Race And State:

The Collected Works of Eric Voegelin Eric Voegelin,1997 *The State of Race* Sze Wei Ang,2019-06-14

Contemporary ideas about race are often assumed to be products of specific locales and histories yet we find versions of the same ideas about race across countries and cultures How can we account for this paradox In *The State of Race* Sze Wei Ang argues that globalization has led to new ways of using racial stereotypes as shorthand for complex social relations in disparate national contexts Literature then provides a key to understanding these labels and the role that race has played in shoring up state power since World War II Ang contends that in an era marked by global economic dependence the nation state has only become more rather than less central to organizing social life via tropes of race that cast human and cultural differences in morally charged terms Focusing on a series of Asian American and Malaysian texts Ang tracks the significance of two figures in particular the model minority and the communist spy Appearing in novels politics and popular culture these stereotypes anchor powerful narratives about race global capital and state sovereignty In exploring the United States and Malaysia two countries that seem to not have much in common Ang reveals how they share very similar ways of conceptualizing race and sheds light on an emerging global story of value *Race, State, and Armed Forces in Independence-Era Brazil* Hendrik Kraay,2004-08-01 Focusing on the military institutions army militia and National Guard of Bahia Brazil this book analyzes the region s transition from Portuguese colony to province of the Brazilian Empire It examines the social racial and cultural dimensions of post independence state building in one of the principal slave plantation regions of the Americas Contrary to those who stress the autonomy of the Brazilian state this book documents the close connections between the locally organized armed forces and society in the late colonial period Racially segregated and mirroring the class hierarchies of the larger society these military institutions were profoundly transformed by the war for independence in the early 1820s In its aftermath the new Brazilian state gradually built a national army breaking the local orientation of the Bahian regulars by the 1840s The National Guard locally oriented and democratic in its 1831 organization was turned into a state controlled corporation in the 1840s These developments deeply affected the lives of the men and women involved in the armed forces and a main aim of this book is to examine their participation in the complex and convoluted process of state building The liberalism used to justify independence and the creation of an imperial state resonated among ordinary soldiers and officers as it provided an ideology and language with which to challenge important features of late colonial military organization such as racial segregation and corporal punishment Racial discrimination formally eliminated in the 1830s shaped racial politics in the military while the construction of a national army undermined the previously close connections of officers and soldiers to the mainstream of Bahian society *A State-by-State History of Race and Racism in the United States* Patricia Reid-Merritt,2018-12-07 Providing chronologies of important events historical narratives from the first settlement to the present and biographies of major figures this work offers readers an unseen look at

the history of racism from the perspective of individual states From the initial impact of European settlement on indigenous populations to the racial divides caused by immigration and police shootings in the 21st century each American state has imposed some form of racial restriction on its residents The United States proclaims a belief in freedom and justice for all but members of various minority racial groups have often faced a different reality as seen in such examples as the forcible dispossession of indigenous peoples during the Trail of Tears Jim Crow laws crushing discrimination of blacks and the manifest unfairness of the Chinese Exclusion Act Including the District of Columbia the 51 entries in these two volumes cover the state specific histories of all of the major minority and immigrant groups in the United States including African Americans Hispanics Asian Americans and Native Americans Every state has had a unique experience in attempting to build a community comprising multiple racial groups and the chronologies narratives and biographies that compose the entries in this collection explore the consequences of racism from states perspectives revealing distinct new insights into their respective racial histories [A State-by-state History of Race and Racism in the United States](#) Patricia Reid-Merritt,2019

Race and Diplomacy in Zimbabwe Timothy Lewis Scarnecchia,2023-03-09 The Rhodesian crisis of the 1960s and 1970s and the early 1980s crisis of independent Zimbabwe can be understood against the background of Cold War historical transformations brought on by among other things African decolonization in the 1960s the failure of American power in Vietnam and the rise of Third World political power In this history of the diplomacy of decolonization in Zimbabwe Timothy Scarnecchia examines the rivalry between Joshua Nkomo and Robert Mugabe and shows how both leaders took advantage of Cold War racialized thinking about what Zimbabwe should be Based on a wealth of archival source materials Scarnecchia uncovers how foreign relations bureaucracies in the US UK and South Africa created a Cold War race state notion of Zimbabwe that permitted them to rationalize Mugabe s state crimes in return for Cold War loyalty to Western powers This title is also available as Open Access on Cambridge Core [The Biopolitics of Race](#) Sokthan Yeng,2013-11-11 Many political figures insist that their anti immigration sentiments have nothing to do with race and racism Americans seem largely unconvinced which is why politicians must protest so loudly and often In order to deflect accusations of racism public figures evoke the neo liberal principle that calls for protection of state health and resources Yet contemporary philosophers such as Hanna Arendt Michel Foucault and Giorgio Agamben argue that neo liberal ideology is racist Sokthan Yeng applies their analysis to the debate over immigration policies to show that neo liberalism not only recodes traditional racist rhetoric but also expands systemic racism Politicians can say that their anti immigration policies are meant to protect the nation s economy and strength It is no coincidence however that the populations most affected by these regulations are ethnic and cultural minorities such as Mexican and Muslim immigrants The analysis presented in *The Biopolitics of Race* will be valuable to philosophers and other scholars or students interested in critical race theory feminism and queer theory It also has implications for anyone working in public health bioethics or migration studies [Vital Statistics- Special Reports](#) ,1941
