Mo The Life Times Of Morris K Udall:

Mo Donald W. Carson, James W. Johnson, 2015-10-19 Everybody liked Mo Throughout his political life and especially during his bid for the Democratic presidential nomination in 1976 thousands of people were drawn to Arizona congressman Morris K Udall by his humor humanity and courage This biography traces the remarkable career of the candidate who was too funny to be president and introduces readers to Mo the politician Mo the environmentalist and Mo the man Journalists Donald Carson and James Johnson interviewed more than one hundred of Udall s associates and family members to create an unusually rich portrait They recall Udall s Mormon boyhood in Arizona when he lost an eye at age six his service during World War II his brief career in professional basketball and his work as a lawyer and county prosecutor which earned him a reputation for fairness and openness Mo provides the most complete record of Udall s thirty year congressional career ever published It reveals how he challenged the House seniority system and turned the House Interior Committee into a powerful panel that did as much to protect the environment as any organization in the twentieth century It shows Udall to have been a consensus builder for environmental issues who paved the way for the Alaska Lands Act of 1980 helped set aside 2 4 million acres of wilderness in Arizona and fought for the Central Arizona Project one of the most ambitious water projects in U S history Carson and Johnson record Udall s early opposition to the Vietnam War at a time when that conflict was largely perceived as a just cause as well as his early advocacy of campaign finance reform They also provide a behind the scenes account of his run for the presidency the first House member to seek the office in nearly a century which gained him an intensely loyal national following Mo explores the paradoxes that beset Udall He was a man able to accomplish things politically because people genuinely liked and respected him yet he was a loner and workaholic whose focus on politics overshadowed his personal life Carson and Johnson devote a chapter to the famous Udall sense of humor They also look sensitively at his role as a husband and father and at his proud and stubborn bout with Parkinson s disease Mo Udall will long be remembered for his contributions to environmental legislation for his unflagging efforts in behalf of Arizona and for the gentle humor with which he conducted his life This book secures his legacy [Losing the Center](#) Jeffrey

Bloodworth, 2013-07 Many Americans consider John F Kennedy s presidency to represent the apex of American liberalism Kennedy s Vital Center blueprint united middle class and working class Democrats and promoted freedom abroad while recognizing the limits of American power Liberalism thrived in the early 1960s but its heyday was short lived In [Losing the Center](#) Jeffrey Bloodworth demonstrates how and why the once dominant ideology began its steep decline exploring its failures through the biographies of some of the Democratic Party s most important leaders including Daniel Patrick Moynihan Henry Scoop Jackson Bella Abzug Harold Ford Sr and Jimmy Carter By illuminating historical events through the stories of the people at the center of the action Bloodworth sheds new light on topics such as feminism the environment the liberal abandonment of the working class and civil rights legislation This meticulously researched study authoritatively argues that

liberalism's demise was prompted not by a Republican revolution or the mistakes of a few prominent politicians but instead by decades of ideological incoherence and political ineptitude among liberals. Bloodworth demonstrates that Democrats caused their own party's decline by failing to realize that their policies contradicted the priorities of mainstream voters who were more concerned about social issues than economic ones. With its unique biographical approach and masterful use of archival materials, this detailed and accessible book promises to stand as one of the definitive texts on the state of American liberalism in the second half of the twentieth century.

John J. Rhodes J. Brian Smith, 2005. The life of John Jacob Rhodes is in part the story of a man thrust from the relative obscurity of the House to the forefront of what became America's most serious constitutional crisis since the Civil War: the drive to impeach President Richard M. Nixon. As House Republican Leader, John Rhodes was compelled to balance the interests of his party against his sworn oath to preserve the U.S. Constitution. The anguish he endured and the political and personal courage he displayed qualify John Rhodes as a true American patriot. This book documents Rhodes's life journey from his hometown of Council Grove, Kansas, through his long and illustrious representation of Arizona in the U.S. House of Representatives to his active post-Congressional career, which lasted up until his death at age 86 in 2003. His was a full life in which he was an eyewitness to and participant in major events in our nation's history from the Vietnam and Cold Wars to the civil rights movement, from the normalization of diplomatic relations with China to Reaganomics and all the domestic and international upheaval that characterized the second half of the twentieth century. John J. Rhodes: Man of the House is the engaging story of a man who is remembered by all who knew him as a quiet, effective leader who accomplished extraordinary things for his state, stood tall under enormous pressure at a time of grave national peril, and left a legacy of statesmanship sadly missing in today's body politic. John Rhodes's life reminds us how American politics once was and hopefully may one day be again.

