Preventing Special Education for Those Who Don't Need It:

Preventing Special Education for Those who Don't Need it Laurence M. Lieberman, 1984 An overview on the inclusion of special needs children in regular classrooms Special Education James M. Kauffman, Daniel P. Hallahan, Paige C. Pullen, Jeanmarie Badar, 2018-05-30 Special Education What It Is and Why We Need It provides a thorough examination of the basic concept of special education a discussion of specific exceptionalities and constructive responses to common criticisms of special education Whether you're a teacher school administrator teacher educator or simply interested in the topic you will learn just what special education is who gets it or who should get it and why it is necessary The second edition of this brief yet powerful primer will help you build the foundation of a realistic rational view of the basic assumptions and knowledge on which special education rests Visions of Entitlement Mary A. Jensen, Stacie G. Goffin, 1993-10-12 As part of a re-examination of our societal values and obligations this book focuses on illuminating the various meanings and issues of entitlement in relation to the basic needs of children in our society Drawing on the perspectives of philosophy law education sociology child development economics and public health the authors discuss the implications of their vision of entitlement for the well-being of America's children The book also points out specific family and cultural contexts for the provision of entitlements for young children And finally it turns our attention to the moral commitments needed to effect changes in policies and programs In this way the book provides valuable information for all who are trying to improve the nurture and education of America's children Prevention Strategies for Healthy Babies and Healthy Children United States. Prevention of Maladjustment to Life Course Transitions Moshe Israelashvili, 2023-06-01 This book provides a comprehensive and updated review of the concepts models and interventions related to the process of adjustment to life course transitions In times of transition an individual is exposed to experiences that require them to assume new roles and exhibit updated behaviors Regardless of the characteristics of these transitions exposure to normative trajectories imposes on the person an intensive engagement in a process of re-adjustment Sometimes this demand is beyond the scope of one's ability motivation or comprehension Hence some people might ineffectively perceive and/or react to the change and end up feeling unable to handle the change and inclined to escape the situation A preventive intervention that either reduces the impact of possible risk factors or fosters possible protective factors would support the people in managing the transition While the importance of prevention of maladjustment is repeatedly mentioned in the literature this is the first known book on how to prevent maladjustment It examines how the sense of transition emerges what adjustment means the models that elaborate on how people manage in times of transition what the antecedents of maladjustment are and especially how maladjustment could be prevented Out of these discussions a new model The Transitional Stress and Adjustment TSA Model

is suggested as a grand framework for paving a way forward to better prevent people's maladjustment to life course transitions Prevention of Maladjustment to Life Course Transitions is a much needed cornerstone in the future development within the prevention science framework This book has interdisciplinary appeal for researchers practitioners and graduate students in psychology sociology public health social work criminology medicine health sciences public policy economics and education who consider prevention an important vehicle of intervention to promote health and wellbeing Its focus on the topic of adjustment also would be of special interest to those who explore child and youth development **Alcohol**

Weinstein, 2013-10-31 Classroom management is a topic of enduring concern for teachers administrators and the public It consistently ranks as the first or second most serious educational problem in the eyes of the general public and beginning teachers consistently rank it as their most pressing concern during their early teaching years Management problems continue to be a major cause of teacher burnout and job dissatisfaction Strangely despite this enduring concern on the part of educators and the public few researchers have chosen to focus on classroom management or to identify themselves with this critical field The Handbook of Classroom Management has four primary goals 1 to clarify the term classroom management 2 to demonstrate to scholars and practitioners that there is a distinct body of knowledge that directly addresses teachers managerial tasks 3 to bring together disparate lines of research and encourage conversations across different areas of inquiry and 4 to promote a vigorous agenda for future research in this area To this end 47 chapters have been organized into 10 sections each chapter written by a recognized expert in that area Cutting across the sections and chapters are the following themes First positive teacher student relationships are seen as the very core of effective classroom management Second classroom management is viewed as a social and moral curriculum Third external reward and punishment strategies are not seen as optimal for promoting academic and social emotional growth and self regulated behavior Fourth to create orderly productive environments teachers must take into account student characteristics such as age developmental level race ethnicity cultural background socioeconomic status and ableness Like other research handbooks the Handbook of Classroom Management provides an indispensable reference volume for scholars teacher educators in service practitioners and the academic libraries serving these audiences It is also appropriate for graduate courses wholly or partly devoted to the study of classroom management **Prevention Science and Research in Intellectual and Developmental Disabilities**
