Quicktime Vr:

   The QuickTime VR Book Susan A. Kitchens,1998 An illustrated introduction to the groundbreaking interactive technology that s brought virtual reality to the massesQuickTime Virtual Reality more commonly known as QuickTime VR is a cross platform technology developed by Apple QuickTime allows viewers to explore a site in 3D rotate objects zoom in or out of a scene or look around 360 degrees all while at their desktop The QuickTime VR Book provides an introduction to the process of creating QuickTime VR movies and larger QTVR based projects The concise information in The QuickTime VR Book shows readers how to add QuickTime VR content to their Web site or CD ROM It covers the basics of virtual reality technology and such topics as planning your movie viewing and creating panoramas and object movies understanding and setting up hot spots and linking large projects together This book will serve as an indispensable resource for Web and multimedia producers including game developers photographers and 3D artists FirstQuickTime VR book on the market A technology that cyberstores are increasingly using to make sales by displaying merchandise in virtual storefronts An affordable introductory book appealing to higher end audiences who want to add this technique to their repertoire of skills A book for those who produce Web sites and CDs as well as those who create their content   **QuickTime for Filmmakers** Richard Ferncase,2003-12-04 Over the decades distribution has remained the most elusive aspect of filmmaking The Web provides filmmakers with a new option for distribution exhibition and broadcast While other media streaming technologies are available QuickTime remains the most popular option for its versatility excellent quality and ease of use QuickTime for Filmmakers shows filmmakers and videographers how to utilize this industry standard tool and offers advice on how best to shoot a film for Internet delivery Other topics include Editing and converting video adding and editing soundtracks and using text in QT movies compressing media and preparing movies for http and RTSP streaming or a combination of both A chapter on virtual reality explores QuickTime s unique feature for creating 360 panoramas immersive cubic VR object movies and VR scenes A companion CD ROM demonstrates topics covered in the book and provides samples of film prepared for web delivery   **On-line Virtual Museums: an application of on-line VR Museum for the Parthenon Marbles. Internet: a means of cultural repatriation** Kleio Tzanaki,2004-12-16 Among the most debated archaeological problems is the repatriation of cultural objects that have been removed from the country of origin and then dispersed in Museums around the world The need for the return of cultural objects to their homelands is not only derived from the people they belong to but also from those they appreciate their value and have archaeological interest in them However there are a number of problems revolved around most cases which prohibit the cultural repatriation to be achieved The case of the Parthenon Marbles is one of the best known claims for the repatriation of cultural property as its sculptures which constitute an integral part of it have been removed from the temple and are stored in different Museums Towards the problem of cultural repatriation Parthenon Marbles case study is used to research to what extent the Internet can be introduced as a means of

providing a form of cultural repatriation through the idea of a Virtual Museum The argument is supported by the conception design and construction of a Virtual Museum for the Parthenon Marbles The web site is a pilot application implementing some sides of the temple while providing guidelines and techniques for completion of the rest The development of the web site also provided an opportunity for evaluating tools and techniques used in virtual museums Finally the VR Museum concept as a means of repatriation is evaluated discussing the areas where such an application would be beneficial and also the level of information that can provide for the specified repatriated object s according to specific user groups and needs
