Disease Eugen Zeisberger, Eduard Schönbaum, Peter Lomax, 2012-12-06 The German land of Hesse Bundesland Hessen is well known for its excellent wines Rheinhessen for its financial centre and for its airport Frankfurt/Main. It is unjustifiably far less well known for its importance to thermoregulation. Within the small area of Bad Nauheim, Giessen and Marburg in alphabetical order a greater concentration of students of thermoregulation has been trained or worked or is working than probably in any other single area of Europe if not the world. It is thus most appropriate to hold the Ninth International Symposium on the Pharmacology of Thermoregulation in Giessen from August 7 to 12 1994. The community of students of thermoregulation was extremely grateful that Professor Kurt Bruck and the Justus Liebig University of Giessen had extended this invitation. The same community was even more saddened that Kurt Bruck died on April 27 1992 and thus could not participate in this event that had been planned to honour his achievements. As a small token of friendship and affection the many friends of Kurt Bruck from all over the world who will participate in this event dedicate this symposium to the memory of Kurt Bruck. Another staunch friend, researcher of temperature regulation and supporter of this series of symposia died in October 1993 Professor Wilhelm Siegmund Feldberg. We feel fortunate to be able to start this volume with two brief informal and personal accounts of professors Bruck and Feldberg.
