Race And Rumors Of Race:

Outcasts from Evolution John S. Haller, 1995 Haller history medical humanities Southern Illinois U examines the scientific proof of racial inferiority in the US during the period between the 1859 publication of Darwin's Origin of Species and the discovery in 1900 of Gregor Mendel's experiments with genetics in this reprint of a work first published in 1971 by University of Illinois Press He shows how scientists sought to apply evolutionary ideas to morality health and the physiognomy of nonwhite races and looks at the relationship between scientific theories and public policy Includes bandw illustrations Annotation copyright by Book News Inc Portland OR

The Southern Way of Life Charles Reagan Wilson, 2022-11-30 How does one begin to understand the idea of a distinctive southern way of life a concept as enduring as it is disputed In this examination of the American South in national and global contexts celebrated historian Charles Reagan Wilson assesses how diverse communities of southerners have sought to define the region's identity Surveying three centuries of southern regional consciousness across many genres disciplines and cultural strains Wilson considers and challenges prior presentations of the region advancing a vision of southern culture that has always been plural dynamic and complicated by race and class Structured in three parts *The Southern Way of Life* takes readers on a journey from the colonial era to the present from when complex ideas of southern civilization rooted in slaveholding and agrarianism dominated to the twenty first century rise of a modern multicultural southern living As Wilson shows there is no singular or essential South but rather a rich tapestry woven with contestations contingencies and change

Cultures of violence Ivan Evans, 2013-07-19 This book deals with the inherent violence of race relations in two important countries that remain iconic expressions of white supremacy in the twentieth century *Cultures of violence* does not just reconstruct the era of violence Instead it convincingly contrasts the lynch culture of the American South to the bureaucratic culture of violence in South Africa By contrasting mobs of rope wielding white Southerners to the gun toting policemen and administrators who formally defended white supremacy in South Africa *Cultures of violence* employs racial killing as an optic for examining the distinctive logic of the racial state in the two contexts Combining the historian's eye for detail with the sociologist's search for overarching claims the book explores the systemic connections amongst three substantive areas to explain why contrasting traditions of racial violence took such firm root in the American South and South Africa

A Realist Metaphysics of Race Jeremy Pierce, 2014-12-11 In *A Realist Metaphysics of Race* A Context Sensitive Short Term Retentionist Long Term Revisionist Approach Jeremy Pierce defends a social kind view of racial categories On this view the biological features we use to classify people racially do not make races natural kinds Rather races exist because of contingent social practices single out certain groups of people as races give them social importance and allow us to name them as races Pierce also identifies several kinds of context sensitivity as central to how racial categorization works and argues that we need racial categories to identify problems in how our racial constructions are formed including the harmful effects of racial constructions Hence

rather than seeking to eliminate such categories Pierce argues that we should also make efforts to change the conditions that generate their problematic elements with an eye toward retaining only the unproblematic aspects A Realist Metaphysics of Race contains insights relevant not just to professional philosophers in metaphysics philosophy of race social philosophy philosophy of language and philosophy of science but also to students and scholars working in sociology biology anthropology ethnic studies and political science The Oxford Handbook of Philosophy and Race Naomi Zack,2017 The Oxford Handbook of Philosophy and Race provides up to date explanation and analyses by leading scholars in African American philosophy and philosophy of race Fifty one original essays cover major topics from intellectual history to contemporary social controversies in this emerging philosophical subfield that supports demographic inclusion and emphasizes cultural relevance **Race and New Religious Movements in the USA** Emily Suzanne Clark,Brad Stoddard,2019-08-08 Organized in chronological order of the founding of each movement this documentary reader brings to life new religious movements from the 18th century to the present It provides students with the tools to understand questions of race religion and American religious history Movements covered include the Church of Jesus Christ of Latter day Saints Mormonism the Native American Church the Moorish Science Temple the Nation of Islam and more The voices included come from both men and women Each chapter focuses on a different new religious movement and features an introduction to the movement including the context of its founding two to four primary source documents about or from the movement suggestions for further reading Critical Race Theory Richard Delgado,Jean Stefancic,2000 This tightly edited volume contains the finest highly accessible articles in the fast growing legal genre of critical race theory a field which is changing the way this nation looks at race challenging orthodoxy questioning the premises of liberalism and debating sacred wisdoms Including treatments of two new exciting topics Critical Race Feminism and Critical White Studies this volume is truly on the cutting edge Questions for discussion and reading suggestions after each part make this volume essential for those interested in law the multiculturalism movement political science and critical thought In this wide ranging second edition Richard Delgado and Jean Stefancic bring together the finest most illustrative and highly accessible articles in the fast growing legal genre of Critical Race Theory In challenging orthodoxy questioning the premises of liberalism and debating sacred wisdoms Critical Race Theory scholars writing over the past few years have indelibly changed the way America looks at race This edition contains treatment of all the topics covered in the first edition along with provocative and probing questions for discussion and detailed suggestions for additional reading all of which set this fine volume apart from the field In addition this edition contains five new substantive units crime critical race practice intergroup tensions and alliances gay lesbian issues and transcending the black white binary paradigm of race In each of these areas groundbreaking scholarship by the movement s founding figures as well as the brightest new stars provides immediate entry to current trends and developments in critical civil rights thought Author note Richard Delgado Jean Lindsley Professor of Law at the University of Colorado at Boulder is

