Quixotic Scriptures Elias L. Rivers,1983 Seventeenth-Century Spanish Poetry Arthur Terry,1993-11-11 The first comprehensive study in English of one of the most important bodies of verse in European literature **Islam in Spanish Literature** Luce Lopez-Baralt,2023-09-20 Islam in Spanish Literature is a sweeping reinterpretation of Spanish literature taking as its given the enormous debt to Arab culture that Spain incurred through the eight centuries of Islamic presence on the Iberian Peninsula This volume takes up the thread of the work of the Arabist Miguel As n Palacios the first to comment extensively upon the marked Islamic features in many Spanish classics After an initial survey of the presence of Islam and Judaism in Spanish history and culture succeeding chapters explore the Muslim context of Juan Ruiz the author of the Libro de buen amor St John of the Cross St Teresa de Jesus the anonymous sonnet No me mueve mi Dios aljamiado morisco literature and then official Moorophile literature standing in such dramatic contrast to one another and last the novelist Juan Goytisolo who writing today continues to reflect upon the impact of the East on Spanish culture It is no exaggeration to state that this book redefines the ground of the study of Spanish literature it will be hard for the contemporary reader ever again to read it with innocence as a literature exclusively European The Picaresque Giancarlo Maiorino,1996

Autobiographical Writing by Early Modern Hispanic Women Professor Elizabeth Teresa Howe,2015-01-28 Women s life writing in general has too often been ignored dismissed or relegated to a separate category in those few studies of the genre that include it The present work addresses these issues and offers a countervailing argument that focuses on the contributions of women writers to the study of autobiography in Spanish during the early modern period both in Spain and in Mexico **El Arte Nuevo de Estudiar Comedias** Barbara Simerka,1996 This anthology of new approaches to literary study takes its name from Lope de Vega s Arte nuevo de hacer comedias Like Lope s poem on poetics this volume also operates as a defense in the sense that many of the articles include a defense of the usefulness of literary theory in general and of their chosen approach in particular for enriching the study of the comedia In these essays it is the not quite new art of estudiar rather than hacer drama that is the central concern the contributors defending theoretical innovations approximately twenty years after James Parr in the pages of Hispania issued his challenge to Hispanists to update their approach This volume which combines innovative scholarship with the metacriticism that many critics advocate in all literary study is directed both the students of literature and to scholars who wish to expand their knowledge of the many different areas of theoretical inquiry that comediantes are currently exploring BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Speech Acts and Literary Theory** Sandy Petrey,2016-08-19 This book first published in 1990 combines an introduction to speech act theory as developed by J L Austin with a survey of critical essays that have adapted Austin s thought for literary analysis Speech act theory emphasizes the social reality created when speakers agree that their language is performative Austin s term for utterances like we hereby declare or I promise that produce rather than describe

what they name In contrast to formal linguistics speech act theory insists on language's active prominence in the organization of collective life The first section of the text concentrates on Austin's determination to situate language in society by demonstrating the social conventions manifest in language The second and third parts of the book discuss literary critics' responses to speech act theory's socialisation of language which have both opened new understandings of textuality in general and stimulated new interpretations of individual works This book will be of interest to students of linguistics and literary theory

The Legacy of Muslim Spain Salma Khadra Jayyusi, 2021-12-06 The civilisation of medieval Muslim Spain is perhaps the most brilliant and prosperous of its age and has been essential to the direction which civilisation in medieval Europe took This volume is the first ever in any language to deal in a really comprehensive manner with all major aspects of Islamic civilisation in medieval Spain

Language and the Comedia Catherine Larson, 1991 This study illustrates how a focus on language which is manifest in so much of contemporary literary theory can help to open some of the canonical texts of Spanish Golden Age theater to new readings

At the Margins of the Renaissance Giancarlo Maiorino, 2010-11-01 Examines one of the first Renaissance novels to feature an ordinary man not a nobleman or ancient hero as the main character

