Preparing For A Show Threshold Picture Guides

Orin Thomas

Preparing For A Show Threshold Picture Guides:

Run with Power Jim Vance, 2016-05-01 RUN WITH POWER is the groundbreaking guide you need to tap the true potential of your running power meter. From 5K to ultramarathon, a power meter can make you faster, but only if you know how to use it. Just viewing your numbers is not enough; you can only become a faster, stronger, more efficient runner when you know what your key numbers mean for your workouts, races, and your season-long training. In *Run with Power Training Bible*, coach Jim Vance offers the comprehensive guide you need to find the speed you want. *Run with Power* demystifies the data and vocabulary so you can find and understand your most important numbers. You'll set your Running Power Zones so you can begin training using 8 power-based training plans for 5K, 10K, half marathon, and marathon. Vance shows you how you can compare wattage, heart rate, pace, and perceived exertion to gain the maximum insight into your performances, how you respond to training, and how you can train more effectively. *Run with Power* will revolutionize how you train and race. Armed with Vance's guidance, you can train more specifically for races, smooth your running technique, accurately measure your fitness, predict a fitness plateau, monitor injuries, know exactly how hard you're training, get more fitness from every workout, recover fully, perfect your tapers, warm up without wasting energy, pace your race on any terrain, know when to open the throttle, and create an unprecedented picture of yourself as an athlete. If you're just glancing at the number on your wrist or computer monitor, you've got a lot more speed potential. Knowledge is power, and understanding your power numbers can open the gate to new methods and new PRs. *Run with Power* introduces the use of power meters to the sport of running and will show you how to break through to all new levels of performance. Key concepts explored in *Run with Power*: 3.9 Test, 30 minute Time Trial Test, Running Functional Threshold Power (rFTPw), Running Functional Threshold Pace (rFTPp), Averaged and Normalized Power (NP), Intensity Factor (IF), Peak Power, Variability Index, Efficiency Index (EI), speed per watt. Vance's Power Zones for Running Training, Stress Score (TSS), and Periodization with Power. Includes 6 testing methods and 8 power-based training schedules and workouts for 5K, 10K, half marathon, and marathon.

Guide for Training Initiation Ministers

Michael Ruzicki, 2025-08-01 This practical guide provides parish leaders with the tools needed for facilitating and training all those involved with the adult Christian initiation process. Designed as a companion to *An Introduction to the OCIA: The Vision of Christian Initiation* Revised Edition by Ronald J. Lewinski, the enclosed training sessions explore the vision, theology, and purpose of the Order of Christian Initiation of Adults in a lively, interactive, and faith-filled way. A supplemental website is provided with downloadable materials and videos that will deepen and enlighten participants' understanding about the Christian initiation process. This second edition has been updated to correspond to the new translation of the OCIA.
