It specifically examines the representations of the Mamluks from two historical periods the Mamluk Sultanate era 1250 1517 and the Mamluks under the Ottoman era 1517 1811 focusing mostly on the years 1760 1811 Although the Mamluks have had a great impact on the Egyptian collective memory and modern thought the subject to date has hardly been researched seriously with most analyses given to stereotypical negative representations of the Mamluks in historical works However many Egyptian historians and intellectuals presented the Mamluk era positively and even symbolized the Sultans as national icons This book sheds light on the heretofore neglected positive dimensions of the multifaceted representations of the Mamluks and addresses the ways in which modern Egyptians utilize that collective memory Bibliophobia Brian Cummings, 2022 Richly illustrated with manuscripts printed objects and art works Bibliophobia tells a 5000 year history of writing and of books to give readers a fascinating account of why books matter and how they impact on our lives The Civilization of the Islamic World Bernard O'Kane, 2012-12-15 Examines the classical Islamic world through its greatest architectural sites and art treasures providing examples of Islamic architecture carpets and textiles paintings illuminated manuscripts and calligraphy and showing the evolution of their forms and styles The Mamluks John Brunton, 2023-10-15 The colourful story of the Mamluk dynasty marked with treachery carnage and destructive behaviour is a significant chapter in the history of the Near East
