Presence and Absence Reynolds Price, 1973 Presences and Absences – Transdisciplinary Essays Katarína

Labudova, Nóra Séllei, 2013-10-03 This volume discusses the question of presence and or absence from a transdisciplinary perspective and intends to provide insights into how a wide range of disciplines addresses this issue which has been at the centre of philosophical theoretical and critical debates in the past decades As the essays in the volume prove apparently diverse areas can have a lot in common and talk to each other in sometimes surprising ways The topics discussed include modals in various languages and black slave funeral sermons pragmatic markers and the Australian Stolen Generation the transcendental in poems by Ann Bradstreet Arthur Symons and Philip Larkin short stories by Katherine Mansfield generic presences in Virginia Woolf and contemporary journalism haunting presences in fin de siècle ghost stories and in a contemporary horror film mythical structures in John Cowper Powys and Margaret Atwood and gender politics in Pat Barker and Sarah Waters The analyses as they talk to each other create multiple dialogues without imposing closures and ultimate interpretations on the plethora of possible meanings emerging from the juxtaposition of these essays This transdisciplinary volume written in an erudite but reader friendly language will be of great interest to both the academic world as well as a broader readership interested in how linguistic phenomena in general cultural myths of all kinds various cinematic literary and journalistic genres from diverse periods can be approached and opened up to new readings and meanings from the perspective of presences and absences **The Calling of the Nations** Mark Vessey, Sharon Betcher, Robert Daum, Harry O.

Maier, 2011-12-15 Current notions of nationhood communal identity territorial entitlement and collective destiny are deeply rooted in historic interpretations of the Bible Interweaving elements of history theology literary criticism and cultural theory the essays in this volume discuss the ways in which biblical understandings have shaped Western and particularly European and North American assumptions about the nature and meaning of the nation Part of the Green College Lecture Series this wide ranging collection moves from the earliest Pauline and Rabbinic exegesis through Christian imperial and missionary narratives of the late Roman medieval and early modern periods to the entangled identity politics of mainstream nineteenth and twentieth century North America Taken together the essays show that while theories of globalization postmodernism and postcolonialism have all offered critiques of identity politics and the nation state the global present remains heavily informed by biblical historical intuitions of nationhood **The Holy Bible According to the Authorized Version (a.D. 1611):**

Paratext and Megatext as Channels of Jewish and Christian Traditions August den Hollander, Ulrich Schmid, Willem Smelik, 2020-01-29 Religious traditions are channeled to new audiences by textual markers which inform their understanding and influence Such markers are signs of contextualisation which belong to the paratext of a tradition textual elements that do not belong to the core text itself but belong to their embedding and as such affect their reception Alternatively some texts function purposely in tandem with another text and cannot be understood without that text While the second text informs the way the first one is being understood it can hardly function independently The discussions include the arrangement of textual blocks in the Hebrew Bible how the oral transmission of Jewish Aramaic Bible translations had to be recited as a counterpoint to the Hebrew chant how synagogue poetry presupposes the channels of liturgical instruction how the Talmud can be perceived as a translation of Mishnah how the presence of paratextual elements such as annotations and prefaces influenced the Index Librorum Prohibitorum concerning 16th century Bibles the function of paratext and scope for modern Bible translations This volume will tentatively explore the wide range of paratext and megatext as devices of channeling religious traditions

The Absence

of God in Biblical Rape Narratives Leah Rediger Schulte, 2017-08-15 In this groundbreaking work to identify and address God's absence in three key rape narratives in the Hebrew Bible Leah Rediger Schulte finds a pattern that indicates a larger community crisis. With a careful look at Genesis 34, Judges 19 and 2 Samuel 13, this study outlines God's absence, a foreign presence, and a persistent problem that is resolved incorrectly to highlight consequences of the Israelites breaking their covenant with God. Using methodologies from literary criticism and gender studies and situating rape in its historical context, this volume makes distinctions between modern constructs of rape and biblical rape. Commentaries and studies on rape in the Bible often read a modern understanding of the victim and rapist back into the biblical text, missing how it would have been understood in ancient Israel. These biblical rape scenes are intimately connected to and assist in telling the story of Israel's history as a people and their covenantal relationship with their deity. Digital and Postdigital Learning for Changing Universities Maggi Savin-Baden, 2023-10-27 This book explores the purpose, role, and function of the university and examines the disconnection between students' approaches to learning and university strategy. It centres on the idea that it is vital to explore what counts as a university in the twenty-first century, what it is for and for whom, as well as how it can transcend social divisions. The universities of the twenty-first century need to have larger audiences, a broader voice, a shift away from othering, and an effective means of progressing such shifts. What is central to such exploration is the idea that learning needs to be seen as postdigital. With a focus on how the growth of technology has and continues to affect university learning, this book explores the concepts of the digital and the postdigital, promotes just and inclusive pedagogies for higher education, considers ways to ensure learning is an ethical and political experience, studies how to understand community and collective values through higher education, suggests ways of promoting personal and collective responsibility for our world, and its peoples, presents ways in which the university can challenge ideologies based on capitalist modes of consumption, privilege, and exploitation. *Digital and Postdigital Learning for Changing Universities* is essential reading for anyone seeking to reimagine the university in a postdigital age, despite institutional structuration and government intervention. It challenges current assumptions and practices and encourages new ways of thinking about higher education and learning in the twenty-first century. *The NIV Application Commentary on the Bible: One-Volume Edition* Zondervan, 2024-08-27 THE AWARD WINNING COMMENTARY SERIES THAT BRINGS THE ANCIENT MESSAGE OF THE BIBLE INTO YOUR WORLD.
