Dreaming Blackness Melanye T. Price, 2009-06 A complex portrait of contemporary black political stances Black Nationalism is one of the oldest and most enduring ideological constructs developed by African Americans to make sense of their social and political worlds In *Dreaming Blackness* Melanye T Price explores the current understandings of Black Nationalism among African Americans providing a balanced and critical view of today's black political agenda She argues that Black Nationalism continues to enjoy moderate levels of support by most black citizens but has a more difficult time gaining a larger stronghold because of increasing diversity among blacks and a growing emphasis on individualism over collective struggle She shows that black interests are a dynamic negotiation among various interested groups and suggests that those differences are not just important for the black agenda but also for how African Americans think and dialogue about black political questions daily Using a mix of everyday talk and impressive statistical data to explain contemporary black opinions Price highlights the ways in which Black Nationalism works in a post racial society Ultimately Price offers a multilayered portrait of African American political opinions providing a new understanding of race specific ideological views and their impact on African Americans persuasively illustrating that Black Nationalism is an ideology that scholars and politicians should not dismiss

The State of the American Mind: Stupor and Pathetic Docility Amechi Okolo PhD, 2010-06-10 This book *The State of the American Mind Stupor and Pathetic Docility* Volume One begins to unravel some of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something

almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This book therefore shatters the two dominant themes of Americas history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Obama famously told us in his race speech Thus the crowning lesson of this book in addition to discussing some critical policy issues like education health care etc is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry their universal history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good powerful achieving citizens do not normally emigrate to new uncharted lands

James Addington, 2019-06-01 America s investment in race and racial oppression was central to its early years as a nation a theme that dates back to Europe s earliest colonial efforts in the Western Hemisphere Some of the contemporary consequences for communities of color are clear Numerous studies routinely quantify racial disparities in virtually every social arena But are there negative consequences of this historical investment for white people R James Addington explores that weighty topic while seeking to answer questions such as How do we repair the damage done to communities as a result of our racial history Is racial oppression related to our ability to respond to ecological challenges Does our investment in racial oppression

jeopardize our nation's future Addington suggests that racism harms us all and he pays particular attention to the subtle ways white people are damaged He also suggests that race sabotages the nation's capacity to negotiate the challenges the future poses Explore how overcoming racism and shaping a sustainable resilient society are bound together in Tragic Investment
