Atlántida. La luz de Occidente José Orihuela Guerrero, 2023-03-22 La historia de la Atlántida permanece para muchos envuelta en las brumas de la fantasía desterrada al terreno de la literatura o cuando más reducida a la categoría de fábula legitimadora de teorías románticas varias Este libro es resultado de una investigación realizada en la frontera del paradigma actualmente vigente en las ciencias históricas en la que utilizando una metodología científica y tras emprender un recorrido por la suerte que ha corrido el relato platónico sobre la Atlántida a lo largo de veinticinco siglos el autor nos invita a sumergirnos en la apasionante tarea de discernir qué hay de leyenda y qué de realidad histórica en lo que nos refiere Platón Para ello nos propone un regreso al texto del pensador griego y una contrastación del mismo con hechos geohistóricos y culturales objetivos Producto de esa investigación extraordinaria se nos descubre de modo racional oculta tras el velo del mito la existencia de una civilización en Occidente que desde su epicentro en el golfo de Cádiz extendió su influencia por el litoral atlántico europeo y norteafricano alcanzando islas del océano e incluso territorios del continente americano por el oeste y llegando hasta la isla de Creta por el este He aquí la realidad histórica que Platón nos señala la civilización del Atlántico que puso en contacto las culturas del Viejo y del Nuevo Mundo Atlántida la luz de Occidente