Donkey Work Patrick Andelic, 2024-11-13. What happened to the Democratic Party after the 1960s? In many political histories, the McGovern defeat of 1972 announced the party's decline and the conservative movement's ascent. What the conventional narrative neglects, Patrick Andelic submits, is the role of Congress in the party's and the nation's political fortunes. In *Donkey Work*, Andelic looks at Congress from 1974 to 1994 as the Democratic Party's stronghold and explores how this twenty-year tenure boosted and undermined the party's response to the conservative challenge. If post-1960s America belongs to the conservative movement, Andelic asks, how do we account for the failure of so much of the conservative agenda, especially the shrinking of the federal government? Examining the Democratic Party's unusual durability in Congress after 1974, *Donkey Work* disrupts the narrative of inexorable liberal decline since the 1970s and reveals the ways in which liberalism and conservatism actually developed in tandem. The book traces the evolution of ideologies within the Democratic Party, particularly the emergence of neoliberalism, suggesting that this political philosophy was as much an anticipation of America's right turn as a reaction to it, as factions vied for control of the party. Congress itself both strengthened and weakened liberal resistance to the conservative movement. By putting the

focus on Congress and legislative politics in contrast to the presidential synthesis that dominates US political history Andelic's book offers a new deeply informed perspective on two turbulent decades of American politics a perspective that alters and expands our understanding of how we arrived at our present political moment *Arizona Politicians* James W. Johnson, 2015-10-19 Do you know these famous Arizona politicians A congresswoman who was bridesmaid to Eleanor Roosevelt A car dealer who propelled himself to the governor's mansion with the help of public recognition of his TV commercials An Arizonan who served not only as governor and chief justice of the Arizona Supreme Court but also as the Majority Leader of the U S Senate and chief sponsor of the GI Bill A cowboy who delivered speeches to ranchhands and went on to become a U S senator known as one of the great orators of the twentieth century One of four Arizonans who lost a bid for the presidency yet made the Gallup Poll as one of the ten most admired men in the world A secretary who became the first woman in the nation to sit on a state supreme court For a state with a small population Arizona has had an unusually strong presence on the national political scene Barry Goldwater Mo Udall Bruce Babbitt and John McCain made memorable runs for the White House over just the past four decades Stewart Udall Secretary of the Interior under Kennedy was the first cabinet appointment from the state Attorney General Richard Kleindienst and Supreme Court justice William Rehnquist were controversial appointees of Richard Nixon And Arizona claims two of today's nine Supreme Court justices not only Rehnquist now Chief Justice but also Sandra Day O'Connor the first woman ever appointed to the high court Not all of Arizona's politicians have garnered such distinction Two of the state's last four governors of the twentieth century Evan Mecham and Fife Symington faced criminal indictments and were forced out of office Journalist James Johnson has written profiles of 21 men and women from Arizona who have made their mark in the political arena Chosen for their contributions to the state their national prominence their colorful personalities and in some cases their notoriety these prominent public servants from first governor George W P Hunt to current senior senator McCain all have been major participants in state or national affairs Congressman Mo Udall once commented on Arizona's civilized brand of politics in which Republicans and Democrats conservatives and liberals treated one another with mutual respect Johnson conveys both the spirit and spiritedness of Arizona politics and reveals how in many cases these politicians and their family members found their lives and careers overlapping He tells their stories with humor and objectivity while political cartoonist David Fitzsimmons captures their trademark styles in original drawings Although the individuals may speak from different platforms all have been proud to call themselves Arizonans and proud to serve their state This book shares their accomplishments and shows how for better or worse they've helped put Arizona in the spotlight **David Brower** Tom Turner, 2015-10-01 In this first comprehensive authorized biography of David Brower a dynamic leader in the environmental movement over the last half of the twentieth century Tom Turner explores Brower's impact on the movement from its beginnings until his death in 2000 Frequently compared to John Muir David Brower was the first executive director of the Sierra Club founded Friends of the Earth and

