Present History:

History of Rationalism; embracing a Survey of the present State of Protestant Theology John Fletcher Hurst, 1865 **Current History**, 1918 History and Evolution Matthew H. Nitecki, Doris V. Nitecki, 1992-01-01 Explores the differences and similarities of historical and evolutionary approaches to investigating and interpreting the past The 11 papers were presented at the Spring Systematics Symposium in Chicago May 1989 They discuss philosophy and methodology and such topics as the history of evolution and the evolution of history Paper edition unseen 16 95 Annotation c by Book News Inc Portland Or The Collected Works of Eric Voegelin, Volume 26, History of Political Ideas, Volume VIII, Crisis and the Apocalypse of Man Eric Voegelin, 1999-07 **History and the Contemporary Novel** David Cowart, 1989 Cowart presents a study of international historical fiction since World War II with reflections on the affinities between historical and fictional narrative analysis of the basic modes of historical fiction and readings of a number of historical novels including John Barth's *The Sot Weed Factor* Marguerite Yourcenar's *Memoirs of Hadrian* Russell Hoban's *Riddley Walker* Margaret Atwood's *The Handmaid's Tale* Giuseppe Tomasi Di Lampedusa's *The Leopard* D M Thomas's *The White Hotel* William Faulkner's *Go Down Moses* and Umberto Eco's *The Name of the Rose* He proposes recognizing four modes of the historical novel the past as a distant mirror of the present fictions whose authors seek to pinpoint the precise historical moment when the modern age or some prominent feature of it came into existence fictions whose authors aspire purely or largely to historical verisimilitude and fictions whose authors reverse history to contemplate utopia and dystopia in the future Thus historical fiction can be organized under the rubrics The Distant Mirror The Turning Point The Way It Was and The Way It Will Be This fourfold schema and his focus on postwar novels set Cowart's work apart from previous studies which have not devoted adequate space to the contemporary historical novel Cowart argues that postwar historical fiction merits more extensive treatment because it is the product of an age unique in the annals of history an age in which history itself may end

The Cambridge History of the Romance Languages: Volume 1, Structures Martin Maiden, John Charles Smith, Adam Ledgeway, 2010-12-02 This Cambridge History is the most comprehensive survey of the history of the Romance languages ever published in English It engages with new and original topics that reflect wider ranging comparative concerns such as the relation between diachrony and synchrony morphosyntactic typology pragmatic change the structure of written Romance and lexical stability Volume 1 is organized around the two key recurrent themes of persistence structural inheritance and continuity from Latin and innovation structural change and loss in Romance An important and novel aspect of the volume is that it accords persistence in Romance a focus in its own right rather than treating it simply as the background to the study of change In addition it explores the patterns of innovation including loss at all linguistic levels The result is a rich structural history which marries together data and theory to produce new perspectives on the structural evolution of the Romance languages

The Concept of History Dmitri Nikulin, 2017-01-26 The Concept of History reflects on the presuppositions behind the contemporary understanding of history that often remain implicit and not spelled out It is a critique of the modern understanding of history that presents it as universal and teleological progressively moving forward to an end Although few contemporary philosophers and historians maintain the view that there is strict universality and teleology in history the remnants of these positions still affect our understanding of history But if history is not universal and singular evolving toward an objective universal end it should be possible to admit of multiple histories some of which we appropriate as our own An another important aspect of this book is that it provides an account of history that is itself both historical and rooted in attempts to narrate and explain history from its inception in antiquity The book seeks to establish features or constituents of history that might be found in any historical account and

might themselves be considered historical invariants in history
