Preventing Deadly Conflict I. William Zartman, 2015-12-22 Conflict is inherent to all human and inter state relations but it is not inevitable Since the end of the Cold War the prevention of conflict escalation into violence through management and resolution has become a fundamental objective of the international system So how does prevention work when it works and what can be done when tried and tested practices fail In this book I William Zartman offers a clear and authoritative guide to the key challenges of conflict prevention and the norms processes and methods used to dampen and diffuse inter and intra state conflict in the contemporary world Early stage techniques including awareness de escalation stalemate ripening and resolution are explored in full alongside the late or crisis stage techniques of interruption separation and integration Prevention he argues is a battle that is never won there is always more work to be done The search for prevention necessary but still imperfect continues into new imperatives new mechanisms new agents and new knowledge which this book helps discover and apply
