Quo Vadis Advertising:

Quo Vadis Advertising? Robert Alan Rock, 2005-09 Can you avoid your product becoming a commodity What is the role of the copywriter in a less literate America What happens to a Medium when Retailers have their version What is the role of the Light User in Media selection These and other questions are tackled in what is aimed at the teacher the graduating senior the curious lay person and for those in the field being a condensation of years of broad and versatile experience articulated by a mind with a propensity for turning empirically acquired knowledge into theory If you never really understood the Advertising process you will as the Author thinks the Reader from problem inception to ultimate exposure explaining every thought and action in its development After providing a background that enables the Reader to act as jury He proceeds to challenge much that has been accepted for too long An original and caring thinker his purpose is to rescue the Industry from the excesses that may doom it also dragging in experiments in the social sciences ultimately asking professors to provide more practical guidance Despite his serious purpose this is no grim crusader A quirky sense of humor shines through Nor is he a mere theoretician Great depth of experience funds practical suggestions illustrated by pertinent Case Histories The range is quite formidable from sophisticated analyses to primitive marketing techniques in rural Africa Controversial subjects are not ducked in the process There is not a temporizing word in all its pages And for those who decry Advertising here is an opponent worthy of your mettle It is doubtful whether Advertising has ever been approached at quite this level It is an important and thoughtful book

Quo Vadis Tony Cadman, Americanizing the Movies and Movie-Mad Audiences, 1910-1914 Richard Abel, 2006-08-28 This engaging deeply researched study provides the richest and most nuanced picture we have to date of cinema both movies and movie going in the early 1910s At the same time it makes clear the profound relationship between early cinema and the construction of a national identity in this important transitional period in the United States Richard Abel looks closely at sensational melodramas including westerns cowboy cowboy girl and Indian pictures Civil War films especially girl spy films detective films and animal pictures all popular genres of the day that have received little critical attention He simultaneously analyzes film distribution and exhibition practices in order to reconstruct a context for understanding moviegoing at a time when

obtain The Book of the Lover is one of the most celebrated works of medieval mystical literature offering a uniquely expressed and moving testimony to the soul's quest for union with God. The 365 paragraphs of moral metaphors intended for daily meditation are written in the style of the Muslim sufis who offer words of love and brief exempla that inspire great devotion. Professor Johnston concisely explains the peculiarities of Lull's idiosyncratic theological and philosophical system and offers the most comprehensive assessment to date of his debt to the Islamic tradition of devotional discourse. In addition, brief notes help to guide the reader's appreciation of the spiritual insight that Lull sought to stimulate with his text. Contains original Latin and Catalan text, translation and commentary.
