Constructing "race" and "ethnicity" in America Dvora Yanow, 2002-11-07 What do we mean in the U S today when we use the terms race and ethnicity What do we mean and what do we understand when we use the five standard race ethnic categories White Black Asian Native American and Hispanic Most federal and state data collection agencies use these terms without explicit attention and thereby create categories of American ethnicity for political purposes Dvora Yanow argues that race and ethnicity are socially constructed concepts not objective scientifically grounded variables and do not accurately represent the real world She joins the growing critique of the unreflective use of race and ethnicity in American policymaking through an exploration of how these terms are used in everyday practices Her book is filled with current examples and analyses from a wealth of social institutions health care education criminal justice and government at all levels The questions she raises for society and public policy are endless Yanow maintains that these issues must be addressed explicitly publicly and nationally if we are to make our policy and administrative institutions operate more effectively

The Americanization Syndrome Robert A. Carlson, 2022-11-16 The

Americanization Syndrome 1987 examines the historical role of education in the process of Americanization. It argues that beginning with seventeenth century puritan leaders such as John Winthrop and Cotton Maher the pattern of American education has been not the promotion of a blend of different cultures but the indoctrination of norms of belief of religion politics and economics and an explicit discouragement of cultural variety. It traces the political role of education at key junctures of American history after Independence in the reconstruction of the South after the Civil War in the establishment of settlement houses and the use of scientific management techniques by employers. The author focuses on the period 1900-1925 when new waves of immigrants from southern and eastern Europe led to a new drive for orthodoxy. **Black**

Conservative Intellectuals in Modern America Michael L. Ondaatje, 2011-11-29 In the last three decades a brand of black conservatism espoused by a controversial group of African American intellectuals has become a fixture in the nation's political landscape its proponents having shaped policy debates over some of the most pressing matters that confront contemporary American society. Their ideas though have been neglected by scholars of the African American experience and much of the responsibility for explaining black conservatism's historical and contemporary significance has fallen to highly partisan journalists. Typically those pundits have addressed black conservatives as an undifferentiated mass proclaiming them good or bad right or wrong color blind visionaries or Uncle Toms. In *Black Conservative Intellectuals in Modern America* Michael L. Ondaatje delves deeply into the historical archive to chronicle the origins of black conservatism in the United States from the early 1980s to the present. Focusing on three significant policy issues affirmative action welfare and education Ondaatje critically engages with the ideas of nine of the most influential black conservatives. He further documents how their ideas were received both by white conservatives eager to capitalize on black support for their ideas and by activists on the left who too often sought to impugn the motives of black conservatives instead of challenging the merits of their claims. While Ondaatje's investigation uncovers the themes and issues that link these voices together he debunks the myth of a monolithic black conservatism. Figures such as Supreme Court Justice Clarence Thomas the Hoover Institution's Thomas Sowell and Shelby Steele and cultural theorist John McWhorter emerge as individuals with their own distinct understandings of and relationships to the conservative political tradition. Multiculturalism in the United States John D. Buenker, Lormen A. Ratner, 2005-03-30 Interest in ethnic studies and multiculturalism has grown considerably in the years since the 1992 publication of the first edition of this work. Co-editors Ratner and Buenker have revised and updated the first edition of *Multiculturalism in the United States* to reflect the changes patterns and shifts in immigration showing how American culture affects immigrants and is affected by them. Common topics that helped determine the degree and pace of acculturation for each ethnic group are addressed in each of the 17 essays providing the reader with a comparative reference tool. Seven new ethnic groups are included: Arabs, Haitians, Vietnamese, Koreans, Filipinos, Asian Indians, and Dominicans. New essays on the Irish, Chinese, and Mexicans are provided as are revised and updated essays on the remaining groups from the first edition.

The contribution to American culture by people of these diverse origins reflects differences in class occupation and religion. The authors explain the tensions and conflicts between American culture and the traditions of newly arrived immigrants. Changes over time that both of the cultures brought to America and of the culture that received them is also discussed. Essays on representative ethnic groups include African Americans, American Indians, Arabs, Asian Indians, Chinese, Dominicans, Filipinos, Germans, Haitians, Irish, Italians, Jews, Koreans, Mexicans, Poles, Scandinavians, and the Vietnamese. **The**