Jean Stefancic Research Associate in Law at the University of Colorado is the author of leading articles and books on Critical Race Theory Latino a scholarship and social change including *No Mercy How Conservative Think Tanks and Foundations Changed America's Social Agenda* Temple

The Ethics and Mores of Race Naomi Zack, 2015-04-02 Preeminent philosopher Naomi Zack brings us an indispensable work in the ethics of race through an inquiry into the history of moral philosophy Beginning with Plato and a philosophical tradition that has largely ignored race *The Ethics and Mores of Race* Equality after the History of Philosophy enters into a web of ideas ethics and morals that untangle our evolving ideas of racial equality straight into the twenty first century The dichotomy between ethics and mores has long aided the separation of what is right with ideas of equality Zack tackles the co existence of slavery with the classic moral systems and continues to show how our society has evolved and our mores with it An ethics of race may not exist yet but this book gives us twelve discerning requirements to establish it In the preface to the paperback edition Zack addresses the criticisms raised in response to this book and concludes that a focus on rights and justice rather than privilege is the only fruitful pathway towards a functioning ethics of race

Racializing Humankind: Interdisciplinary Perspectives on Practices of 'Race' and Racism Julian T. D. Gärtner, Malin Wilckens, 2022-02-14 Debates on historical and contemporary racism have recently become the subject of increasing public interest The Black Lives Matter movement as well as the Covid 19 pandemic have underlined the importance and urgent necessity of examining racism in society from a multidisciplinary angle The many facets of racism in the past and present also challenge the way we deal with history historical culture in a globalized world Rather than focusing on the history of ideas and its discursive development this volume will focus on the practices of actors It examines how and which practices especially practices of comparing are constitutive in the construction of race and manifestations of racism This edited volume brings together interdisciplinary contributions from history sociology political science American studies literary studies and media studies An important focus lies on the social asymmetries created by racialization including inequalities and violence The chapters foreground historical and contemporary practices of racism and discuss their appearance in different epochs and locations

Philosophers on Race Julie K. Ward, Tommy L. Lott, 2002-03-01 *Philosophers on Race* adds a new dimension to current research on race theory by examining the historical roots of the concept in the works of major Western philosophers

Quality of Death Rates by Race and Hispanic-origin Harry Michael Rosenberg, 1999 This report summarizes current knowledge and research on the quality and reliability of death rates by race and Hispanic origin in official mortality statistics of the United States produced by the National Center for Health Statistics NCHS It provides a quantitative assessment of bias in death rates by race and Hispanic origin and identifies areas

for targeted research Death rates are based on information on deaths from death certificates filed in the states and compiled into a national database by NCHS and on population data from the Census Bureau Researchers summarized selected studies of race Hispanic origin misclassification and undercoverage on deaths and population They made estimates on the separate and joint bias on death rates by race and Hispanic origin from the two sources They made simplifying assumptions about the stability of the biases over time and among age groups Original results are presented using an expanded updated database from the National Longitudinal Mortality Study Death rates for all groups show net effects of race misclassification and undercoverage For whites and blacks published death rates are overstated in official publications by 10 percent and 50 percent respectively resulting mainly from undercounts in the census Death rates for other minority groups are understated as follows American Indians 21 percent Asian or Pacific Islanders 11 percent and Hispanics 2 percent SM

Racism After 'race Relations' Robert Miles,1993 Discusses the shifting definitions of racism and challenges the common conception that racism is experienced exclusively by black people The book aims to occupy the centre of debate on the sociology of racism and ethnic studies

