Kierkegaard and His Danish Contemporaries: Philosophy, politics and social theory Jon Bartley Stewart, 2009 The present volume features articles that employ source work research in order to explore the individual Danish sources of Kierkegaard's thought The volume is divided into three tomes in order to cover the different fields of influence Tome I is dedicated to exploring the sources that fall under the rubrics Philosophy Politics and Social Theory With regard to philosophy Kierkegaard read the works of all the foremost Danish thinkers of the time and their German antecedents in particular Cont Schelling and Hegel While he was sympathetic to individual ideas offered by this tradition he was generally keen to criticise the German model of philosophy and to propose a new paradigm for philosophical thought that was more in tune with lived existence Kierkegaard also experienced the dynamic period in history that saw the great upheavals throughout Europe in connection with the revolutions of 1848 and the First Schleswig War While it has long been claimed that Kierkegaard was not interested in politics recent research supports a quite different picture To be sure he cannot be regarded as a political scientist or social theorist in a traditional sense but he was nonetheless engaged in the issues of his day and in his works one can certainly find material that can be insightful for the fields of politics and social theory
