The Art of Recollection in Jena Romanticism Laurie Ruth Johnson, 2015-02-06 This exploration of Romantic depictions of memory as a faculty of body as well as of mind analyzes representations of remembrance in Jena Romantic texts When these texts pose questions about memory's employment and depiction in art about the aestheticization of recollection they reveal serious doubt about the explanatory ability of the philosophical psychological and aesthetic discourses against which Romantic and modern thought is constructed

**Holocaust Consciousness in Contemporary Britain** Andy Pearce, 2014-06-05 The Holocaust is a pervasive presence in British culture and society Schools have been legally required to deliver Holocaust education the government helps to fund student visits to Auschwitz the Imperial War Museum's permanent Holocaust Exhibition has attracted millions of visitors and Britain has an annually commemorated Holocaust Memorial Day What has prompted this development how has it unfolded and why has it happened now How does it relate to Britain's post war history

its contemporary concerns and the wider globalisation of Holocaust memory What are the multiple shapes that British Holocaust consciousness assumes and the consequences of their rapid emergence Why have the so called lessons of the Holocaust enjoyed such popularity in Britain Through analysis of changing engagements with the Holocaust in political cultural and memorial landscapes over the past generation this book addresses these questions demonstrating the complexities of Holocaust consciousness and reflecting on the contrasting ways that history is used in Britain today

**History and memory** Geoffrey Cubitt, 2013-01-18 In recent years memory has become a central though also a controversial concept in historical studies a term that denotes both a new and distinctive field of study and a fresh way of conceptualizing history as a field of inquiry more generally This book which is aimed both at specialists and at students provides historians with an accessible and stimulating introduction to debates and theories about memory and to the range of approaches that have been taken to the study of it in history and other disciplines Contributing in a wide ranging way to debate on some of the central conceptual problems of memory studies the book explores the relationships between the individual and the collective between memory as survival and memory as reconstruction between remembering as a subjective experience and as a social or cultural practice and between memory and history as modes of retrospective knowledge

**Martyrdom and Memory** Elizabeth Castelli, 2004-10-15 Martyrs are produced Elizabeth Castelli suggests not by the lived experience of particular historical individuals but by the stories that are later told about them And the formulaic character of stories about past suffering paradoxically serves specific theological cultural or political ends in the present Martyrdom and Memory explores the central role of persecution in the early development of Christian ideas institutions and cultural forms and shows how the legacy of Christian martyrdom plays out in today's world In the pre-Constantinian imperial period the conflict between Roman imperial powers and the subject Christian population hinged on competing interpretations of power submission resistance and victory This book highlights how both Roman and Christian notions of law and piety deployed the same forms of censure and critique each accusing the other of deviations from governing conventions of gender reason and religion Using Maurice Halbwachs's theoretical framework of collective memory and a wide range of Christian sources autobiographical writings martyrologies and saints' lives sermons art objects pilgrimage souvenirs and polemics about spectacle Castelli shows that the writings of early Christians aimed to create public and ideologically potent accounts of martyrdom The martyr's story becomes a usable past and a living tradition for Christian communities and an especially effective vehicle for transmitting ideas about gender

power and sanctity An unlikely legacy of early Christian martyrdom is the emergence of modern martyr cults in the wake of the 1999 shootings at Columbine High School Focusing specifically on the martyr cult associated with one of the victims Martyrdom and Memory argues that the Columbine story dramatically expresses the ongoing power of collective memory constructed around a process of rendering tragic suffering redemptive and meaningful In the wake of Columbine and other contemporary legacies of martyrdom s ethical ambivalence the global impact of Christian culture making in the early twenty first century cannot be ignored For as the last century s secularist hypothesis sits in the wings religion returns to center stage with one of this drama s most contentious yet riveting stars the martyr

