books to be written for many years Boardman Tasker Prize See this book trailer for *Freedom Climbers* made by RMB Books its publisher in Canada where the cover is slightly different from the *Mountaineers Books* US edition Behind the Iron Curtain Cold War mountaineers found freedom on the world's highest peaks and paid an awful price to achieve it Winner of the Boardman Tasker Prize Banff Grand Prize and American Alpine Club Literary Award *Freedom Climbers* tells the story of Poland's truly remarkable mountaineers who dominated Himalayan climbing during the period between the end of World War II and the start of the new millennium The emphasis here is on their golden age in the 1980s

and 1990s when despite the economic and social baggage of their struggling country Polish climbers were the first to tackle the world's highest mountains during winter including the first winter ascents on seven of the world's fourteen 8000 meter peaks Everest Manaslu Dhaulagiri Cho Oyu Kanchenjunga Annapurna and Lhotse Such successes however came at a serious cost 80 percent of Poland's finest high altitude climbers died on the high mountains during the same period they were pursuing these first ascents Award winning writer Bernadette McDonald addresses the social political and cultural context of this golden age and the hardships of life under Soviet rule Polish climbers she argues were so tough because their lives at home were so tough they lost family members to World War II and its aftermath and were so much more poverty stricken than their Western counterparts that they made much of their own climbing gear While *Freedom Climbers* tells the larger story of an era McDonald shares charismatic personal narratives such as that of Wanda Rutkiewicz expected to be the first woman to climb all 8000 meter peaks until she disappeared on Kanchenjunga in 1992 Jerzy Kukuczka who died in a fall while attempting the south face of Lhotse and numerous other renowned climbers including Voytek Kurtyka Artur Hajzer Andrej Zawaka and Krzysztof Wielicki This is a fascinating window into a different world far removed from modernity yet connected by the strange allure of the mountain landscape and a story of inspiring passion against all odds This title is part of our **LEGENDS AND LORE** series [Click here to learn more](#)

**The Red Planet** Bill Hatcher, 2024-04-16 We humans have an extraordinary capacity for compassion much of it in response to the atrocities we inflict on the planet its animals and each other The popular explanation for this paradox is that we evolved as carnivorous killer apes who gradually curbed our lust for violence with frequent exceptions by implementing humane social norms This explanation is so well worn especially in the American psyche that it epitomizes cliché So we could be forgiven for believing it when nearly every word is fiction Current research shows that our original biological and social programming is nonviolent So what changed What turned us from goddess worshipping plant eating peacemakers into god worshipping animal eating warmongers Find out in this fresh avant garde nonfiction *The Red Planet Gendered Landscapes and Violent Inequalities* and learn how our intrinsically feminine predilection for peace may yet save us

Everest* Sherry B. Ortner, 2020-03-31 The Sherpas were dead two more victims of an attempt to scale Mt Everest Members of a French climbing expedition sensitive perhaps about leaving the bodies where they could not be recovered rolled them off a steep mountain face One body however crashed to a stop near Sherpas on a separate expedition far below They stared at the frozen corpse stunned They said nothing but an American climber observing the scene interpreted their thoughts Nobody would throw the body of a white climber off Mt Everest For more than a century climbers from around the world have journeyed to test themselves on Everest's treacherous slopes enlisting the expert aid of the Sherpas who live in the area Drawing on years of field research in the Himalayas renowned anthropologist Sherry Ortner presents a compelling account of the evolving relationship between the mountaineers and the Sherpas a relationship of mutual dependence and cultural conflict played out in an environment of mortal risk Ortner

explores this relationship partly through gripping accounts of expeditions often in the climbers own words ranging from nineteenth century forays by the British through the historic ascent of Hillary and Tenzing to the disasters described in Jon Krakauer's *Into Thin Air*. She reveals the climbers or sahibs to use the Sherpas phrase as countercultural romantics seeking to transcend the vulgarity and materialism of modernity through the rigor and beauty of mountaineering. She shows how climbers behavior toward the Sherpas has ranged from kindness to cruelty from cultural sensitivity to derision. Ortner traces the political and economic factors that led the Sherpas to join expeditions and examines the impact of climbing on their traditional culture, religion, and identity. She examines Sherpas attitude toward death, the implications of the shared masculinity of Sherpas and sahibs, and the relationship between Sherpas and the increasing number of women climbers. Ortner also tackles debates about whether the Sherpas have been spoiled by mountaineering and whether climbing itself has been spoiled by commercialism.

*Illusion Dweller* Stimson Bullitt, Thomas Hornbein, 2013-11-20 A lovely mix of recollections coupled with erudite reflections of an at times almost too openly honest elder. Tom Hornbein, author of *Everest: The West Ridge*, a moving recollection of a life inspired by climbing and redeemed by nature. Stimson Bullitt came to climbing late in life but with a passion that put him on rock well into his 80s. A memoir that teaches all of us something about aging with both power and grace. Stimson Bullitt was born into a privileged and influential Seattle family, a position he did not always find comfortable. He showed his black sheep tendencies when after graduating from Yale University he rode the rails to come back West where he worked in Central Washington orchards and on a highway crew at Chinook Pass. Later he became a skilled lawyer, a champion of civil and environmental causes, and president of King Broadcasting, the communications empire built by his mother, Dorothy Stimson Bullitt. While he was always drawn to the mountains, it wasn't until Bullitt reached his 50s and 60s that he sought challenges on North America's formidable peaks including Denali and Mount Rainier. Not until he was 70 did he take up rock climbing, but it became a match and foil for his passions and at times his inner demons. *Illusion Dweller*, named after a particularly hard earned and difficult climb 5.10b at Joshua tree, is Bullitt's climbing memoir published posthumously and based on his own detailed manuscript. He climbed until just before his death at age 89. His achievements serve as inspiration to climbers of any age and to anyone striving to retain or acquire a spirit of adventure later in life.
