Protecting Yellowstone Michael J. Yochim, 2013-04-15 Yellowstone National Park looks like a pristine western landscape populated by its wild inhabitants bison grizzly bears and wolves But the bison do not always range freely snowmobile noise intrudes upon the park s profound winter silence and some tourist villages are located in prime grizzly bear habitat Despite these problems the National Park Service has succeeded in reintroducing wolves allowing wildfires to play their natural role in park forests and prohibiting a gold mine that would be present in other more typical western landscapes Each of these issues bison snowmobiles grizzly bears wolves fires and the New World Mine was the center of a recent policy making controversy involving federal politicians robust debate with interested stakeholders and discussions about the relevant science Yet the outcomes of the controversies varied considerably depending on politics science how well park managers allied themselves with external interests and public thinking about the effects of park proposals on their access and economies Michael Yochim examines the primary influences upon contemporary national park policy making and considers how those influences shaped or constrained the final policy In addition Yochim considers how park managers may best work within the contemporary policy making context to preserve national parks

The Oxford Handbook of Public Archaeology Robin Skeates, Carol McDavid, John Carman, 2012-01-05 Divided into four distinct sections and drawing across various disciplines this volume seeks to reappraise the place of archaeology in the contemporary

world by providing a series of essays that critically engage with both old and current debates in the field of public archaeology

Sea of Sand Michael M. Geary, 2016-03-31 Sculpted into graceful contours by countless centuries of wind and water the Great Sand Dunes sprawl along the eastern fringes of the vast San Luis Valley of south central Colorado Covering an area of nearly thirty square miles they are the tallest aeolian or wind produced dunes in North America towering 750 feet above the valley floor With the addition of the enormous Baca Ranch and other adjacent lands the dunes originally designated as a National Monument in 1932 attained official National Park status in 2004 In *Sea of Sand* Michael M Geary guides readers on a historical journey through this unique ecosystem which includes an array of natural and cultural wonders from the main dunefield and verdant wetlands to the summits of the Sangre de Cristo Mountains Described by explorer Zebulon Pike as a sea in a storm and by frontier photographer William Henry Jackson as a curious and very singular phase of nature's freak the Great Sand Dunes are a nexus of more than 10 000 years of human history from Paleolithic big game hunters to nomadic Native Americans from Spanish conquistadores and transcontinental explorers to hard rock miners and modern day tourists in motor homes Like these successive waves of visitors *Sea of Sand* follows the water analyzing its critical role in the settlement and development of the region Geary also describes the profound impact that waves of human use and settlement have had on the land which ultimately inspired the early grassroots efforts by San Luis Valley citizens to protect the dunes from further exploitation He examines as well the more recent legislative effort led by an unprecedented coalition of local state and federal agencies and organizations including The Nature Conservancy and the National Park Service to secure the Great Sand Dunes national park designation Amply illustrated *Sea of Sand* is the definitive history of the natural cultural and political forces that helped shape this incomparable landscape

Reshaping Our National Parks and Their Guardians Kathy Mengak, 2012 This biography of the seventh director of the National Park Service brings to life one of the most colorful powerful and politically astute people to hold this position George B Hartzog Jr served during an exciting and volatile era in American history Appointed in 1964 by Secretary of the Interior Stewart Udall he benefited from a rare combination of circumstances that favored his vision which was congenial with both President Lyndon Johnson's Great Society and Udall's robust environmentalism Hartzog led the largest expansion of the National Park System in history and developed social programs that gave the Service new complexion During his nine year tenure the system grew by seventy two units totaling 27 million acres including not just national parks but historical and archaeological monuments and sites recreation areas seashores riverways memorials and cultural units celebrating minority experiences in America In addition Hartzog sought to make national parks relevant and responsive to the nation's changing needs

Pyrocene Park Stephen J. Pyne, 2023-05-16 Its monumental rocks etched by glaciers during the last Ice Age have made Yosemite National Park a crown jewel of the national park system and a world celebrated destination Yet more and

more fire rather than ice is shaping this storied landscape In the last decade fire has blasted into public attention California s blazes have captured national and global media interest with their drama and urgency Expand the realm of fire to include the burning of fossil fuels and the fire story also subsumes climate change Renowned fire historian Stephen J Pyne argues that the relationship between fire and humans has become a defining feature of our epoch and he reveals how Yosemite offers a cameo of how we have replaced an ice age with a fire age the Pyrocene Organized around a backcountry trek to a 50 year experiment in restoring fire Pyrocene Park describes the 150 year history of fire suppression and management that has led us in part to where the park is today But there is more Yosemite s fire story is America s and the Earth s as it shifts from an ice informed world to a fire informed one Pyrocene Park distills that epic story into a sharp miniature Flush with people ideas fires and controversy Pyrocene Park is a compelling and accessible window into the American fire scene and the future it promises
