The end of communist rule in the Soviet Union brought with it a brave new world of media and commerce. Formerly state-owned enterprises were transformed often through private ownership and new corporations sprung up overnight to take advantage of the new atmosphere of freedom. Until now most research on media and news production in Russia has focused on the scope of government control and comparisons with the communist era. However, extra governmental controls and the challenges of operating in a newly capitalist environment have been just as important if not more so in the formation of the new media climate. Filling the gap in the literature, this book examines the various agents who make the news and discusses the fierce struggle among the various agents of power involved. Drawing on existing theories and scholarship, the book provides a wealth of detail on the actual daily practices of news production in Russia. Original research is combined with compelling first-hand accounts of news production and dissemination to provide an incisive look at the issues and power structures Russian journalists face on a daily basis.

Secrecy and Liberty: National Security, Freedom of Expression and Access to Information Joan Fitzpatrick, Piotr Hoffman, Sandra Coliver, Stephen Bowen, 2021-09-27

The tension between national security and freedom of expression and information is both acute and multifaceted. Without national security, basic human rights are always at risk. On the other hand, the tendency of governing elites to confuse the life of the nation with their own survival has often resulted in excessive restrictions on expression and information as well as other fundamental rights. A proper balance between secrecy and liberty requires a vigilant press and an independent judiciary. It also requires greater clarity than currently exists as to how competing rights and interests should be weighed. This book addresses that gap. Its centerpiece is a set of Principles drafted by a group of international and national law experts, many of whom contributed chapters to guide governments, courts, and international bodies in how to strike a proper balance. The

Principles have been widely endorsed among others by United Nations experts on freedom of expression and independence of judges and lawyers Sixteen country studies profiling among other states Albania Chile China Egypt France Germany India Israel Japan Norway South Africa South Korea Turkey the United Kingdom the United States and the Federal Republic of Yugoslavia explore the tremendous diversity of national security doctrines and the penal and other measures aimed at suppressing allegedly secret information and speech claimed to be subversive separatist or otherwise dangerous Five chapters examine the cases considered and approaches taken by the UN Human Rights Committee three regional human rights bodies and the European Court of Justice A Commentary draws on the other chapters to support and elucidate the Principles noting where they reflect an existing consensus and the points at which they attempt to elicit a more rights protective approach
