Children and Young People's Nursing at a Glance Alan

Glasper, Jane Coad, Jim Richardson, 2018-04-03 Children and Young People's Nursing at a Glance is the perfect companion for study and revision for pre registration children's nursing students from the publishers of the market leading at a Glance series. Divided into seven sections it explores assessment and screening, working with families, the newborn infant, the developing child, child health policy, nursing the sick child and young person, and chronic and life limiting conditions. This comprehensive book is an invaluable resource for pre registration nursing students as well as newly qualified nurses wanting to consolidate and expand their knowledge of children and young people's nursing. Breaks down complex aspects of child health care in an accessible and un-intimidating way. The perfect revision and consolidation textbook. Linked closely with the NMC standards for pre registration nursing education and the essential skills clusters framework. Highly visual colour presentation with approximately 130 illustrations. Includes boxes, summary boxes, key points and recommendations for practice to improve the learning experience. Supported by a companion website featuring over 500 interactive multiple choice questions. www.ataglanceseries.com/nursing/children. Available in a range of digital formats perfect for on the go study and revision.

Evidence-based Medicine for PDAs Allan F. Platt, 2009. Accompanying CD ROM contains an audio visual tutorial with demonstrations. Page 4 of cover.

Practical Teaching in Emergency Medicine Robert L. Rogers, Amal Mattu, Michael E. Winters, Joseph P. Martinez, Terrence Mulligan, 2012-10-18. Emergency medicine attendings who wish to hone their teaching skills can find a number of books on educational strategies written by physicians from other disciplines. However, until the publication of the first edition of this book, they did not have access to a text written by emergency medicine physicians on methods of teaching that are directly applicable to teaching EM. This book was compiled to meet that need. Following the introductory section which provides important background information, the book's contents are organized into 4 sections that correspond to the core needs and interests of EM educators. Section 2 focuses on practical and ethical considerations of teaching in the ED. Section 3 provides strategies for teaching specific groups of learners. Section 4 looks at the skills that are characteristic of the best EM educators, and Section 5 looks in depth at specific teaching techniques and strategies. Now more than ever, this book addresses the needs of physician educators from all over the world. New chapters discuss lecturing to an international audience, using simulation as a teaching tool, how to make journal club work for you, and other topics that are of broad interest to medical educators in this field. In general, each chapter has been updated and reviewed to make sure the content was something that emergency physician educators could use in any country. The chapter contributors are widely regarded as leaders in the field of emergency medicine education and faculty development. Authors were given free rein to develop their chapters and write in their own style. They were asked to present their personal views on how to successfully teach the art of emergency medicine rather than review evidence based guidelines regarding medical education. As a result, most of the chapters have few references. This first person approach to a multi-authored textbook yields a compilation that varies in style from chapter to chapter and exposes the reader to a variety of communication techniques.

Calculate with Confidence - E-Book Deborah C. Morris, 2017-08-18 NEW Content additions and updates includes word problems involving dosages Critical Thinking Scenarios a discussion of the concepts regarding safety issues with medication administration and calculation plus significant updates in the insulin critical care parenteral medication and heparin chapters NEW A Z medication index references page numbers where the drug labels can be found NEW Medication labels recently added to the market highlights new and updated information relevant to practice

The JCAHO Compliance Calculator, 2005: A Tool to Train Staff and Gauge Survey Preparation, 2005