Documents of Utopia Paolo Magagnoli,2015-05-12 This timely volume discusses the experimental documentary projects of some of the most significant artists working in the world today Hito Steyerl Joachim Koester Tacita Dean Matthew Buckingham Zoe Leonard Jean Luc Moul ne Ilya and Emilia Kabakov Jon Thomson and Alison Craighead and Anri Sala Their films videos and photographic series address failed utopian experiments and counter hegemonic social practices This study illustrates the political significance of these artistic practices and critically contributes to the debate on the conditions of utopian thinking in late capitalist society arguing that contemporary artists interest in the past is the result of a shift within the temporal organization of the utopian imagination from its futuristic pole toward remembrance The book therefore provides one of the first critical examinations of the recent turn toward documentary in the field of contemporary art

Placing Memory and Remembering Place in Canada James Opp,John C. Walsh,2010-11-01 Placing Memory and Remembering Place in Canada maps a fascinating terrain in memory studies by shifting the focus from nation and empire to local places that sit at the intersection of memory making and identity formation main streets city squares village museums internment camps industrial wastelands and the rural landscape While offering a unique perspective on the politics of place and memory across differing chronologies and geographies the first part of the book Commemorations traces how local expressions of memory such as celebrations museums statues postcards and plaques have contributed to a sense of place and belonging in twentieth century Canada The second part Inscriptions in turn explores how ordinary Canadians have embedded their memories of place in oral stories photographs and the landscape itself With its focus on the materiality of image text and artefact these essays argue for an understanding of place as imagined made claimed fought for and defended always in a state of becoming

*The Collective Memory Reader* Jeffrey K. Olick,Vered Vinitzky-Seroussi,Daniel Levy,2011-01-21 In the last few decades there are few concepts that have rivaled collective memory for attention in the humanities and social sciences Indeed use of the term has extended far beyond scholarship to the realm of politics and journalism where it has appeared in speeches at the centers of power and on the front pages of the world s

leading newspapers Seen by scholars in numerous fields as a hallmark characteristic of our age an idea crucial for understanding our present social political and cultural conditions collective memory now guides inquiries into diverse though connected phenomena Nevertheless there remains a great deal of confusion about the meaning origin and implication of the term and the field of inquiry it underwrites The Collective Memory Reader presents organizes and evaluates past work and contemporary contributions on collective memory Combining seminal texts hard to find classics previously untranslated references and contemporary landmarks it will serve as a key reference in the field In addition to a thorough introduction which outlines a useful past for contemporary memory studies The Collective Memory Reader includes five sections Precursors and Classics History Memory and Identity Power Politics and Contestation Media and Modes of Transmission Memory Justice and the Contemporary Epoch comprising ninety one texts A short editorial essay introduces each of the sections while brief capsules frame each of the selected texts An indispensable guide The Collective Memory Reader is at once a definitive entry point into the field for students and an essential resource for scholars

Young and Free Joanne Faulkner, 2016-05-03 Tracing the complex yet intimate relationship between a present day national obsession with childhood and a colonial past with which Australia as a nation has not adequately come to terms Young and Free draws on philosophy literature film and testimony The result is a demonstration of how anxiety about childhood has become a screen for more fundamental and intractable issues that vex Australian social and political life Joanne Faulkner argues that by interpreting these anxieties in their relation to settler colonial Australia s unresolved conflict with Aboriginal people new ways of conceiving of Australian community may be opened The book engages with philosophical and literary characterizations of childhood from Locke and Rousseau to Freud Bergson Benjamin Agamben Lacan Rancière and Halbwachs The author s psychoanalytic approach is supplemented by an engagement with contemporary political philosophy that informs Faulkner s critique of the concepts of the subject sovereignty and knowledge resulting in a speculative postcolonial model of the subject

