**Teaching, Making a Difference** Steve Sonntag, 2016-12-31 Teachers may retire from their schools but they never retire from teaching. Teaching Making a Difference includes two goals. The first is to give guidance to teachers contemplating retirement while helping them to maintain realistic standards for their students. The second goal is to present a multitude of options for just retired teachers to enjoy their well-earned retirement while still using their knowledge and experience to benefit their communities. Teachers will learn techniques that they can incorporate into their lesson plans as they continue to teach and upon retiring they will learn how to develop their own lesson plan to take care of themselves and to participate in their communities.

**Can I Quote You On That?** William Essex, 2006-09-25 Media contact is a fact of business life. And yet this is the only book on the market that focuses exclusively on getting the best out of contact with journalists. It's written by a journalist about journalists and based on a long-established and successful media training course. Circulating copies of this book around key executives would be a far cheaper and more cost-effective alternative to hiring media trainers. Being able to handle the media effectively can be a significant career advantage. Doing it badly can be damaging both to the career and to the company. This book is a practical guide to handling media contact. It starts at first contact with a journalist and goes right through to discussing whether and if so how to follow up an interview. The book looks at print, radio, television, and online journalism. There's a chapter on crisis management and one on interviewees' legal rights. A key feature of the book is that it focuses on what journalists want, why they want it, and how to give it to them in a way that

achieves favourable media coverage Can I quote you on that describes techniques for handling a variety of interviews successfully from the visit to your office by a trade journalist through expected and unexpected telephone interviews via calls from newspapers and magazines radio interviews phone ins and discussion programmes to the range of television experiences including the camera crew at the office the studio based interview and the remote studio There s a chapter on effective interview preparation and an emergency page for reference if the interview is imminent This book is designed to convey an understanding of how journalists work and how to work with them for mutual benefit There are answers to a range of frequently asked questions from How can I avoid being misquoted right through to What if they don t ask the questions I want to answer The book discusses the subtle techniques that can be used to steer an interview in a favourable direction and suggests ways of handling not only difficult questions but also stupid and ignorant questions There is also advice on how to go about forming mutually beneficial long term relationships with key journalists This is a practical guide that delivers an understanding of how journalists think and why they think that way This book is a media training course in its own right
