The Oxford Handbook of Contemporary Philosophy Frank Jackson, Michael Smith, 2007-11-29 A guide to today's most exciting research in academic philosophy with more than 30 distinguished scholars to contribute incisive and up to date critical surveys of the principal areas of research *Guide to Reprints*, 2005 *Guide to Reprints* K G Saur Publishing, K. G. Saur Verlag GmbH & Company, Walter de Gruyter GmbH, 2005-10 The established reference work *Guide to Reprints* has been radically reworked for this edition Bibliographical data was substantially increased where information was obtainable In addition the user friendliness of *Guide to Reprints* was raised to the high level of other K G Saur directories through author title cross references a subject volume a person index and a publisher index In this edition the directory lists more than 60 000 titles from more than 350 publishers **The Bookseller and the Stationery Trades' Journal**, 1992 Official organ of the book trade of the United Kingdom Crisis and Conflict in Nigeria: January 1966-July 1967 Anthony Hamilton Millard Kirk-Greene, 1993 **Economic Analysis in Historical Perspective** John Creedy, Denis Patrick O'Brien, 1992 This book concentrates on major ideas in economics rather than taking the great men approach to the history of economic thought It approaches the subject from the viewpoint of the modern literature rather than working forwards from the historical material The student should thus be able to more easily relate previous economic writings to the subject matter of an undergraduate course Whitaker's Books in Print, 1998 Books in Print, 1991 **Arts & Humanities Citation Index**, 1980 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world's leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals **The Philosopher's Index**, 1994 Vols for 1969 include a section of abstracts *Presuppositions and Non-truth-conditional Semantics* Deirdre Wilson, 1973 **Presuppositions and Non-Truth-Conditional Semantics** Deirdre Wilson, 1975 **Replacing Truth** Kevin Scharp, 2013-07-11 Kevin Scharp proposes an original theory of the nature and logic of truth on which truth is an inconsistent concept that should be replaced for certain theoretical purposes *Replacing Truth* opens with an overview of work on the nature of truth e.g. correspondence theories deflationism work on the liar and related paradoxes and a comprehensive scheme for combining these two literatures into a unified study of the concept truth Scharp argues that truth is best understood as an inconsistent concept and proposes a detailed theory of inconsistent concepts that can be applied to the case of truth Truth also happens to be a useful concept but its inconsistency inhibits its utility as such it should be replaced with consistent concepts that can do truth's job without giving rise to paradoxes To this end Scharp offers a pair of replacements which he dubs ascending truth and descending truth along with an axiomatic theory of them and a new kind of possible worlds semantics for this theory As for the nature of truth he goes on to develop Davidson's idea that it is best understood as the core of a measurement system for rational phenomena e.g. belief desire and meaning The book finishes with a semantic

theory that treats truth predicates as assessment sensitive i.e. their extension is relative to a context of assessment and a demonstration of how this theory solves the problems posed by the liar and other paradoxes *Conditionals, Paradox, and Probability* Lee Walters, John Hawthorne, 2021-02-11 *Conditionals Paradox and Probability* brings together fifteen original essays by experts in philosophy and linguistics. These specially written chapters draw on themes from the work of Dorothy Edgington, the first woman to hold a chair in philosophy at the University of Oxford. The contributors to this volume focus on the key topics to which Edgington has made many important contributions, including conditionals, vagueness, the paradox of knowability, and probability. Their insights will be of interest to philosophers, linguists, and psychologists working in philosophical logic, natural language semantics, and reasoning. *The Pragmatics of Non-truth-conditional Implication* John S. Knapp, 1981
