**Meeting Jesus at University** Edward Dutton,2016-12-05 How does university turn students into who they become Why are student evangelicals such a significant and controversial force at so many

universities In many countries university has become the main Rite of Passage between the child and adult worlds University can be enjoyable and fascinating but also life changing and traumatic And at the exact time when a student s identity is the most challenged and uncertain student evangelical groups are highly organised on many university campuses to offer students a powerful identity so that the world makes sense once again For some these groups will protect them from the university s assault on their faith For others they will challenge and even change who they are Meeting Jesus at University explores universities in six countries Drawing upon detailed fieldwork it examines the largest student evangelical group at each university in order to understand in depth the relationship between the student evangelical group and the university which it aims to convert Meeting Jesus at University offers an original contribution to the discussion of Rites of Passage examining what is experienced at university and how university breaks down and remoulds young people It explores why student evangelicals are so active particularly at Britain and America s most prestigious and identity challenging institutions meaning that students at these places are the most likely to find themselves meeting Jesus at university

**Indian Asceticism** Carl Olson,2015-03-03 Throughout the history of Indian religions the ascetic figure is most closely identified with power A by product of the ascetic path power is displayed in the ability to fly walk on water or through dense objects read minds discern the former lives of others see into the future harm others or simply levitate one s body These tales give rise to questions about how power and violence are related to the phenomenon of play Indian Asceticism focuses on the powers exhibited by ascetics of India from ancient to modern time Carl Olson discusses the erotic the demonic the comic and the miraculous forms of play and their connections to power and violence He focuses on Hinduism

but evidence is also presented from Buddhism and Jainism suggesting that the subject matter of this book pervades India's major indigenous religious traditions. The book includes a look at the extent to which findings in cognitive science can add to our understanding of these various powers. Olson argues that violence is built into the practice of the ascetic Indian. Asceticism culminates with an attempt to rethink the nature of power in a way that does justice to the literary evidence from Hindu, Buddhist, and Jain sources.

**Tantra, Ritual Performance, and Politics in Nepal and Kerala** Matthew Martin, 2020-08-10. In previous studies of South Asian Tantric ritual, scholars tend to focus on one region or context. For the first time, *Tantra, Ritual Performance, and Politics in Nepal and Kerala* Embodiment of the Goddess clan offers a comparative approach to Tantric mediumship as observed in two locales: Navadurg rituals in Bhaktapur, Nepal, and Teyyam in North Kerala. In this book, Matthew Martin advances a new theory of ritual which spotlights the way dancer-mediums embody medieval goddess clans and ancestor deities through offerings of food and sacrifice that synchronize their denizens with the land in spiralling web-like ritual networks. Uniquely interdisciplinary in style, this study synthesizes cultural history, ethnography, and theory to explore the continuities, historical, societal, and political that characterize these ritual traditions across the subcontinent.

Questions of Anthropology Rita Astuti, Jonathan Parry, Charles Stafford, 2020-06-08. Anthropology today seems to shy away from the big comparative questions that ordinary people in many societies find compelling. *Questions of Anthropology* brings these issues back to the centre of anthropological concerns. Individual essays explore birth, death, and sexuality; puzzles about the relationship between science and religion; questions about the nature of ritual, work, political leadership, and genocide; and our personal fears and desires from the quest to control the future and to find one's true identity to the fear of being alone. Each essay starts with a question posed by individual ethnographic experience and then goes on to frame this question in a broader comparative context. Written in an engaging and accessible style, *Questions of Anthropology* presents an exciting introduction to the purpose and value of Anthropology today.

Powers of Pilgrimage Simon Coleman, 2022-01-18. This book offers a new theoretical framework for exploring contemporary pilgrimage, exploring examples ranging from the Hajj to the Camino and arguing that pilgrimage activity should be understood not solely as going to, staying at, and leaving a sacred place but also as occurring in apparently mundane or domestic times, places, and practices.

Pickering, Massimo Rosati, 2012 Until recently the subject of suffering and evil was neglected in the sociological world and was almost absent in Durkheimian studies as well This book aims to fill the gap with particular reference to the Durkheimian tradition by exploring the different meanings that the concepts of evil and suffering have in Durkheim s works together with the general role they play in his sociology It also examines the meanings and roles of these concepts in relation to suffering and evil in the work of other authors within the group of the *Ann e sociologique* up until the beginning of World War II Finally the Durkheimian legacy in its wider aspects is assessed with particular reference to the importance of the Durkheimian categories in understanding and conceptualizing contemporary forms of evil and suffering
