Preserving The Past:

Preserving the Past with Oral History Emily Pennel, Arkansas Historic Preservation Program. Education Program, 2002

Preserving the Past E R Chamberlin, 2023-01-16 A wide ranging and readable book that explores how our attitudes to physical remnants of the past have changed through time Ideal for everyone interested in learning more about how heritage conservation has evolved Preserving the Past focuses attention on the global preoccupation with preservation of the past and the many ways in which various governments organizations and individuals have attempted to resurrect recreate or retain ancient buildings and artefacts E R Chamberlin discusses topics as diverse as the removal of London Bridge to the Arizona desert the cleaning of Westminster Abbey the excavation of Masada the survival of the stately home Colonial Williamsburg the raising of Abu Simbel and the delicate craft of preserving works of art We have a glimpse too of some of the pioneers of preservation of William Morris the Shah of Persia and Henry Ford Interviews linked with documentary evidence are used to throw light on the questions surrounding such subjects as the reconstruction of Warsaw the Persepolis celebrations in Iran the Elgin Marbles the Crown of St Stephen and the Benin Bronzes and the amazing growth of the antiques trade In all this book is a fascinating view not of the world we have lost but of the world so many people are struggling to keep A pleasant and humane ramble through the highways and byways of conservation June A Sheppard *A Journal of Historical Geography*

Daughters of the American Revolution Magazine Daughters of the American Revolution, 1999 January and February 1925 volumes bound together as one *Asian Revitalization* Katie Cummer, 2021-01-11 Adaptive reuse refers to reusing an old building for a purpose other than which it was originally built or designed This conservation approach has become increasingly popular around the world However there are few publications that focus on its application in Asia This book fills this gap by looking at both unique and shared aspects of adaptive reuse in three Asian urban centers Hong Kong Shanghai and Singapore Building on government policy documents and extensive field work this book contextualizes adaptive reuse in each city and reveals the impetus behind a wide range of projects from revitalization in Hong Kong commercial development in Shanghai to community building in Singapore The introductory chapter sets adaptive reuse within an international perspective noting salient differences and similarities between Asia and other parts of the world It also anchors the discussion within a regional perspective focusing on the similarities and differences between Hong Kong Shanghai and Singapore Each of the following four essays addresses a specific topic about adaptive reuse including its relationship to urban development and sustainability how it benefits heritage buildings and how it reveals best practices in heritage conservation in Asia The subsequent three essays one for each city supplemented with timelines set out a clear framework for understanding the city specific case studies that follow the essays Afterwards fifteen representative projects across the three cities are presented as in depth case studies The pairing of essays and case studies provides a detailed understanding of each city s approach to adaptive reuse in the twenty first century a time when the need for sustainable development

solutions are at the forefront Intended for classroom use and professional readership this book will be of considerable value in Asia as well as elsewhere providing material for stimulating and worthwhile discussion Asian Revitalization is a highly practical and accessible volume on the long established conservation practice of adaptive reuse in East Asia Its focus on real life issues examples and challenges posed by revitalization programs in the region is extremely relevant to researchers and practitioners in architectural conservation urban design and urban studies Miles Glendinning University of Edinburgh Scotland This is a superb well documented and original book written by some of the best known and highly respected authors in the field of heritage conservation The carefully examined case studies illustrate a wide variety of solutions that highlight the work of some of the best minds of the next generations Alastair Kerr University of Victoria Canada This is a most interesting set of essays informative and thought provoking The best way to save any heritage building is by keeping it in beneficial use and how to achieve this in a sensitive manner is what these essays are about They should be vital reading for anyone considering an adaptive reuse project in Asia Michael Morrison Purcell UK With cultural heritage firmly ensconced in the global development agendas of the United Nations this well grounded volume draws upon the experience of Hong Kong SAR Shanghai and Singapore to demonstrate to scholars and practitioners alike how historic properties can be sustained through savvy adaptive reuse in the midst of tremendous urban redevelopment pressures Montira Horayangura Unakul UNESCO Bangkok Thailand

Preserving the Past Lesley Mofokeng, 2003 Women Defying Hitler Nathan Stoltzfus, Mordecai Paldiel, Judy Baumel-Schwartz, 2021-08-12 This timely volume brings together an international team of leading scholars to explore the ways that women responded to situations of immense deprivation need and victimization under Hitler s dictatorship Paying acute attention to the differences that gender made Women Defying Hitler examines the forms of women s defiance the impact these women had and the moral and ethical dilemmas they faced Several essays also address the special problems of the memory and historiography of women s history during World War II and the book features standpoints of historians as well as the voices of survivors and their descendants Notably this book also serves as a guide for human behaviour under extremely difficult conditions The book is relevant today for challenging discrimination against women and for its nuanced exploration of the conditions minorities face as outspoken protagonists of human rights issues and as resisters of discrimination From this perspective the voices being empowered in this book are clear examples of the importance of protest by women in forcing a totalitarian regime to pause and reconsider its options for the moment In revealing so Women Defying Hitler ultimately foregrounds that women rescuers and resisters were and are of great continuing consequence