**Memory in Shakespeare's Histories**

Jonathan Baldo, 2011-12-22 A distinguishing feature of Shakespeare s later histories is the prominent role he assigns to the need to forget This book explores the ways in which Shakespeare expanded the role of forgetting in histories from King John to Henry V as England contended with what were perceived to be traumatic breaks in its history and in the fashioning of a sense of nationhood For plays ostensibly designed to recover the past and make it available to the present they devote remarkable attention to the ways in which states and individuals alike passively neglect or actively suppress the past and rewrite history Two broad and related historical developments caused remembering and forgetting to occupy increasingly prominent and equivocal positions in Shakespeare s history plays an emergent nationalism and the Protestant Reformation A growth in England s sense of national identity constructed largely in opposition to international Catholicism caused historical memory to appear a threat as well as a support to the sense of unity The Reformation caused many Elizabethans to

experience a rupture between their present and their Catholic past a condition that is reflected repeatedly in the history plays where the desire to forget becomes implicated with traumatic loss Both of these historical shifts resulted in considerable fluidity and uncertainty in the values attached to historical memory and forgetting Shakespeare's histories in short become increasingly equivocal about the value of their own acts of recovery and recollection

**Politics and the Past** John Torpey, 2004-09-01 Politics and the Past offers an original multidisciplinary exploration of the growing public controversy over reparations for historical injustices Demonstrating that reparations politics has become one of the most important features of international politics in recent years the authors analyze why this is the case and show that reparations politics can be expected to be a major aspect of international affairs in coming years In addition to broad theoretical and philosophical reflection the book includes discussions of the politics of reparations in specific countries and regions including the United States France Latin America Japan Canada and Rwanda The volume presents a nuanced historically grounded and critical perspective on the many campaigns for reparations currently afoot in a variety of contexts around the world All readers working or teaching in the fields of transitional justice the politics of memory and social movements will find this book a rich and provocative contribution to this complex debate

Schwartz, 2010-06-30 The problem of memory in China Japan and Korea involves a surfeit rather than a deficit of memory and the consequence of this excess is negative unforgettable traumas prevent nations from coming to terms with the problems of the present These compelling essays enrich Western scholarship by applying to it insights derived from Asian settings

Transitional Justice and Memory in Cambodia Peter Manning, 2017-06-26 Memories of violence suffering and atrocities in Cambodia are today being pulled in different directions A range of transitional justice practices have been put to work in the name of redressing restoring and renewing memory At the centre of this stage is the Extraordinary Chambers in the Courts of Cambodia ECCC a hybrid tribunal established to prosecute the leaders of the Khmer Rouge regime under which 1.6 million Cambodians died of hunger or disease or were executed This book unpicks the way memory is reconstructed through appeals to a national memory the legal reframing and coding of memories as crimes and bids to locate personal memories within collective biographies Analysing the techniques and interventions of the ECCC as well as exploring the role of non governmental organisations NGOs the book explores the relationships in which Cambodian communities navigate memories of political violence This book is essential for understanding transitional justice in Cambodia in and beyond the courtroom Transitional Justice and Memory in Cambodia shows that the governing logic of transitional justice interventions that societies are unable to deal with

memories of atrocity and violence without some form of transitional justice mechanism neglects the complexity of memory and remembering in post atrocity contexts and the agency of the subjects to which such mechanisms are addressed Drawing on documentary sources legal transcripts interviews and participant observation data the book situates transitional justice processes in Cambodia within a wider context of social and cultural memory politics examining old and new conflicts of memory that have emerged between the varied accounts and uses of the past that exist in Cambodia now As such it will appeal to students and scholars in sociology human rights law and criminology     *Routledge International Handbook of Memory Studies* Anna Lisa Tota,Trever Hagen,2015-09-16 The Routledge International Handbook of Memory Studies offers students and researchers original contributions that comprise the debates intersections and future courses of the field It is divided in six themed sections 1 Theories and Perspectives 2 Cultural artefacts Symbols and Social practices 3 Public Transnational and Transitional Memories 4 Technologies of Memory 5 Terror Violence and Disasters 6 and Body and Ecosystems A strong emphasis is placed on the interdisciplinary breadth of Memory Studies with contributions from leading international scholars in sociology anthropology philosophy biology film studies media studies archive studies literature and history The Handbook addresses the core concerns and foundations of the field while indicating new directions in Memory Studies
