Presence Of The Past Popular Uses Of History In American Life:

The Presence of the Past Roy Rosenzweig, David Paul Thelen, 1998 Rosenzweig and Thelen analyze results from a unique and comprehensive survey in which they polled 1 500 Americans about their connection to the past and its continuing influence on their present as well as their hopes for the future *History by HBO* Rebecca Weeks, 2022-07-12 The television industry is changing and with it the small screen's potential to engage in debate and present valuable representations of American history Founded in 1972 HBO has been at the forefront of these changes leading the way for many network cable and streaming services into the post network era Despite this most scholarship has been dedicated to analyzing historical feature films and documentary films leaving TV and the long form drama hungry for coverage In *History by HBO* Televising the American Past Rebecca Weeks fills the gap in this area of media studies and defends the historiographic power of long form dramas By focusing on this change and its effects *History by HBO* outlines how history is crafted on television and the diverse forms it can take Weeks examines the capabilities of the long form serial for engaging with historical stories insisting that the shift away from the network model and toward narrowcasting has enabled challenging histories to thrive in home settings As an examination of HBO's unique structure for producing quality historical dramas Weeks provides four case studies of HBO series set during different periods of United States history *Band of Brothers* 2001 *Deadwood* 2004 2007 *Boardwalk Empire* 2012 2014 and *Treme* 2010 2013 In each case HBO's lack of advertiser influence commitment to creative freedom and generous budgets continue to draw and retain talent who want to tell historical stories Balancing historical and film theories in her assessment of the roles of mise en scene characterization narrative complexity and sound in the production of effective historical dramas Weeks' evaluation acts as an ode to the most recent Golden Age of TV as well as a critical look at the relationship between entertainment media and collective memory *The Oxford Handbook of Urban Planning* Randall Crane, Rachel Weber, 2015 Why plan How and what do we plan Who plans for whom These three questions are then applied across three major topics in planning States Markets and the Provision of Social Goods The Methods and Substance of Planning and Agency Implementation and Decision Making **Representing the Sporting Past in Museums and Halls of Fame** Murray G. Phillips, 2013-06-17 We live in a museum age and sport museums are part of this phenomenon In this book leading international sport history scholars examine sport museums including renowned institutions like the Olympic Museum in the Swiss city of Lausanne the Babe Ruth Birthplace and Museum in Baltimore the Marylebone Cricket Club Museum in London the Croke Park Museum in Dublin and the Whyte Museum in Banff These institutions are examined in a broad context of understanding sport museums as an identifiable genre in the museum age and more specifically in terms of how the sporting past is represented in these museums Historians explain debate and critique sport museums with the intention of understanding how this important form of public history represents sport for audiences who see museums as institutions that are inherently reliable and trustworthy *The Routledge Research Companion to*

Historians as Expert Judicial Witnesses in Tobacco Litigation Ramses Delafontaine, 2015-04-23 Historian Ramses Delafontaine presents an engaging examination of a controversial legal practice the historian as an expert judicial witness This book focuses on tobacco litigation in the U S wherein 50 historians have witnessed in 314 court cases from 1986 to 2014 The author examines the use of historical arguments in court and investigates how a legal context influences historical narratives and discourse in forensic history Delafontaine asserts that the courtroom is a performative and fact making theatre Nonetheless he argues that the civic responsibility of the historian should not end at the threshold of the courtroom where history and truth hang in the balance The book is divided into three parts featuring an impressive range of European and American case studies The first part provides a theoretical framework on the issues which arise when history and law interact The second part gives a comparative overview of European and American examples of forensic history This part also reviews U S legal rules and case law on expert evidence as well as extralegal challenges historians face as experts The third part covers a series of tobacco related trials With remunerations as high as hundreds of thousands of dollars and no peer reviewed publications or communication on the part of the historians hired by the tobacco companies the question arises whether some historians are willing to trade their reputation and that of their university for the benefit of an interested party The book further provides 50 expert profiles of the historians active in tobacco litigation lists detailing the manner of the expert s involvement and West Law references to these cases This book offers profound and thought provoking insights on the post war forensicification of history from an interdisciplinary perspective In this way Delafontaine makes a stirring call for debate on the contemporary engagement of historians as expert judicial witnesses in U S tobacco litigation

Historical Film Jonathan Stubbs, 2013-03-28 Although precise definitions have not been agreed on historical cinema tends to cut across existing genre categories and establishes an intimidatingly large group of films In recent years a lively body of work has developed around historical cinema much of it proposing valuable new ways to consider the relationship between cinematic and historical representation However only a small proportion of this writing has paid attention to the issue of genre In order to counter this omission this book combines a critical analysis of the Hollywood historical film with an examination of its generic dimensions and a history of its

development since the silent period Historical Film A Critical Introduction is concerned not simply with the formal properties of the films at hand but also the ways in which they have been promoted interpreted and discussed in relation to their engagement with the past *Performing the Gospel* Richard A. Remembering America Lawrence R. Samuel,2015-11 American history is ubiquitous underscoring everything from food to travel to architecture and design It is also emotionally charged frequently crossing paths with political and legal issues In Remembering America Lawrence R Samuel examines the place that American history has occupied within education

and popular culture and how it has continually shaped and reflected our cultural values and national identity The story of American history Samuel explains is not a straight line but rather one filled with twists and turns and ups and downs its narrative path as winding as that of the United States as a whole Organized around six distinct eras of American history ranging from the 1920s to the present Samuel shows that our understanding of American history has often generated struggle and contention as ideologically opposed groups battled over ownership of the past As women and minorities gained greater power and a louder voice in the national conversation our perspectives on American history became significantly more multicultural bringing race gender and class issues to the forefront These new interpretations of our history helped to reshape our identity on both a national and an individual level Samuel argues that the fight for ownership of our past combined with how those owners have imparted history to our youth crucially affects who we are Our interpretation and expression of our country s past reflects how that self identity has changed over the last one hundred years and created a strong sense of our collective history one of the few things Americans all have in common

Scripting Genocide Nicholas K. Johnson, 2025-06-30 Scripting Genocide traces the history of how and why the Wannsee Conference has repeatedly attracted the attention of American British and German artists writers and filmmakers since 1960 Almost all of their televisual depictions of the conference itself are sparse minimalist dialogue driven productions Their subtle almost scholarly projection of the conference stands in stark contrast to the large scale and often critically acclaimed attention devoted to other aspects of the Holocaust in both big budget theatrical films and European art cinema Scripting Genocide investigates how the dramatic fictionalized depictions of the Wannsee Conference offered filmmakers and especially screenwriters opportunities to be public historians This book also contains the final interviews with screenwriters Paul Mommertz and

Loring Mandel Following the methods of the New Film History which is grounded in archival production material oral history interviews and screenplay analysis this book asks why and how filmmakers have grappled with portraying Wannsee in dramatic form since the 1960s Each of these docudramas contributed to a diffuse body of work the author conceptualizes as antifascist television In the end all of these productions argue that words prefigure deeds
