through microscopic analysis of blood cells information retrieval from electronic medical record using named entity recognition approaches and prediction of drug target interactions The book is suitable for computer scientists having a bachelor degree in computer science The book is an ideal resource as a reference book for teaching a graduate course on AI for Medicine or AI for Health care Researchers working in the multidisciplinary areas use this book to discover the current developments Besides its use in academia this book provides enough details about the state of the art algorithms addressing various biomedical domains so that it could be used by industry practitioners who want to implement AI techniques to analyze the diseases Medical institutions use this book as reference material and give tutorials to medical experts on how the advanced AI and ML techniques contribute to the diagnosis and prediction of the diseases

Preventing Disease Richard B. Goldbloom, Robert S. Lawrence, 2012-12-06 Preventing Disease the offspring of an extraordinary collaboration between the U S and Canadian Preventive Services Task Forces presents a meticulous and objective review of the published evidence on preventive measures Examining such diverse and relevant topics as screening for endometrial cancer exercise counselling for healthy adults and the evidence for a causal relation between dietary lipids and coronary heart disease this volume reflects the editors shared conviction that recommendations for preventive action should rarely exceed what is well justified by the evidence In the current period characterized as the Second Public Health Revolution the authors hard nosed approach leads them to ask the tough questions Are preventive measures cost saving Does preventive screening actually lead to treatment in clinical practice Does the treatment do more good than harm To what extent does our desire to eliminate causes of serious disability ill health and premature death cloud our objectivity All concerned about preventive medicine community health and primary care will find valuable stimulation for thought and action in this book the contributions have gone beyond the rhetoric
