Model Boats From The Tomb Of Tutankhamun:

Model Boats from the Tomb of Tut'ankhamūn Dilwyn Jones, 1990 This volume publishes the thirty five wooden model boats found in the tomb of Tutankhamun the only complete group known from the 18th Dynasty It also includes a study of eleven magical oars discovered in the Burial Chamber

Boats Dilwyn Jones, 1995-01-01 Drawing on archaeological and literary evidence Dilwyn Jones examines the importance of the boat in Egyptian ritual and belief as well as in everyday life The sun god was thought to travel across the sky in a solar boat and Egyptians believed that the deserving might join the god Osiris in his divine bark after death Boats played an important part in funerary ritual models were often placed in tombs to provide the deceased with safe passage through the Winding Waterway in the underworld Also boats are frequently depicted in tomb paintings The Nile has always been a vital transport artery for Egypt and boats the principal means of travel Early papyrus skiffs gradually gave way to wooden craft of increasing size and sophistication ranging from fishing boats and barges to seagoing warships splendid ships of state and enormous obelisk barges used to transport stone to temples and monuments Dilwyn Jones traces the development of the different types of boats and the techniques of their construction through the Old Middle and New Kingdom periods The book is illustrated with photographs of boat models and paintings and with line drawings

The Tomb of Tutankhamun Vol. I Howard Carter, 2014-11-20 Let me try and tell the story of it all It will not be easy for the dramatic suddenness of the initial discovery left me in a dazed condition and the months that have followed have been so crowded with incident that I have hardly had time to think Among the hundreds of books written about ancient Egypt and Tutankhamen you won't find an equal to Howard Carter's powerful book about his discovery His great work in many ways remained unfinished He left us however this remarkable document of discovery The book is Carter's personal story of the greatest adventure of his life one that has not been surpassed in nearly a century of archaeology In 1904 retired American lawyer Theodore Davis famously declared that The Valley of the Kings in Thebes had given up all of its secrets leaving nothing more to be discovered He relinquished his exclusive rights to dig in The Valley But as Howard Carter states in this volume The history of The Valley has never lacked the dramatic element Some 18 years later Carter made the richest archaeological discovery in history within yards of where Davis had dug The world immediately became obsessed with everything Tutankhamen From architecture to household goods to fashion a early 20th century surge in fascination with ancient Egypt took hold across the globe Howard Carter too had been obsessed with finding Tut The discovery would consume the rest of Carter's life After becoming known to the world Howard Carter died in relative obscurity in 1939 This is not a dry scientific treatment of the excavation or the artifacts What he imparts with this book is a sense of excitement wonder and mystery set expertly into a concise context of history and Egyptology captivating layperson and specialist alike young or old Intertwining notes on Egyptian gods religion mythology and magic Carter spins an alluring real life tale setting the context for Egyptian history and Tutankhamun For the first time this amazing work is available for Kindle With a new Introduction and updated footnotes you'll have more context to follow this book than Carter's original readers did Much information that was yet to be understood or discovered in 1922 is included in the Introduction Care has been taken to create a well formatted book for Kindle It includes images from the original publication You can even take it with you on your smartphone if you have the Kindle app installed and then refer to it while visiting the Tutankhamun exhibit in one of the cities it visits in North America

Tutankhamun and Carter Rogerio Sousa, Gabriele Pieke, Tine Bagh, 2024-08-15 First scholarly multi disciplinary re assessment of Howard Carter s discovery and excavation of Tutenkhamun s tomb and the impact of the find on our understanding of the material culture of Ancient Egypt The discovery of the tomb of Tutankhamun in 1922 stands out as one of the most important finds of modern archaeology revealing an enormous wealth of objects encapsulating techniques vestiges of uses and re uses of materials as well as unrivalled clues regarding the complex set of beliefs associated with the pharaonic funerary material culture Once cleared from the tomb these objects have captivated the world with their irresistible charm and beauty ending up playing a role in contemporary popular culture However it seems that such magnetism rather hindered than facilitated the scholarly study of the find One hundred years after the discovery of this magnificent tomb most of its objects remain insufficiently studied to this day This volume aims to show how it remains challenging to study Tutankhamun s objects gathering a collection of studies authored by leading scholars on conservation materials funerary beliefs as well as the reception of motifs and the impact of the discovery Through these studies it becomes clear how ancient objects can help us reconstruct the complex fabric of the ancient Egyptian society and how they keep interacting with modern audiences