Cervantine Journeys Steven D. Hutchinson, 1992 Hutchinson focuses initially on movement as concept and metaphor affirming its centrality in the conceptualization of all discursive activities He draws on an array of authors including Heraclitus Plato Longinus Rabelais Nietzsche Saussure Frances Yates Kristeva Meschonnic and Deleuze to demonstrate the motion of discourse and of those engaged in it He then turns to Cervantes' novels to show how metaphors of movement and travel appearing on nearly every page dominate the conceptualization of the soul the self desire love and life processes Viewing travel as a composite of concurrent modes of experience with differing content and rhythms Hutchinson considers the concept of errancy the nature of place and the traveler's shifting relations with it and the values that travel may have as a motion displacement encounter and goal Of key importance are the means of improvisation developed en route His re-examination of Bakhtin's chronotope in light of Cervantes' novels reveals the dynamic character of time spaces in which travelers move He shows moreover that unlike typical Renaissance utopias the many worlds of Cervantes' novels have the principles of becoming and dissolution inscribed in them Reflecting on the narrative of journeys both as memory and invention Hutchinson concludes with an examination of the relations between travel experience and travel narrative and a discussion of the whereabouts of writers and readers in Cervantes' novels The narration of journeys he argues necessitates and encourages improvisatory writing

Love Third Edition found at Lulu com *The Politics of Editing* Nicholas Spadaccini, Jenaro Taléns, 1992 Editing is by nature an interpretive practice framed by the editor's circumstances mediating between the author's or text's authority the contingencies of numerous institutions of literary and cultural production and a variety of expectations that arise from the specific social and historical conditions of the readers Sampling the Book Deborah N. Losse, 1994 Reference is also made to the typology set up by Gerard Genette but efforts are made to indicate how the Renaissance prologues chart their own prefatory course **Performance: A Critical Introduction** Marvin Carlson, 2013-12-16 This book provides an overview of the modern concept of performance and its development in various related fields including the development of performance art since the 1960s the relationship between performance postmodernism the politics of identity and current cultural studies and the recent theoretical developments in the study of performance in the fields of anthropology psychoanalysis linguistics and technology Sub-versions of the Archive Carlos Riobó, 2010-12-29 Sub Versions of the Archive Manuel Puig's and Severo Sarduy's *Alternative Identities* analyzes recent theories of the archive to examine how Manuel Puig and Severo Sarduy reformulate the Latin American literary tradition This study focuses on eclectic theories of the archive as both repository and danger drawing from an array of sources both within and outside the Hispanic literary tradition from Borges Foucault Arrom Derrida Gonz lez Echevarra and Guillory to digital media and biotechnology This book also applies theories of cultural contamination Maria Lugones and symbolic capital Pierre Bourdieu to the novels of Puig and Sarduy to explore the representation of marginal cultures within a body of literature that previously altered or elided these subaltern cultures from the tradition Through close readings and critical theoretical applications this book demonstrates how archival fiction continues to be one of the most popular strategies among Latin American novelists and most importantly how they have successfully managed to find new ways to inscribe their alternative fictions within this tradition Puig's and Sarduy's novels reproduce discourses popular culture and the mass media that lack prestige within the traditional archive These discourses mirror realities of marginal groups gay people children the poor the illiterate women and racial minorities Their cultural variants sub versions of hegemonic masterstories are endowed with truth bearing power for them but were previously left out of the archive as legitimate novelistic models To date this is the only study of contemporary Latin American fiction that puts current theories of the archive especially that of Roberto Gonz lez Echevarra to practice in such a systematic way Riobó's analysis of how Puig and Sarduy reformulate the Latin American canon is both a necessary complement of Gonz lez Echevarra's work and an intelligent answer to the first of his projected masterstories Riobó's multidisciplinary approach

Modern Myths David Bevan, 1993 **Miguel de Cervantes's Don Quixote** Harold Bloom, Sterling Professor of Humanities Harold Bloom, 2010 Arguably the most influential work to emerge from Spain's Golden Age *Don Quixote* laid the groundwork for the Western literary canon and remains one of its major achievements **Performance** Marvin Carlson, 1996 An overview on the modern concept of performance **Renaissance Responses to Technological Change**

Sheila J. Nayar, 2018-10-29 This book foregrounds the pressures that three transformative technologies in the long sixteenth century—the printing press, gunpowder, and the magnetic compass—placed on long-held literary practices as well as on cultural and social structures. Sheila J. Nayar disinters the clash between humanist drives and print culture, places the rise of gunpowder warfare beside the equivalent rise in chivalric romance, and illustrates fraught attempts by humanists to hold on to classicist traditions in the face of seismic changes in navigation. Lively and engaging, this study illuminates not only how literature responded to radical technological changes but also how literature was sometimes forced through unanticipated destabilizations to reimagine itself. By tracing the early modern humanist's interanimation with print, powder, and compass, Nayar exposes how these technologies assisted in producing new ways of seeing, knowing, and being in the world.