1930 Ben F. Johnson III, 2019-08-30. This second edition of *Arkansas in Modern America since 1930* represents a significant rewriting of and elaboration on the first edition published in 2000. Historian Ben F. Johnson fills in gaps, reconsiders his original conclusions, and reflects on new developments in historical scholarship, extending the book's analysis of the political, economic, social, and cultural positions into 2018. Particularly impressive for the breadth of its scope, *Arkansas in Modern America since 1930* offers an overview of the factors that moved Arkansas from a primarily rural society to one more in step with the modern economy and perspectives of the nation as a whole. The narrative covers the roles of Daisy Bates, Sam Walton, Don Tyson, Bill Clinton, and other influential figures in the state's history to reveal a state shaped by global as much as by local forces. The second edition of this important book will continue to set the standard for analysis and interpretation of Arkansas's place in the contemporary world. **Race and the Media in Modern America** Duchess Harris, Tammy

Modern American Culture Mick Gidley, 1993. *Modern American Culture* is a multi-contributor collection of essays which provides a clear, lively, and concise introduction to the richness and diversity of American culture, especially but not exclusively during the twentieth century. Culture is here conceived in broad terms to include ideas, social institutions, environmental features, behavioural patterns, and forms of expression. Organized thematically, the book can be divided into two parts. The initial chapters largely present historical, economic, political, and geographical aspects of American culture from a variety of different perspectives and include treatment of such central themes as race, religion, immigration, and region. The second half of the book is mainly concerned with generic issues such as the media, popular music, performance arts, painting,

and poetry and poetics Each chapter introduces the reader to the appropriate cultural critics and leads towards the fuller scale treatment of American cultural criticism itself which concludes the book The increasing popularity of American Studies both as a degree area in its own right and as a major component of such other degrees as English and History means that this book will be warmly welcomed by undergraduate and postgraduate students It will prove essential to students following American Studies courses and provides useful contextualization for those taking Cultural and Media Studies It will also appeal to the general reader with an interest in American culture

The History Of U.S. Ethnic Policy And Its Impact On European Ethnicity John Lescott-Leszczyński, 2019-09-06 Ethnic considerations have often played a part in the development of U S public policy even for policies not directly targeting ethnic groups This book surveys the impact of specific legislation on ethnicities particularly European ethnicity from a historical perspective Its primary focus however is the contemporary body of legislation and regulation based on the 1964 Civil Rights Act which laid the foundation for a conscious and comprehensive racial and ethnic policy intended to aid disadvantaged minorities One of the major outcomes of the 1964 act was the implementation of affirmative action programs mandated by the federal government for its own agencies for federally funded institutions and for private enterprise Implementation depended on data collection based on federally developed racial and ethnic categories Because European ethnicity was not included as an identifiable category many discovered Dr Lescott Leszczyński felt that preferential treatment for certain other ethnic groups operated to their disadvantage ethnic tension inevitably resulted Through a systematic review of laws executive orders federal agency directives and related jurisprudence Dr Lescott Leszczyński conveys the extent to which social change has been effected by ethnic policies and explores the ways in which ethnic policy develops how it is expressed how it is implemented and how it is challenged

Contemporary Asian America Min Zhou, James V. Gatewood, 2007-01-01 How does one capture the delightful irony of Edith Wharton's prose or the spare lyricism of Kate Chopin's Kathleen Wheeler challenges the reader to experiment with a more imaginative method of literary criticism in order to comprehend more fully writers of the Modernist and late Realist period In examining the

creative works of seven women writers from the late nineteenth and early twentieth centuries Wheeler never lets the mystery and magic of literature be overcome by dry critical analysis *Modernist Women Writers and Narrative Art* begins by evaluating how Edith Wharton Kate Chopin and Willa Cather all engaged in an ironic critique of realism They explored the inadequacies of this form in expressing human experience and revealed its hidden often contradictory assumptions Building on the foundation that Wharton Chopin and Cather established Jean Rhys Katherine Mansfield Stevie Smith and Jane Bowles brought literature into the era we now consider modernism Drawing on insights from feminist theory deconstructionism and revisions of new historicism Kathleen Wheeler reveals a literary tradition rich in narrative strategy and stylistic sophistication

Seeing Race in Modern America Matthew Pratt Guterl, 2013 In this fiercely urgent book Matthew Pratt Guterl focuses on how and why we come to see race in very particular ways What does it mean to see someone as a color As racially mixed or ethnically ambiguous What history makes such things possible Drawing creatively from advertisements YouTube videos and everything in between Guterl redirects our understanding of racial sight away from the dominant categories of color away from brown and yellow and black and white and instead insists that we confront the visual practices that make those same categories seem so irrefutably important Zooming out for the bigger picture Guterl illuminates the long history of the practice of seeing and believing in race and reveals that our troublesome faith in the details discerned by the discriminating glance is widespread and very popular In so doing he upends the possibility of a postracial society by revealing how deeply race is embedded in our culture with implications that are often matters of life and death