Reckoning with Race Frederick Allen,2023-08-01 In his fifty year career as an award winning journalist CNN commentator and author of multiple books Rick Allen has had a front row seat on dramatic change in race relations in America In this collection of eighteen essays he explores his ongoing efforts to understand the struggle of black and white Americans to navigate a shared history at once wicked and intimate full of love and hate as they seek to level an uneven playing field Allen examines issues from the era of Reconstruction through Jim Crow the Civil Rights movement the rhythms of resistance and progress into today's contentious debates over redlining reparations and critical race theory Starting as a reporter with the Atlanta Constitution in 1972 Allen got to know and befriend legendary black political figures including Julian Bond John Lewis Andy Young Hosea Williams Maynard Jackson Jesse Jackson and Daddy King the father of Martin Luther King Jr He also encountered ardent white segregationists some of whom saw the light and others who took their racism to the grave Drawing on his experience covering politics he examines presidents from LBJ and Jimmy Carter to Obama and Trump He explores the symbolism of Confederate flags the controversy over Uncle Remus the election of Atlanta's first black mayor Maynard Jackson and the tragic case of the Atlanta Child Murders He has had first hand encounters with white supremacy and violent black protest alike Throughout his essays Allen is candid about his own shortcomings as a white native Northerner learning gradually about the complexities of race in his adoptive South The essays highlight his continuing journey toward understanding the forces that both hinder and promote equality and harmony between the races

Race Or Ethnicity? Jorge J. E. Gracia,2007 What is race What is ethnicity Should we think of them as identities Can they be effectively individuated How are they related How do the relations between them influence

pressing issues concerned with social identity gender racism assimilation exploitation justice the law and public policy And how are the answers to these questions affected by the Black and Latino experience in the United States From the Preface This collection of new essays explores the relation between race and ethnicity and its social and political implications Although much work has been done on the philosophy of race in the past century in the United States the concept of ethnicity has only recently awoken the interest of American philosophers and the relations between race and ethnicity remain largely unexamined The discussion is divided into two parts dealing on the one hand with the nature and the relation between race and ethnicity and on the other with the social consequences of the complex relations between them Part I explores in particular the debated topic of racial and ethnic identities Does it make sense to speak of racial and ethnic identities and especially of black and Latino identities And if it does make sense how should these identities be conceptualized and how are they related to gender Part II examines how race and ethnicity have influenced the lot of some social groups in significant ways How do racially defined institutions deal with racial assimilation How do different conceptions of race and ethnicity influence public policy and various forms of racism How can exploited racial and ethnic groups be effectively recognized And what is the role of affect in social justice as dispensed by the courts Transforming Occupation in the Western Zones of Germany Camilo Erlichman, Christopher Knowles, 2018-08-23 Transforming Occupation in the Western Zones of Germany provides an in depth transnational study of power politics daily life and social interactions in the Western Zones of occupied Germany during the aftermath of the Second World War Combining a history from below with a top down perspective the volume explores the origins impacts and legacies of the occupations of the western zones of Germany by the United States Britain and France examining complex yet topical issues that often arise as a consequence of war including regime change transitional justice everyday life under occupation the role of intermediaries and the multifaceted relationship between occupiers and occupied Adopting a novel set of approaches that puts questions of power social relations gender race and the environment centre stage it moves beyond existing narratives to place the occupation within a broader framework of continuity and change in post war western Europe Incorporating essays from 16 international scholars this volume provides a substantial contribution to the emerging fields of occupation studies and the comparative history of post war Europe

Bulwer's Novels: The pilgrims of the Rhine. The coming race Edward Bulwer Lytton Baron Lytton, 1892 Critical Race Theory Kimberlé Crenshaw, Neil Gotanda, Gary Peller, Kendall Thomas, 1995 In the past few years a new generation of progressive intellectuals has dramatically transformed how law race and racial power are understood and discussed in America Questioning the old assumptions of both liberals and conservatives with respect to the goals and the means of traditional civil rights reform critical race theorists have presented new paradigms for understanding racial injustice and new ways of seeing the links between race gender sexual orientation and class This reader edited by the principal founders and leading theoreticians of the critical race theory movement gathers together for the first time the movement's most import

essays Back cover Political Violence in America Lori Cox Han, Tomislav Han, 2022-03-29 This multivolume encyclopedia surveys America's long and troubled history of political violence from the colonial era to the present with a particular emphasis on factors driving political violence and intimidation in the United States in the 21st century. Americans like to think of their nation as one grounded in high-minded democratic ideals and peaceful transitions of power. In reality, though, American politics has been heavily laced with expressions of violence and intimidation since the nation's very inception, which saw a campaign of violent rebellion against British rule. Since then, America has endured the deaths of four presidents from assassination, a four-year civil war, racist attacks on civil rights activists and ordinary citizens, deadly clashes between protesting citizens and law enforcement, sustained campaigns of violence against marginalized populations seeking greater political or economic equality, politically motivated mass shootings, and on January 6, 2021, the shocking spectacle of a politically motivated mob attack on the U.S. Capitol. How and why did these events transpire? What were the root causes? What factors are driving political violence and intimidation in America today? And are there changes that we could make to our country's political discourse that would reduce such outbreaks of bloodshed? This authoritative multivolume encyclopedia provides answers to all these questions and more.