The Politics of Western Water Stephen C. Sturgeon, 2022-12-06 As the Democratic congressman from Colorado's Fourth District from 1949 to 1973 Wayne Aspinall was an advocate of natural resource development in general and reclamation projects in particular A political loner considered crusty and abrasive he carved a national reputation by helping secure the passage of key water legislation in the process clashing with colleagues and environmentalists alike Fiercely protective of western Colorado's water supply Aspinall sought to secure prosperity for his district by protecting its share of Colorado River water through federal reclamation projects and he made this goal the centerpiece of his congressional career He became chair of the House Interior Committee in 1959 and ruled it with an iron fist for more than a dozen years a role that placed him in a key position to shape the nation's natural resource legislation at a time when the growing environmental movement was calling for a sharp change in policy This full length study of Aspinall's importance to reclamation in the West clarifies his role in influencing western water policy By focusing on Aspinall's congressional career Stephen Sturgeon provides a detailed account of the political machinations and personal foibles that shaped Aspinall's efforts to implement water reclamation legislation in support of Colorado's Western Slope along the way shedding new light on familiar water controversies Sturgeon meticulously traces the influences on Aspinall's thinking and the arc of his career examining the congressman's involvement in the Colorado River Storage Project bill and his clash with conservationists over the proposed Echo Park Dam recounting the fight over the Frying Pan Arkansas Project and his decision to support diverting water out of his own district and exploring the battles over the Central Arizona Project in which Aspinall fought not only environmentalists but also other members of Congress Finally he assesses the Aspinall legacy including the still disputed Animas La Plata Project and shows how his vision of progress shaped the history of western water development The Politics of Western Water portrays Aspinall in human terms not as a pork barrel politician but as a representative who believed he was protecting his constituents interests It is an insightful account of the political financial and personal variables that affect the course by which water resource legislation is conceived supported and implemented a book that is essential to understanding the history and future of water in the West

The Green Years, 1964-1976 Gregg Coodley , David Sarasohn, 2021-09-30 In The Green Years 1964

1976 Gregg Coodley and David Sarasohn offer the first comprehensive history of the period when the United States created the legislative legal and administrative structures for environmental protection that are still in place over fifty years later Coodley and Sarasohn tell a dramatic story of cultural change grassroots activism and political leadership that led to the passage of a host of laws attacking pollution under President Johnson At the same time with Stewart Udall as secretary of the interior the Wilderness Act the Wild and Scenic Rivers Act and other land protection measures were passed and the department shifted its focus from western resource development to broader national conservation issues The magnitude of what was accomplished was without precedent even under conservation minded presidents like the two Roosevelts The fast paced story the authors tell is not only about the Democratic Party in this era there was still a vital Republican conservation tradition In the 1960s Republicans were chronologically as close to Teddy Roosevelt as to Donald Trump In both the House and Senate and in the Nixon and Ford administrations Republicans played vital roles It was President Nixon who established the Environmental Protection Agency and signed into law the 1970 Clean Air Act revisions in 1972 to the Clean Water Act and the 1973 Endangered Species Act Under Nixon actions were taken to protect the oceans forests coastal zones and grasslands while regulating chemicals pesticides and garbage The authors analyze the full range of transformations during the Green Years from the creation of entirely new pollution control industries to backpacking becoming mass recreation to how revelations about chemical exposure spurred the natural food movement And not least the tectonic shift in the political landscape of the United States with the western states becoming Republican bastions and centers of ongoing backlash against the federal government The Green Years 1964 1976 is the story of environmental progress in the midst of war and civil unrest and of the lessons we can learn for our future
