challenges that assumption by exploring the ways in which song crosses national borders Whether by incorporating foreign canons of poetry alongside native ones or conveying literature across linguistic borders through acts of performance song functions as a means of translation *After Mahler* Stephen Downes,2013-09-19 The music of Gustav Mahler repeatedly engages with Romantic notions of redemption This is expressed in a range of gestures and procedures shifting between affirmative fulfilment and pessimistic negation In this groundbreaking study Stephen Downes explores the relationship of this aspect of Mahler s music to the output of Benjamin Britten Kurt Weill and Hans Werner Henze Their initial admiration was notably dissonant with the prevailing Zeitgeist Britten in 1930s England Weill in 1920s Germany and Henze in 1950s Germany and Italy Downes argues that Mahler s music struck a profound chord with them because of the powerful manner in which it raises and intensifies dystopian and utopian complexes and probes the question of fulfilment or redemption an ambition manifest in ambiguous tonal temporal and formal processes Comparisons of the ways in which this topic is evoked

facilitate new interpretative insights into the music of these four major composers Critical Music Historiography: Probing Canons, Ideologies and Institutions Vesa Kurkela, Markus Mantere, 2016-03-09 During the past two decades there has emerged a growing need to reconsider the objects, axioms and perspectives of writing music history. A certain suspicion towards François Lyotard's grand narratives as a sign of what he diagnosed as our postmodern condition has become more or less an established and unquestioned point of departure among historians. This suspicion at its most extreme has led to a radical conclusion of the end of history in the work of postmodern scholars such as Jean Baudrillard and Francis Fukuyama. The contributors to *Critical Music Historiography* take a step back and argue that the radical view of the impossibility of history as well as the unavoidable ideology of any history are counterproductive points of departure for historical scholarship. It is argued that metanarratives in history are still possible and welcome even if their limitations are acknowledged. Foucault, Lyotard and others should be taken into account but systematized viewpoints and methods for a more critical and multifaceted re-evaluation of the past through research are needed. As to the metanarratives of music history they must avoid the pitfalls of evolutionism, hagiography and teleology, all hallmarks of traditional historiography. In this volume the contributors put these methods and principles into practice. The chapters tackle under-researched and non-conventional domains of music history as well as rethinking older historiographical concepts such as orientalism and nationalism and consequently introduce new concepts such as occidentalism and transnationalism. The volume is a challenging collection of work that stakes out a unique territory for itself among the growing body of work on critical music history. *Rhymin' and Stealin'* Justin A. Williams, 2013-07-25 The first book-length study of one of the most essential elements of hip-hop musical borrowing.

The Cambridge Companion to Mahler Jeremy Barham, 2007-12-13 In the years approaching the centenary of Mahler's death, this book provides both summation of and starting point for an assessment and reassessment of the composer's output and creative activity. Authored by a collection of leading specialists in Mahler scholarship, its opening chapters place the composer in socio-political and cultural contexts and discuss his work in light of developments in the aesthetics of musical meaning. Part II examines from a variety of analytical, interpretative and critical standpoints the complete range of his output from early student works and unfinished fragments to the sketches and performing versions of the Tenth Symphony. Part III evaluates Mahler's role as interpreter of his own and other composers' works during his lifelong career as operatic and orchestral conductor. Part IV addresses Mahler's fluctuating reception history from scholarly, journalistic, creative, public and commercial perspectives, with special attention being paid to his compositional legacy. Postmodernism in Music Kenneth Gloag, 2012-06-21 What is postmodernism? How does it relate to music? This introduction clarifies the concept, providing ways of interpreting postmodern music. *The Song Cycle* Laura Tunbridge, 2010 Investigates how other types of music have influenced the scope of the song cycle from operas and symphonies to popular song. *"Ligeti's Laments: Nostalgia, Exoticism, and the Absolute"* Amy Bauer, 2017-07-05 When the Hungarian composer György Ligeti passed away in June 2006

he was widely feted as being one of the greatest composers of our time His complete published works were recorded during his lifetime and his music continues to inspire a steady stream of performances and scholarship Ligeti s Laments provides a critical analysis of the composer s works considering both the compositions themselves and the larger cultural implications of their reception Bauer both synthesizes and challenges the prevailing narratives surrounding the composer s long career and uses the theme of lament to inform a discussion of specific musical topics including descending melodic motives passacaglia and the influence of folk music But Ligeti laments in a larger sense his music fuses rigour and sensuality tradition and the new and influences from disparate high and low cultures with a certain critical and ironic distance reflected in his spoken commentary as well as in the substance of his music The notions of nostalgia exoticism and the absolute are used to relate works of different eras and genres along with associated concepts of allegory melancholy contemporary subjectivity and the voice
